Programme element 3: Methodologies necessary to advance the elaboration and implementation of criteria and indicators for forest biological diversity

implementation of serion to the serion of th	al processes, ving indicators
for forest biological divers	
a) minimal activity	
a) minimal activity b) yes - limited assessment made (please give details below)	
b) yes - limited assessment made (please give details below) c) yes - significant assessment made (please give details below)	
d) not relevant	

17. Has your country carried out taxonomic studies and inventories at the level which provide for a basic assessment of forest biological diverse Programme, paragraph 43)	sity? (Work
a) minimal activity	1
b) ves - limited assessment made (please give details below)	
c) yes - significant assessment made (please give details below)	
d) not relevant	

If you have ticked any of the boxes in questions 5 to 17 above which invite you to provide further details, please do so here.

(Information can include descriptions of methodologies and of activities undertaken, reasons for success or failure, outcomes and lessons learned)

- 4 (b) Mainly through GEF and Bilateral aid Assistance from FAO through area development programmes.
- 6 (b) Preparation of regional strategies.
- 10 (b) Preparation of Regional Conservation Strategies.
- 11 (b) Conservation Projects are being implemented both at Government and Community level.
- 13 (b) Through normal Development schemes and seeking assistance from Pakistan Forest Institute and Arid Zone Research Institutes etc.
- 15 (b) At project level
- 17 (c) By Government institutes such as PFI and NARC
