Public responsiveness

Implementation on the ground

Transition from policy to realization

Invites Parties to...

- Integrate national action plans for the programme of work on protected areas (PoWPA) into updated national biodiversity strategies and action plans (NBSAP);
- Adopt PoWPA Action Plans/NBSAPs as policy instruments;
- Use NBSAPs as the primary framework implementation; and
- Use them as the basis for securing financial support (national budgets and bilateral and

Para 3: Invited GEF and its implementing agencies to facilitate align the development and implementation of PA projects with actions identified in the NBSAPs by clearly articulating the linkages in project documents with a view to facilitate systematic monitoring and reporting of the results of those projects as they contribute to achieving Aichi targets.

Para 7: Invites regional initiatives, organizations and agencies, IUCN WCPA and others to coordinate their activities and to foster regional cooperation partnerships and implementation strategies, so as to support implementation of national action plans.

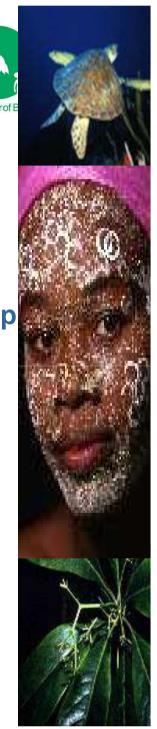

•Para 8: Invites IUCN. Its regional offices, WCPA, BIOPAMA, DOPA, including JRC, major BINGOS to align their capacity initiatives on capacity building so as to further support implementation of national action plans and continue develop technical guidance.

An overall action plan
