REGIONAL WORKSHOP FOR THE PACIFIC ON
UPDATING NATIONAL BIODIVERSITY
STRATEGIES AND ACTION PLANS -
INCORPORATING WORK ON VALUATION AND
INCENTIVE MEASURES
Nadi, Fiji, 3-7 October 2011

ANNOTATIONS TO THE PROVISIONAL AGENDA

INTRODUCTION

1. In decision X/2, the Conference of the Parties adopted the Strategic Plan for Biodiversity (2011-2020). In the same decision, the Conference of the Parties urged Parties and other Governments to develop national and regional targets, using the Strategic Plan as a flexible framework, and to review, update and revise, as appropriate, their national biodiversity strategies and action plans in line with the Strategic Plan and the guidance adopted in decision IX/9. The Conference of the Parties also urged Parties and other Governments to support the updating of national biodiversity strategies and action plans as effective instruments to promote the implementation of the Strategic Plan and to use the revised and updated national biodiversity strategies and action plans as effective instruments for the integration of biodiversity targets into national development and poverty reduction policies and strategies, national accounting, economic sectors and spatial planning processes.

2. In the same decision, the Conference of the Parties also emphasized the need for capacity-building activities and the effective sharing of knowledge to support all countries, especially developing countries, in particular the least developed countries, small island developing States, and the most environmentally vulnerable countries, as well as countries with economies in transition, and indigenous and local communities, in the implementation of the Strategic Plan.

3. In response, the Executive Secretary is organizing a series of regional or subregional workshops on updating national biodiversity strategies and action plans (NBSAPs) in 2011 and 2012. The workshop for the Pacific region will be held in Nadi, Fiji from 3 to 7 October 2011 and is organized thanks to the generous financial support from the Government of Japan and in collaboration with the Secretariat of the Pacific Regional Environment Programme (SPREP), the International Union for Conservation of Nature (IUCN) and the Government of Fiji.

4. Paragraph 17 (f) of decision X/2 (Strategic Plan for Biodiversity 2011-2020 and the Aichi Biodiversity Targets) requests the Executive Secretary to support countries, through capacity-building workshops, in making use of the findings of the TEEB study and in integrating the values of biodiversity into relevant national and local policies, programmes and planning processes. In paragraph 7 of decision X/44 (incentive measures), the Conference of the Parties requested the Executive Secretary to convene regional workshops for the exchange among practitioners of practical experiences on the removal and

/...

mitigation of perverse incentive measures and on the promotion of positive incentives, with a view to building or enhancing capacities of, and promoting common understanding among, practitioners. Pursuant to these requests, valuation and incentive measures will be a particular focus of this workshop.

5. In pursuance of paragraph 7 (b) of decision X/31, which requests the Executive Secretary to provide additional technical support on themes of the programme of work on protected areas, and in collaboration with the SPREP, the Secretariat of the Convention on Biological Diversity is also organizing a subregional capacity-building workshop for implementing the programme of work on protected areas (PoWPA) in parallel with this NBSAP workshop. These workshops will, as far as practical, be integrated but it is envisaged that specifics that relate only to each workshop will run in parallel. A separate annotated agenda will be issued for the PoWPA workshop and is available at: <http://www.cbd.int/doc/?meeting=WSCBPA-PAC-01>.

6. Finally, as this workshop focuses on island Parties as listed in paragraph 9 below, and as the Conference of the Parties decided, through decisions IX/21 and X/9, to address, at the sixteenth meeting of the Subsidiary Body on Scientific, Technical and Technological Advice and the eleventh meeting of the Conference of the Parties, the in-depth review of the programme of work on island biodiversity, participants will be asked to provide updates on: (i) the extent of implementation; (ii) status and trends of island biodiversity and drivers of change; (iii) constraints to implementation; (iv) activities and views of relevant organizations; and (v) key responses and suggestions to maximize the contribution of the programme of work to the Strategic Plan for Biodiversity 2011-2020 and its goals and targets.

