The colours of the Black Sea
Lyubomir Andreev 2010

багрите на ЧЕРНОТО Море
на 2010 Любомир Андреев
What lies beneath the water surface…

An idyllic life in a fairyland
Face to face with sea creatures

Roaming the sea bottom
Cosmic sensation

Космическо усещане

Tornado

Торнадо
Forest in the sea

Гора в морето

Genesis

Ген е зис
The other side of the mirror

Оазис

От другата страна на огледалото
In the labyrinth of veils

Сред лабиринт от воали
The deeper you go, the stranger they get.

Astonishing harmony of colours.

Удивителна хармония на цветове.
The realm of Neptune

The azure waters of the Black Sea
Following the light

Reverberations

Следвайки лъчите

Отражения
Uniting all the colors of the rainbow, preserving unique biological diversity, inspiring poets and artists, cherishing memories of so many love stories, the Sea keeps its secrets, unveiling them only to those longing for the harmony of nature.

The collection of underwater photographs is part of the wetland conservation and restoration program implemented by GREEN BALKANS and part of the organization’s program for celebrating the International Year of Biodiversity.
