

THE FOURTH NATIONAL REPORT

- Thailand's Experience

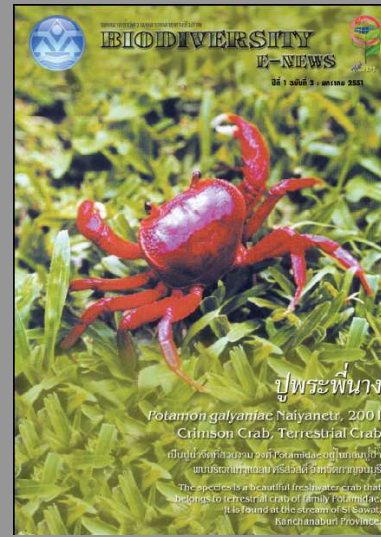

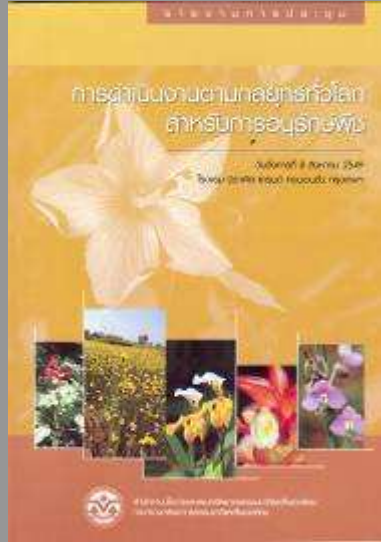

Overview of Biodiversity Status, Trends and Threats

- **Biodiversity status**

- Updating biodiversity status report which is a part of the annual report on the state of the environment

- Collecting updated information and data from CHM, academics, papers, proceedings, reports, newsletters, etc.

- Brainstorming biodiversity scientists and managers, and peer reviewing the draft biodiversity status report

- **Biodiversity trends and threats**

- Collating information from news clipping file.

