ACKNOWLEDGED BY

Tuesday December 6th 18.15 to 19.30

Hand Print: Positive action for sustainability

Location: Marie Khan Women's Caucus meeting room, sunrise building, 2nd Floor

Brief Description:

Handprint, one of the powerful educational tools has the potential to capture positive actions; measure the contributions of groups and individuals to biodiversity conservation and sustainable development.

Each finger represents the objectives of Education for Sustainable Development (ESD): Awareness, Knowledge, Values, Skills, Participation, all together contribute to Action represented by the Hand Print.

This event aims to deliberate on the accounting framework for hand print action in relation to biodiversity conservation that can be used across the Aichi Biodiversity Targets.

Details of the side event are available on Page 8 at [https://www.cbd.int/side-events/\(ID 2166\)](https://www.cbd.int/side-events/(ID 2166)). Also please visit www.handprint.in/

Wednesday December 7th 18.00 to 20.00

Side Events at the CEPA Fair:

Mainstreaming Biodiversity in Education for Sustainable Development (ESD)

Location: Universal Building, Next to Moon Palace Area Convention Centre, Cancun.

Brief Description: Critical need of the hour is to move society from awareness to action, taking the advantage of Education for Sustainable Development (ESD), to facilitate the implementation of Aichi Biodiversity Targets for a sustainable future.

This event provides a global platform to share best practices; discuss the means of mainstreaming biodiversity into ESD.

Details of the side event are available at

<https://www.cbd.int/cepa/fair/2016/>

Friday December 9th 15.00 to 18.00

Biodiversity Education in Schools

Time: 15.00 to 18.00 hours (3.00 to 6.00 pm)

Location: Universal Building, Next to Moon Palace Area Convention Centre, Cancun.

Brief Description: In this rapidly changing world, schools, with a large young population, can act as major change agents promoting biodiversity conservation and bringing remarkable impacts through their incredible actions.

This event will attempt to bring in global experiences on drawing the schools into the CEPA process for the effective implementation of Aichi biodiversity target 1 by 2020.

Details of the side event are available at