7. The specific objectives of the workshop are to:

(a) Facilitate national implementation of the Strategic Plan for Biodiversity 2011-2020, including by assisting Parties to develop national biodiversity targets in the framework of the Aichi Biodiversity Targets;

(b) Assist Parties in reviewing, updating, revising and implementing their national biodiversity strategy and action plans, with consideration given to how they can serve as an effective tool for mainstreaming biodiversity into broader national policies and for implementing the programme of work on island biodiversity;

(c) Raise awareness to stimulate early actions to implement other Aichi-Nagoya outcomes, in particular, the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from Their Utilization and the Nagoya-Kuala Lumpur Supplementary Protocol on Liability and Redress to the Cartagena Protocol on Biosafety;

(d) Support countries in making use of the findings of the third edition of the Global Biodiversity Outlook (GBO-3) and The Economics of Ecosystems and Biodiversity (TEEB) study, and in considering how the findings could be integrated into updated and revised NBSAPs;

(e) Facilitate active learning opportunities and peer-to-peer exchanges for National Focal Points and persons in charge of implementing and revising NBSAPs;

(f) Provide for the integration of PoWPA into NBSAPs so as to ensure alignment with the Strategic Plan for Biodiversity 2011-2020 and the Aichi Biodiversity Targets.

8. Expected outcomes of the workshop include:

(a) Adoption of national targets in line with the Strategic Plan by 2012;

(b) A new generation of updated and revised NBSAPs, adopted as policy instruments and fully integrated into national planning processes by 2014;

(c) Early entry into force of the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from Their Utilization and the Nagoya-Kuala Lumpur Supplementary Protocol on Liability and Redress to the Cartagena Protocol on Biosafety;

(d) Effective implementation of other decisions adopted at the tenth meeting of the Conference of the Parties, particularly as relates to the promotion of the TEEB findings, the in-depth review of the programme of work on island biodiversity and positive incentive measures for the conservation and sustainable use of biodiversity; and

(e) Effective sharing of knowledge, practices and technologies in support of the implementation of the Convention.

9. The following countries are invited to participate in the workshop: Cook Islands, Fiji, Kiribati, Marshall Islands, Micronesia (Federated States of), Nauru, Papua New Guinea, Niue, Palau, Samoa, Solomon Islands, Tonga, Tuvalu and Vanuatu.

10. Participants in the workshop will comprise officials and experts from each of the countries in the region responsible for the development, updating and/or implementation of NBSAPs and integrating biodiversity into national development strategies and planning processes. As indicated in the notification for this workshop, the nominated participants “should be in a position to translate the capacity gained into concrete actions in support of national implementation”.

11. The Secretariat is issuing an information note for participants containing details of logistical arrangements, including information on travel, visa requirements, accommodation and other matters for the workshop. The information note is available at <http://www.cbd.int/nbsap/workshops2/pacific/>. The language of the workshop will be English.

12. Participants are requested to bring copies of their country’s fourth national report and national biodiversity strategy and action plan, both in printed and electronic formats, to the workshop. Participants are also requested to provide the Secretariat at secretariat@cbd.int with any useful documents (e.g. electronic files, web addresses) prepared by their country in relation to the national biodiversity strategy and action plan and its implementation. This might include information on tools and guidelines for NBSAP implementation, reviews or progress reports generated at the national level on the national biodiversity strategy and action plan for the purposes of monitoring and evaluation, communication strategies, case-studies illustrating how biodiversity has been integrated into economic sectors, including and in particular pertaining to (i) the integration of biodiversity values; (ii) the removal, phase out or reform of incentives harmful for biodiversity; and (iii) the promotion of positive incentive measures for the conservation and sustainable use of biodiversity; national strategies for sustainable development, poverty eradication and to achieve the Millennium Development Goals (MDGs) as well as strategies to address the threats posed by invasive alien species. We will be drawing on these national examples and experiences throughout the workshop, and will also incorporate information provided in the Convention’s clearing-house mechanism.

13. Registration of participants will commence on site at 8 a.m. on 3 October 2011.

ITEM 1. OPENING OF THE WORKSHOP

(This session will be held in conjunction with the PoWPA workshop for the Pacific)

14. A representative of the host Government will open the meeting at 8:30 a.m. on 3 October 2011. Representatives of SPREP and the CBD Secretariat will also make opening statements.

15. Following self-introductions of participants, the Secretariat of the Convention on Biological Diversity will give an overview of the objectives and expected outcomes of the workshop.

16. The provisional agenda of the workshop prepared by the Executive Secretary is available as document UNEP/CBD/CBW-NBSAP/PA/2/1. The proposed organization of the workshop is provided in annex I below.

17. The emphasis of the workshop will be on exchange and active learning. With this in mind, the workshop format features a mix of presentations with question and answer sessions, discussions in small working groups, and interactive sessions to introduce relevant tools and training modules. A field study

/...

visit will be organized illustrating the mainstreaming of biodiversity. In addition, there will be opportunities for one-on-one discussions between participants and members of the Secretariat of the Convention.

