Subject: TR: CBD Notification 2019-041 - Invitation to provide information on new and emerging issues relating to the conservation and sustainable use of biodiversity and the fair and equitable sharing of benefits arising from the use of genetic resources for the

Dear Sir, madam,

We are writing to you today consequently to the below email and solicitation.

We would like to check the representation of the Groupe Rocher (standing for Yves Rocher and other brands) as an observer to meetings of the Conference of the Parties and its subsidiary bodies. It seems that we already were members via the Yves Rocher foundation but we would like to enlarge our representation to the Group level.

We are by the way also present in the executive committee of the Global Partnership platform.

Thus, we have a thematic we would like to submit : Biodiversity accountability.

Indeed we consider that today the variety of accountability tools available is not enough discussed in CBD meetings. There is a main focus on Natural Capital. Other approaches could be also valorized in meeting debates. For example, it would be very convenient to highlight the different academic works led by OREE (active for the past 15 years on these subjects); this would be coherent with the multidimensional approach shared by Gilles Kleitz's work at COP14 CBD concerning the governance of nature's financing and costs.

We would besides be interested into having more debate on this subject at CBD.

Please let us know if you have any questions, we would be very pleased to share OREE's work if needed.

Sincerely yours,

Anaïs PICARD BLAIN

Ref.: SCBD/SSSF/AS/VA/88061

NOTIFICATION

No. 2019-041

Dear Madam/Sir,

In section II of decision IX/29, the Conference of the Parties decided on the process for the identification of new and emerging issues relating to the conservation and sustainable use of biodiversity and the fair and equitable sharing of benefits arising from the use of genetic resources.

Accordingly, I am pleased to invite you to submit any proposals for new and emerging issues for the future work programmes of the Convention. As indicated in paragraph 11 of the same decision, proposals should, where possible, be accompanied with information on:

(a) Why the issue needs urgent attention by the Subsidiary Body on Scientific, Technical and Technological Advice (including how it impacts biodiversity); (b) How it affects the attainment of the objectives of the Convention (citing relevant articles); (c) Thematic programmes of work and/or cross-cutting issues that could contribute to the resolution of the issue; (d) Work already under way by relevant organizations addressing the issue; and (e) Credible sources of information, preferably from peer-reviewed articles.

Proposals should be sent to the Secretariat at: secretariat@cbd.int, as soon as possible and no later than 23 May 2019.

The proposals will be compiled and further comments and views will be sought for subsequent consideration by the Subsidiary Body on Scientific, Technical and Technological Advice at its twenty-third meeting.

Thank you for your cooperation and your continued support of the work of the Convention.
