Introduction

The Handbook of the Financial Mechanism under the Convention on Biological Diversity presents a compilation of reference materials that are related to the financial mechanism of the Convention on Biological Diversity and that are essential in considering the relationship between the Convention and the Global Environment Facility. It is a convenient tool to be used in negotiations or other processes that have a bearing on the development of such a relationship.

Biodiversity Projects Financed by the Global Environment Facility, prepared as a companion to the Handbook, provides complementary information on the funding activities of the financial mechanism. It is based on the biodiversity-only information generated from the database of the Global Environment Facility. GEF-funded projects in all of its six focal areas can be found in the Operational Report published by the Global Environment Facility. The GEF project database (<http://www.gefonline.org/home.cfm>) includes both approved projects (updated quarterly) and proposals in the pipeline (updated four times annually).

Global

Agency	Project Title	GEF Amount	Cofin Amount	Approval Date
