Subject: Re: CBD Notification 2019-075 - Invitation to provide proposals on the post-2020 global biodiversity framework

Esteemed CBD Secretariat
Greetings,

In respect to your email concerning invitation to submit proposals regarding the post-2020 global biodiversity framework, we list Iraq's proposals as shown below:

- 1-Incorporate the concept of bio safety into the post- 2020global biodiversity framework.
- 2- Targets and indicators should be specific, measurable, achievable, realistic and time-bound.
- 3- The framework should contain fewer overarching targets and that indicators should be developed to measure progress in achieving each goal simultaneously.
- 4- Coordination and engagement with other conventions enhances the capacity of the new framework to achieve common goals of these conventions and emphasizes the links between biodiversity and climate change.
- 5- Develop a separate target for resource mobilization, including identification of complementary financial mechanisms under the GEF.
- 6- Implement the 2020framework objectives by considering a regional approach to joint projects to improve biodiversity.
- 7- Update national biodiversity strategies and action plans to make targets more dynamic and responsive to the new framework.

Best regards
Yousif Muayad
