The International travel, health and vaccination requirements for travel to Kenya can be obtained from the World Health Organization (WHO) web site: <http://apps.who.int/tools/geoserver/www/ith/index.html>. There are several vaccinations that are recommended.

A yellow fever vaccination certificate is required from travellers over one year of age coming from countries with risk of yellow fever transmission. The cities of Nairobi and Mombasa have lower risk of transmission than rural areas.

Risk of Malaria exists throughout the year in the whole country. Normally, there is little risk in the city of Nairobi and in the highlands (above 2,500 m) of Central, Eastern, Nyanza, Rift Valley and Western provinces.

For more information, please consult a medical professional with regard to the vaccination requirements for your travel.

Please note that Kenyan tap water is not safe to drink, however, bottled water is readily available.

14. General Safety Rules for Travellers to Kenya

As in other countries, it is advisable to hand in your passport, traveller's cheques, excess money and any other valuables to be locked in the hotel's safe. Alternatively, where available, arrange to hire a safety deposit box. It is a sensible precaution not to walk alone in isolated towns or beach areas. Ask advice from your hotel manager or tour representative. Some precautions are as follows:

- Make a copy of your passport and keep it in your luggage.
- Don't walk on your own at night in the major cities or on empty beaches.
- Don't carry too much cash with you.
- Wear a money belt that fits under your clothes.
- Don't carry a lot of camera equipment especially in the major cities.

A "UN Security advice for visitors" is attached as Annex I which contains general information on travel safety within Kenya.

15. Disclaimer

The CBD Secretariat disclaims all responsibilities for medical, accident and travel insurances, for compensation for death or disability compensation, for loss of or damage to personal property and for any other losses that may be incurred during travel time or the period of participation. In this context, it is strongly recommended that participants will secure international medical, accident and travel insurances for the period of participation prior to departure.

Security Advice for

UN Visitors

SECURITY IN KENYA

Kenya is currently at Phase 1 of the UN Security Plan. Nairobi is in Phase 1 but the following areas are off limits to UN Staff and visitors; Kibera, Mathare, Kariobangi, Dandora, and, Huruma. Security Clearance must be sought before visiting the said areas. The following areas are phase 3; The entire North Eastern Province; All areas North of Loyengalani and The entire Marsabit and Moyale District in Eastern Province; All areas North of Lodwar; the road running North East from Lodwar to Ferguson's Gulf on Lake Turkana District in Rift Valley and the entire Tana River District, and Mt Elgon district in Western Province. All UN staff and visitors to Kenya need a security clearance to enter the country and a further security clearance to go to any of the Phase 2 and 3 areas. All Security Clearances are processed online using ISECT at the DSS Website (<http://dss.un.org>). Both Basic and Advanced Security in the field trainings are mandatory to all UN staff and Visitors and can be accessed at the same website. The General Elections were held on 27th December 2007. The outcome was hotly disputed leading to unrest and violence in several major towns in the Country. Politically instigated demonstrations and riots may occur at any time. Crime in Nairobi has been increasing and like many other large cities, it is no longer the safe place that it used to be. If you are intending to stay in a hotel, you are strongly advised to stick to those in the recommended list. For transit Passengers, Panari Hotel, is recommended for the short stay. It is located 5km from JKIA

PERSONAL SECURITY

Street muggings can occur at any time of the day and night in both Nairobi and Mombasa. Be alert and follow these simple rules:

- < Keep to the main parts of Nairobi and don't be tempted to go to places that you are not sure of.
- < Keep to the main roads and avoid short cuts down back alleys etc.
- < **Never walk at night** in the centre of Nairobi even for a short distance - always take a taxi.
- < Be particularly wary of people hanging around outside hotels; it is a favourite place to catch tourists and mug them.
- < Ignore the street children and people coming up to you in the streets with hard luck tales. Street children can become violent and the latter may be part of an elaborate scam or they might just simply be pick pockets. The best thing to do is just to walk on and ignore them.
- < Do not carry large sums of money when shopping and do not wear expensive jewellery etc.
- < Do not accept food and drink from strangers; visitors have known to be drugged and then robbed.