ITEM 2. REVIEW OF FINDINGS OF GBO-3 AND OVERVIEW OF THE AICHI-NAGOYA OUTCOMES

(This session will be held in conjunction with the PoWPA workshop for the Pacific)

18. The tenth meeting of the Conference of the Parties adopted a total of 47 decisions. Among them are the three decisions by which the Nagoya Protocol on Access and Benefit-sharing, the Strategic Plan for Biodiversity 2011-2020 and the Strategy for Resource Mobilization were adopted. In addition, the fifth meeting of the Conference of the Parties serving as the meeting of the Parties to the Cartagena Protocol on Biosafety (COP-MOP-5) adopted a Strategic Plan for the Protocol and the Kuala Lumpur-Nagoya Supplementary Protocol on Liability and Redress.

19. Under this agenda item, the Secretariat will introduce:

- (a) The Strategic Plan for Biodiversity 2011-2020, in particular the Aichi Biodiversity Targets;
- (b) The Nagoya Protocol on Access to Genetic Resources and the Equitable Sharing of Benefit Arising from its Utilization;
- (c) The Kuala Lumpur-Nagoya Supplementary Protocol on Liability and Redress;
- (d) The main findings from the third edition of the Global Biodiversity Outlook;
- (e) The United Nations Decade on Biodiversity.
- (f) Several decisions pertaining to the implementation of the PoWPA action plans and to the in-depth review of the programme of work on island biodiversity.

20. Participants will be invited to share their initial thoughts on plans to implement these important outcomes.

21. Following a question and answer session, participants will discuss early actions needed to follow up on the Aichi-Nagoya outcomes, with particular focus on:

- (a) The early entry into force of the Nagoya Protocol on Access and Benefit-sharing; in addition, later during the workshop there will be a detailed discussion of the Nagoya Protocol and benefits for both users and providers of genetic material;
- (b) The Kuala Lumpur-Nagoya Supplementary Protocol on Liability and Redress;
- (c) Initiation of the process of updating NBSAPs, including application of resources available from the Global Environment Facility.

ITEM 3. OVERVIEW OF ONGOING CAPACITY-BUILDING ACTIVITIES (GAPS AND OPPORTUNITIES)

22. SPREP will lead a session on existing capacity-building activities in the region and how they relate to implementation of the Strategic Plan, revision, updating and implementation of NBSAPs and implementation of PoWPA action plans. Following a presentation by SPREP, participants will break out into small groups to identify their specific capacity-building needs.

ITEM 4. REVISION AND UPDATING OF NATIONAL BIODIVERSITY STRATEGIES AND ACTION PLANS: ASSESSMENT AND COP GUIDANCE

23. In decision VIII/8 (paragraph 10 (a) (ii)), the Conference of the Parties decided to conduct an in-depth review of the implementation of goals 2 and 3 of the Strategic Plan for the period 2002-2010, with focus on the status of national biodiversity strategies and action plans, their implementation and

updating, and the extent to which biodiversity concerns are effectively integrated into relevant sectors and have been effectively mainstreamed in accordance with Article 6 (b) of the Convention. The Secretariat organized a series of regional and subregional workshops during 2008 and 2009 to contribute to such a review. The review of goals 2 and 3 of the Strategic Plan (2002-2010) was presented to the ninth meeting of the Conference of the Parties which adopted, in its decision IX/8, on guidance for the development, updating and implementation of NBSAPs.

24. With the understanding that a review of lessons and experiences learned in the past will inform future actions, the Secretariat will introduce:

(a) Findings from the first round of regional and subregional workshops on NBSAPs and mainstreaming of biodiversity (a total of 12 held from 2008 to 2009);

(b) Findings of the study *Biodiversity Planning: an assessment of national biodiversity strategies and action plans* undertaken by the United Nations University – Institute for Advanced Studies (UNU-IAS);

(c) Guidance for NBSAPs adopted by the Conference of the Parties at its ninth meeting and how this might be reflected in the elements of an NBSAP;

(d) The series of training modules developed by the Secretariat, focussing initially on modules 2 and 3.

25. A presentation of best practices in the preparation of national targets and indicators, and in development, revision and updating of NBSAPs will be made.

