

Expectations of Workshop Participants

 links between REDD+ and NBSAP

REDD+ progresses

Learn about:

- REDD+ and Aichi Targets
- synergies between REDD+ & Aichi Targets
- forest management for REDD+ & Alchi Targets

Information and mechanism for national application of REDD+ and Aichi Biodiversity Targets

Integrate processes:

- for developing countries on how to unify agendas and strategies
- through identification of activities and strategies

Identify ways:

- to link biodiversity with REDD+ processes and outputs and vice versa
- in which countries can work together
- concrete steps to achieve identified synergies

Apply lessons learned to REDD+ strategies and NBSAPs and improve capacities to implement them
