

Local Government Conference on Biodiversity 2009

- November 13, 2009 (in Nagoya, Aichi)
- 103 Japanese local governments, 22 Intel's organizations (e.g., ICLEI Japan, IUCN Japan)
- Shared experiences on biodiversity conservation efforts and exchanged information
- Confirmed to expand LG's activities on biodiversity in the memorable year of IYB, 2010

City Biodiversity Summit 2010 (1)

Venue Nagoya City, Aichi Prefecture, Japan
Organizers Aichi Prefecture, City of Nagoya,
Aichi-Nagoya COP10 CBD Promotion Committee
Dates 24 to 26 October, 2010

In close collaboration with SCBD, ICLEI

In partnership with MOE & MOFA (Government of Japan),
JICA, UNCRD, Global Partnership on
Cities & Biodiversity and URBIO 2010

City Biodiversity Summit 2010 (2)

Objectives

In line with COP Decision IX/28(Promoting engagement of cities and local authorities), the purpose of the summit is to:

- (a) Share experience and promote best practices
- (b) Review and adopt the CBD Plan of Action
- (c) Review the Singapore Index on Cities' Biodiversity(CBI)
- (d) Review and adopt declaration

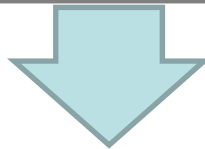

Problems of Cities

【Problems of Cities】

- Public health & water problems
- Flood control
- Climate regulation (e.g., urban heat island mitigation)
- Land use, urbanization control
- Energy problems
- Food problems

Integrate “nature’s wisdom” into urban policy

Missions of Cities

【Concerns and needs of cities & city dwellers】

- Security (disaster prevention)
- Safety (water, food, fuel)
- Public Health (clean air and water)
- Convenience (transportation infrastructure)
- Comfort (parks, green spaces, pleasant environment)

【Missions of Cities】

- (1) Secure safe and comfortable urban environment
- (2) Conserve and restore urban ecosystem
- (3) Secure resources supporting citizens' life

Ecosystem services supporting citizens' life (1)

【Mission of Cities (1)】

Secure safe and comfortable urban environment

- Improve sanitation
- Disaster prevention
- Culture, education and recreation

【Ecosystem services】

- Water purification
- Flood control
- Water cycling
- Climate regulation
- Provision of culture, education and recreation

Ecosystem services supporting citizens' life (2)

【Missions of Cities (2)】

Conserve and restore urban ecosystems

- Secure diverse habitats
- Conserve rare and native species
- Appropriate management and control of land use & development

【Ecosystem services】

- Soil formation & retention
- Provision of habitat
- Pollination, seed dispersal
- Pest regulation

Ecosystem services supporting citizens' life (3)

【Missions of Cities(3)】

Secure resources supporting citizens' life

- Sustainable development of agriculture, forestry and fisheries in urban areas
- Control of environmental impact caused by agriculture, forestry and fisheries
- Sustainably secure resources from outside the city

【Ecosystem services】

- Food & fuel
- Other resources
- Fresh water

Actions demanded for Cities

Cities are demanded to;

solve the urban issues by having the benefits of the nature

conserve & restore ecosystems while maintaining urban life (population carrying capacity)

secure food and fuel while conserving & restoring ecosystems

encourage participation and cooperation of the citizens and businesses

increase cities' ability and take actions with integrating biodiversity concerns

Image of the declaration

Crises over cities and biodiversity

- Crisis of **regulating and supporting services**
(Degradation of **ecosystems of urban & surrounding areas**)
- Crisis of **provisioning services**
(Degradation of **ecosystems in productive areas of natural resources**)
- Crisis of **cultural services**
(Decline of **wisdom on the harmonious co-existence between nature & human**)

What is biodiversity for cities ?

Cities' ongoing challenges

Cities' resolution and appeal to the international society

Expansion of the Global Partnership on Cities & Biodiversity

The Global Partnership on Cities and Biodiversity

【Cities】

- Curitiba
- Montreal
- Bonn
- Nagoya

【United Nations】

- UNESCO
- UNEP
- UN-HABITAT
- SCBD

【Academic Institutions】

- URBIO
- Stockholm Resilience
Centre

【Intel's Associations】

- ICLEI
- ICLEI-LAB
- UCLG
- IUCN CD2010

Seek your advice

Themes and speakers for presentations

- Please give your advice on session themes as well as recommendation of speakers for presentations by the end of March, 2010.
- Application form for advice and recommendation will be sent in mid-January.
- Mail to citysummit@cop10.jp

Schedule

Feb. 2010 First Circular will be sent out

Jun. 2010 Second circular will be sent out

Jul. 2010 Meeting of the Global Partnership
(in Nagoya, Japan, for a final
coordination of the City Summit)

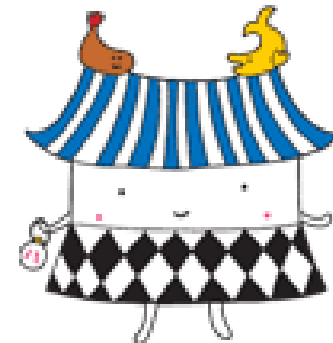

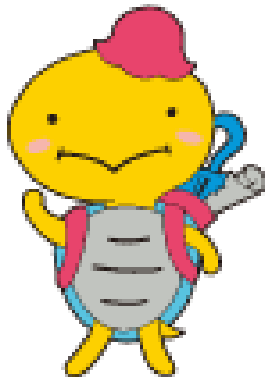

Oct. 24 -26, 2010 City Biodiversity Summit 2010

Nagoya in 2010

Nagoya 400th Anniversary
~ Set out for our dream future! ~

Thank the nature for its blessing

In Japan, meals traditionally

begin with a phrase

“ITADAKIMASU”

upon finishing a meal,

“GOCHISOUSAMA”
