Subject: Scoping Study on Data

Dear Sarah and members of the Secretariat,

Your study is excellent, . congratulations. Some corrections. On page 28, line 14; Reichman is with one n , not Reichman.

In lines 15-16, you incorrectly state that the World Federation of Culture Collections (WFCC) is based in China. Actually that is their affiliated data structure, the World Data Center for Microorganisms.

WDCM). I am not sure where the WFCC is "based" but you can find it on line.

The references to my article (When Copyright Law and Science Collide by Reichman and Okediji are correct. However, you should add the following cite to your bibliography because it underlies the material referenced in the text,:

Jerome H, Reichman & Paul F, Uhler, A. Contractually Reconstructed Research Commons for Scientific Data in a Highly Protectionist Intellectual Property Environment, 66 LAW & CONTEMPORARY PROBLEMS 115 (2003).

Thank you for the opportunity to review this manuscript. Good luck with the publication, Jerome Reichman, Duke Law School
