Dear Lisa

Sorry for being so late in sending you my question from yesterday on the discussion of GBO-4.

Paul Leadley mentioned, that GBO-4 will include findings from the HLP on resource mobilization.

My question addressed to him was along the lines of: "Can you be more specific on how will GBO-4 will include the results of the High-Level panel on resource mobilization and how will the GBO-4 take into account other sources of information on resource mobilization, given that there will be many other sources of information on that matter?"

Kind regards

Andreas
