0	0	SDGs-GBF Link is quite important. At the same time, as mentioned in CBD/DEC/COP/14/34 para15, the target year of some elements of the SDGs goal 14&15 that are closely related with biodiversity is 2020. As the SDGs will not be revised, the post-2020 GBF should take over the SDGs goal 14&15. Furthermore, the explanation should be included in the COP15 decision.