26. Participants will be invited to undertake a rapid assessment exercise that would allow them to quickly assess NBSAP effectiveness and identify potential gaps and strategies to move forward.

ITEM 5. SETTING NATIONAL AND REGIONAL TARGETS IN THE FRAMEWORK OF THE AICHI BIODIVERSITY TARGETS

(Some presentations and exercises in this item will be held in conjunction with the PoWPA workshop for the Pacific)

27. While adopting the Strategic Plan for Biodiversity 2011-2020, the Conference of the Parties urged Parties and other Governments to develop national and regional targets, using the Strategic Plan as a flexible framework. Parties were also requested to report to the eleventh meeting of the Conference of the Parties on their national targets adopted in line with the Aichi Biodiversity Targets.

28. Under this item, the Secretariat will, at the outset, introduce a review of national targets beyond 2010 contained in the fourth national reports. The Secretariat will present a guide to the Strategic Plan for Biodiversity 2011-2020 and a training module on the development of national targets for implementing the Strategic Plan and the Convention (module 4).

29. Countries in the region that have developed national biodiversity targets will be invited to share these with other participants.

30. As a learning exercise, participants will work in groups to undertake diagnostic assessments of potential contributions to achieving global strategic goals and targets in the Strategic Plan for Biodiversity 2011-2020. Following group exercises, participants will be invited to propose examples of potential national targets and present their rationales for such targets.

31. This agenda item will be considered together with agenda items 6 and 7, taking the targets of the Strategic Plan goal by goal (see the programme in annex I below).

ITEM 6. INTEGRATING BIODIVERSITY INTO RELEVANT NATIONAL AND LOCAL PLANNING PROCESSES

(Some presentations and exercises in this item, will be held in conjunction with the PoWPA workshop for the Pacific)

32. The importance of integrating biodiversity considerations into relevant national and local planning processes is underlined in Article 6(b) of the Convention and has been stressed in many decisions of the Conference of the Parties, including the eighth meeting, when, in considering the implications of the findings of the Millennium Ecosystem Assessment, Parties and other Governments were urged to promote dialogue among different sectors, to mainstream biodiversity, at the regional and national levels including, when appropriate, through the processes of the Convention, to address linkages between the conservation and sustainable use of biodiversity and, among others, international trade, finance, agriculture, forestry, tourism, mining, energy and fisheries. This was reflected in the guidance for NBSAPs adopted by the Conference of the Parties at its ninth meeting. At its tenth meeting, in its decision on the Strategic Plan for Biodiversity 2011-2020, the Conference of the Parties called for NBSAPs to be adopted as policy instruments.

33. Under this item, participants will hear a number of presentations on processes and tools for mainstreaming biodiversity into relevant national and local planning processes, including strategic environmental assessments, landscape and spatial planning.

34. Some countries will be invited to share their success stories or cases in mainstreaming biodiversity into various relevant sectors and cross-sectoral strategies, including strategies for poverty alleviation, achieving the MDGs and sustainable development, as well as into local planning processes.

35. The Secretariat will introduce key findings from the Economics of Ecosystem Services and Biodiversity (TEEB) study, and make a presentation on how to use evaluation of biodiversity and ecosystem services as a tool for mainstreaming.

36. Participants will discuss in groups ways and means to mainstream biodiversity into relevant national and local planning processes, including sectoral and cross-sectoral strategies, plans and programmes.

37. A field trip will be arranged by the Government of Fiji during half a day of the workshop. The field trip will include visit to demonstrate how biodiversity is mainstreamed into local planning processes.

ITEM 7. VALUATION AND INCENTIVE MEASURES AS A TOOL FOR MAINSTREAMING

(This session will be held in conjunction with the PoWPA workshop for the Pacific)

38. As noted in paragraph 4, valuation and incentive measures will be a particular focus of this workshop. The purpose is to familiarize participants with the pertinent tools and methodologies to build capacity and strengthen focus, in the revised NBSAP, on biodiversity valuation, the removal or mitigation of perverse incentives, and the promotion of positive incentive measures, as important tools for biodiversity mainstreaming, thereby contributing to implementing targets 2 and 3 of the Strategic Plan for Biodiversity 2011-2020. Key findings from the TEEB studies will be presented as an introduction to these agenda items. The subsequent work under these agenda items will be structured in accordance with the content of targets 2 and 3 of the Strategic Plan and PoWPA.