CREDIT CARD FRAUD

Credit card fraud is common in Nairobi as in many other large cities so follow commonsense rules. Try and ensure that credit card slips are endorsed in your presence and if you have to use a slip as a deposit, always fill the amount in and check that you get the slip back.

ROAD TRAVEL

Taxis. Try and take JIM cab, Jatco or Kenatco (telephone numbers listed overleaf). The local unlicensed taxis are often unreliable, unroadworthy and should be avoided. Always confirm the fare in advance if there is no meter. **Never** take a lift from a stranger.

Hire Cars. Only hire cars from a reputable car hire firm; a short list of some reputable car hire firms is overleaf. You can then be certain that you have the right insurance cover, the vehicle has been maintained and it will be in reasonably good condition.

Matatus and Buses. You are strongly advised to be extra cautious whenever you have to travel with the public transport, however exciting they might look. In the case of matatus, they are sometimes unroadworthy and badly driven and their accident record is appalling, particularly on up country routes. Pickpockets are known to frequent both buses and matatus, which add to the hazards of traveling on them.

DRIVING

Some of the roads in Nairobi and Up country are in a very poor state with some impassable. Therefore,

- < Always drive defensively, expecting the worst and from the most unlikely sources.
- < Keep doors locked and valuables out of sight when driving.
- < Only open car windows 10 to 12 cms particularly when stopped at traffic lights etc. Necklaces and bags can easily be snatched.
- < Never drive a Vehicle when under the influence of Alcohol or any other intoxicant.

If you travel outside Nairobi, go well prepared and **never drive at night.**

- < Tell someone where you are going and when you expect to be back.
- < If you hire or borrow a vehicle make sure that it is in good condition.
- < Take essential spares and some food and water.
- < Be very reluctant to stop for people apparently looking for help on the road side. Frequently they wait for people to stop and either rob you or steal your car.

ARMED VEHICLE HIJACKING

This is a common crime in Nairobi. If you become the victim of a car hijacking do as you are told and do not resist the hijackers. Do not attempt to escape them by driving fast.

If you comply, there is every chance that you will be released unharmed. Always take basic precautions highlighted above seriously. According to Police Statistics most of the current carjackers are petty criminals. They usually apply some of the tactics to trap their unsuspecting victims.

- i. The Good Samaritan –Someone appears to be in need of help and you stop to assist, then you get Carjacked.
- ii. The Gate –The Carjackers Ambush you as you wait for the gate to your Residence to be opened.
- iii. The Road block-They erect a road block in a road with little traffic of during the late hours of the night.
- iv. The Accident – The Carjackers use a Second Vehicle to bump onto your car forcing you to stop.

Nb. This list of tactics is not exhaustive. However the best precaution one can take is to be Alert always **AND NEVER ATTEMPT TO BE A HERO** if you are confronted by carjackers.

SAFARIS

Except as indicated, most game parks and other tourist areas are usually safe but muggings and armed attacks can occur anywhere and at anytime. The Samburu, Shaba and the Masai Mara game reserves have all experienced bandit attacks in the past. On security grounds you are strongly advised to avoid the whole of North Eastern Province, Tana River District in Coast Province and Isiolo and Marsabit Districts in Eastern Province. If you go to Lamu, you are strongly advised to fly; from Malindi to Garsen to Lamu the road is both insecure and in poor condition and you have to travel by convoy. Book your safaris through a reliable travel agent and you can then be fairly certain that any vehicle that is provided and the way the safari is conducted will be safely done. If you wish to go to Samburu or Shaba game parks, you should go with a tour operator or if on your own, take a KWS guard whilst in the park. The official UN Travel Agents at Gigiri, Acharya and Bunson Travel can advise.

THEFTS

When checking out of a hotel ensure that you keep briefcases, handbags and small luggage with you as these items are extremely attractive and have been stolen from inside hotel lobbies whilst guests are busy checking out. Always ensure that items which are attractive and valuable are kept out of sight.

DIPLOMATIC POLICE UNIT.