biodiversity news have been cumulatively collected all year round in this file

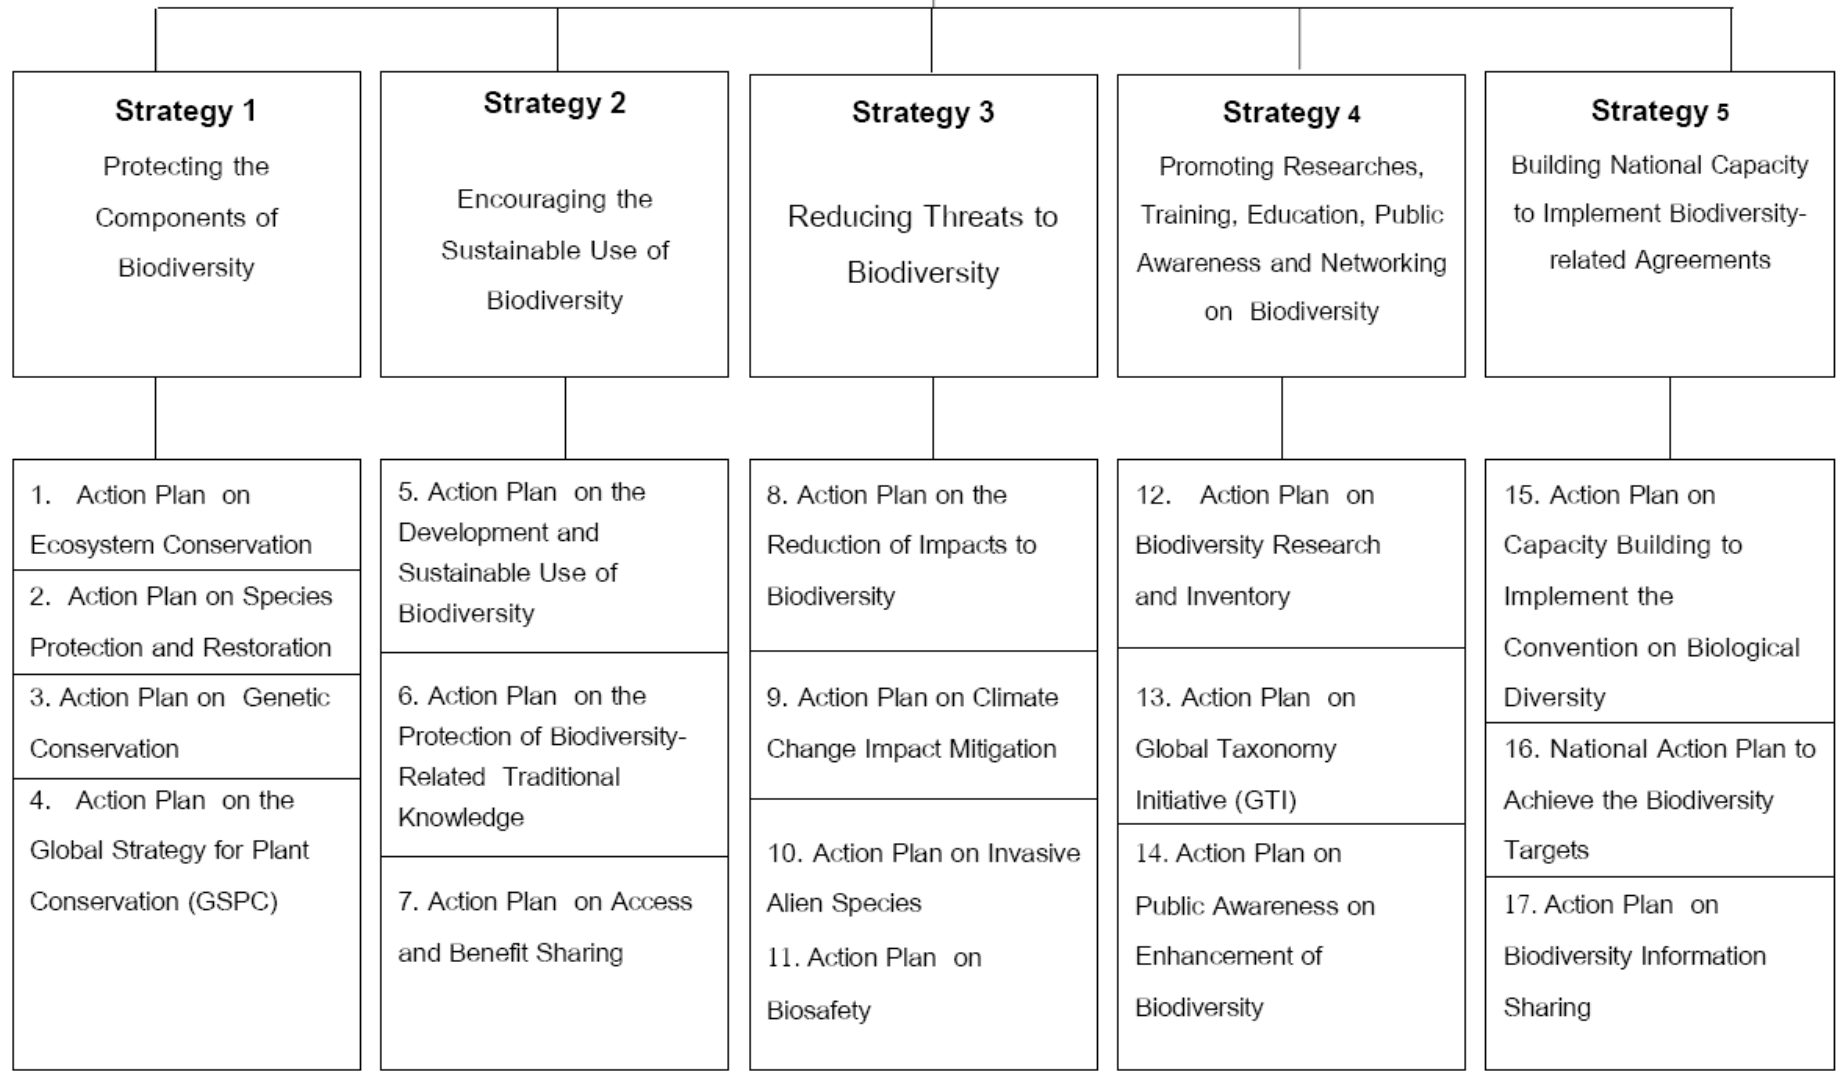

- Selecting current Ministry's orders, Cabinet Decisions concerning biodiversity issues
- Preparing the draft report on biodiversity trends and threats
- Giving a presentation on the draft report on biodiversity status, trends and threats during a discussion forum attended by relevant government agencies, academics, NGOs, private sector etc.

Current Status of NBSAP

NFP already has information regarding the 3rd NBSAP which has been approved by the Cabinet for implementation by various agencies concerned

- Describing the content of the 3rd NBSAP(2008 – 2012)

**Thailand's National Policies Strategies and Action Plans on the Conservation and Sustainable Use of Biodiversity
2008 – 2012**

- Adding information collected via questionnaires from relevant agencies on their actions taken to implement NBSAP and problems they encounter as well as an analysis of their needs.

Sectoral and cross-sectoral integration or mainstreaming of biodiversity considerations

- Gathering and analyzing Cabinet decisions, Ministry's orders, reports of relevant agencies, NGOs and business sectors, concerning biodiversity policies, regulations and activities implemented so far
- Adding information on current activities carried out through multi/bilateral cooperation projects.

Conclusion : Progress towards the 2010 Target and implementation of the Strategic Plan

- Brainstorming to review Chapters 1,2,3 and analysing issue by issue the overall country progress comparing with the targets and goals with the frameworks of
 - **CBD 2010 Target**
 - **Johannesburg Plan of Implementation**
 - **CBD Strategic Plan**
 - **Other biodiversity-related conventions**

Progress towards Targets of GSPC

As the Focal Point for GSPC, the NFP periodically monitors the progress of relevant agencies in implementing GSPC targets. Several brainstorming meetings had been organized. The outcomes had been recorded and disseminated through CHM and meeting proceedings

- Synthesizing existing information and drafting report
- Peer reviewing the report and brainstorming to add updated data

Progress towards PoW on Protected areas

After the WG PA-2 meeting in Rome the NFP had organized 2 workshops to follow up with the WG PA-2 recommendations and to monitor the implementation of PoW on PA

- Collating data and information recorded from the workshops and analysing the progress in implementing PoW on PA
- Drafting a report and distributing for a peer review

THE FOURTH NATIONAL REPORT

- Finalizing the whole report and presenting it for review at a meeting attended by 100 representatives from all agencies and all sectors