39. Target two of the Strategic Plan calls for the integration, by 2020 at the latest, of biodiversity values in national and local development and poverty reduction strategies and planning processes, as well as their incorporation in national accounting, as appropriate, and reporting systems. Moreover, in decision X/44 on incentive measures, the Conference of the Parties invited Parties and other Governments, in accordance with their national legislation, to take measures and establish, or enhance, mechanisms with a view to accounting for the values of biodiversity and ecosystem services in public and private sector decision-making, including by revising and updating national biodiversity strategies and action plans to

further engage different sectors of government and the private sector, building on the work of the TEEB study and other relevant initiatives.

40. Under this sub-item, participants will hear a presentation from a global perspective on the valuation of ecosystem services and biodiversity and on incorporating biodiversity values in national accounting, building on the outcomes of the TEEB studies and other relevant work. Countries will subsequently be invited to share national experiences and lessons learned in undertaking valuation and green national accounting. This will be followed by a plenary discussion, which will also address the valuation of the costs and benefits of protected areas including ecosystem services. Participants will also undertake a group exercise in the valuation of biodiversity and ecosystem services.

41. Participants will subsequently work in groups to carry out an analysis of existing NBSAPs and their implementation against Target 2 of the Strategic Plan, identifying possible national targets, actions and associated indicators likely to be incorporated into an updated NBSAP.

42. Target 3 of the Strategic Plan calls for the elimination, phasing out or reform, by 2020 at the latest, of incentives, including subsidies, harmful to biodiversity, and the development and application of positive incentives for the conservation and sustainable use of biodiversity, consistent and in harmony with the Convention and other relevant international obligations, taking into account national socioeconomic conditions. In the same vein, decision X/44 urges Parties and other Governments to prioritize and significantly increase their efforts in actively identifying, eliminating, phasing out, or reforming existing harmful incentives, and encourages Parties and other Governments to promote the design and implementation, in all key economic sectors, of positive incentive measures for the conservation and sustainable use of biodiversity that are effective, transparent, targeted, appropriately monitored, cost-efficient.

43. Under this sub-item, participants will hear presentations from a global perspective on addressing incentives that are harmful for biodiversity and on promoting positive incentives, including lessons learned from the TEEB studies and other relevant work, including global workshops organized by the SCBD on incentive measures. A few countries will be invited to share their national experiences and lessons learned in this regard, followed by a discussion in plenary on how these issues can be further advanced

44. Participants will subsequently work in groups to undertake an analysis of existing NBSAPs and their implementation against Targets 2 and 3 of the Strategic Plan, identifying possible national targets, actions and associated indicators likely to be incorporated into an updated NBSAP.

ITEM 8. RESOURCE MOBILIZATION FOR NBSAP IMPLEMENTATION

(This session will be held in conjunction with the PoWPA workshop for the Pacific)

45. While reviewing progress towards Targets 2 and 3 of the Strategic Plan 2002-2010, a majority of Parties identified lack of financial, technical and human resources as the biggest challenge faced in the implementation of the NBSAP and the Convention. According to the guidance on NBSAPs adopted at the ninth meeting of the Conference of the Parties, Parties should develop a plan to mobilize national, regional and international financial resources in support of priority activities, considering existing and new funding sources, during the process of revising and updating NBSAPs. The tenth meeting of the Conference of the Parties, in its decision X/3, adopted the Strategy for Resource Mobilization in support of the achievement of the Convention's three objectives. In the same decision, the Conference of the Parties reiterated that national implementation of the strategy for resource mobilization should include, as appropriate, the design and dissemination of a country-specific resource mobilization strategy, with the involvement of key stakeholders, in the framework of updated national biodiversity strategies and action plans. The tenth meeting also stressed the importance of mobilizing the necessary resources for mainstreaming biodiversity in national strategies for sustainable development and poverty reduction strategies in order to better integrate biodiversity in national, regional and local decision-making processes.

46. Under this agenda item, participants will undertake a preliminary assessment of resources needed for implementation of the NBSAP, including the costs to address additional issues in an updated NBSAP. Participants will have a plenary discussion to identify opportunities for funding from various sources, including innovative funding mechanisms. Participants will also discuss in plenary incentives that are harmful to biodiversity as well as positive incentives and biodiversity funding gaps.

47. Finally, participants will work in groups to analyse the potential funding needs for NBSAPs.

ITEM 9. STAKEHOLDER ENGAGEMENT AND STRATEGIC COMMUNICATION

48. Stakeholder engagement and involvement are crucial to ensure that relevant stakeholders have the ownership of national biodiversity strategies and action plans and voluntarily take actions to achieve goals and targets identified in the NBSAP. To do this, strategic communication of the NBSAP for wider acceptance and ownership by relevant stakeholders is very important for revising and implementing the NBSAP. The Conference of the Parties in its many decisions, particularly decision IX/8, encouraged Parties and Governments to engage indigenous and local communities, all relevant sectors and stakeholders, including representatives of society and the economy, that have a significant impact on, benefit from or use biodiversity and its related ecosystem services.

49. Under this agenda item, the Secretariat will introduce modules 5 and 7 and participants will hear presentations on how to engage relevant stakeholders in the process of revising, updating and implementing NBSAPs. Participants will also undertake group exercises on this topic, identifying ways and means to engage and involve relevant stakeholders and communicate the NBSAP by various means, particularly by promoting the International Day for Biological Diversity and the United Nations Decade on Biodiversity.

ITEM 10. SOUTH-SOUTH COLLABORATION AND STRENGTHENING SCIENTIFIC AND TECHNICAL COOPERATION IN THE REGION

50. Most countries report that they lack sufficient human resource capacity for the implementation of the Convention, and that responsible staff often have only limited access to both required information and the means to analyse it. At the same time, the first round of NBSAP workshops (2008-2009) and the fourth national reports have revealed that there exists, in fact, a wealth of information, expertise and experience among the Parties to the Convention and partner organizations. The challenge is to marshal this knowledge to support implementation of the Convention. This requires enhancing the clearing-house mechanism at global, regional and national levels, enabling it to facilitate scientific and technical cooperation, developing a biodiversity knowledge network and promoting technology transfer and cooperation as envisaged in Article 18 of the Convention.

51. Under this agenda item, relevant institutions, including regional and/or national centres of excellence, will share their experiences in supporting scientific and technical cooperation in the region, also as they relate to regional projects and programmes on island biodiversity, supported by the Global Islands Partnership (GLISPA). Some countries will share their national experiences in this field, particularly on how to use national and regional CHMs for this purpose. Participants will discuss ways and means to promote scientific and technical cooperation at various levels to facilitate the implementation of NBSAPs, and will provide input to the in-depth review of the programme of work on island biodiversity.

ITEM 11. SYNTHESIS AND CONCLUSIONS OF THE WORKSHOP

52. Under this agenda, participants will elaborate on the next steps required to revise the NBSAP, including relevant plans, activities and timetables.

53. Participants will also look at all the points and recommendations that have emerged from various plenary and group discussions and, if applicable, adopt the conclusions of the workshop.

54. Prior to the closure of the workshop, participants will be invited to discuss the results of the workshop in relation to their expectations expressed at the beginning of the workshop. Participants will also be asked to anonymously complete an evaluation form. The feedback provided in these forms is used to improve the planning and organization of subsequent workshops.

ITEM 12. CLOSING OF THE WORKSHOP

55. The workshop is expected to close at approximately 5 p.m. on 7 October 2011.

Annex : I Work plan of the workshop

	Monday 3	Tuesday 4	Wednesday 5	Thursday 6	Friday 7
09:00 – 10:30	<p>Opening Session</p> <p>Opening remarks by the representative of the Executive Secretary of the CBD, the representative of the Government of Fiji, SPREP</p> <p>Self-introductions by participants</p> <p>Overview of workshop aims</p> <p>Overview of Nagoya Outcomes: Strategic Plan, Nagoya Protocol on ABS, Nagoya-Kuala Lumpur Protocol on L&R, UN Decade on Biological Diversity, Strategy for Resource Mobilization, COP decisions on PoWPA and COP decisions on In-depth Review of the IBPoW</p>	<p>Integrating biodiversity into national and local development planning processes.</p> <p>The TEEB and Ecosystems Approach as mainstreaming tools.</p>	<p>Reducing pressures on biodiversity and promoting sustainable use: addressing drivers of biodiversity loss.</p> <p>Climate Change integration and adaptation.</p>	<p>Improving the status of biodiversity - Protected Areas and Target 11.</p> <p>Setting national targets, preparing action plans, and next steps for finalizing the plans.</p> <p>Global experience</p> <p>Regional experience</p>	<p>Strategic Communications and for NBSAPs</p> <p>Developing and implementing effective CEPA programmes as an integral part of NBSAP</p> <p>Group exercise</p>
