

A group of young people, likely members of the Japan Biodiversity Youth Network, are gathered in a lush green forest. They are looking at a small object held by one of them, possibly a specimen or a piece of nature. The scene is outdoors, with sunlight filtering through the trees.

Outlook on Youth Activities for Biodiversity

Miyuki ANDO

Japan Biodiversity Youth Network

Overview

- Introduction –Outlook vol.1 and 2
- Objectives
- Effects
- Data examples
- Challenges
- Conclusion

Worship site for nature in Japan

Introduction 1/2

Outlook on Youth Activities for Biodiversity vol.1

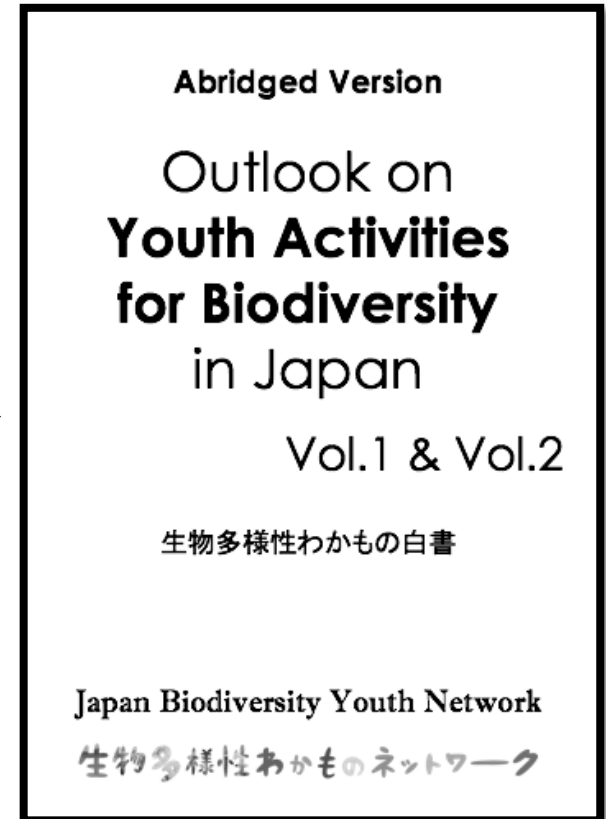

- Published in June 2015
- Questionnaire for student groups & their representatives
 - ◆ Activities for **environment issues** and/or **primary industries**
 - ◆ Age approx. 18 to 22
- Answered by 39 groups

Introduction 2/2

Outlook on Youth Activities for Biodiversity vol.2

- Planning to publish by March, 2017
- Questionnaire for student groups & their members
 - ◆ Activities for **environmental issues** and/or **primary industries**
 - ◆ Age approx. 18 to 22
- Answered by 17 groups and 165 members (by 27/11/2016)

Objectives

To promote the youth activities for biodiversity

By

Identifying the needs of youth

Where do they
get
knowledges?

Are they able
to get any
support from
outside of the
groups?

Do they
acknowledge
that their
activities are
related to
conservation?

Effects

for those who answered the questionnaire

Questionnaire provides the chances

- To **think about biodiversity**
- To **see words** related to biodiversity
“biodiversity” “National strategy for biodiversity”
“Aichi Biodiversity Target”

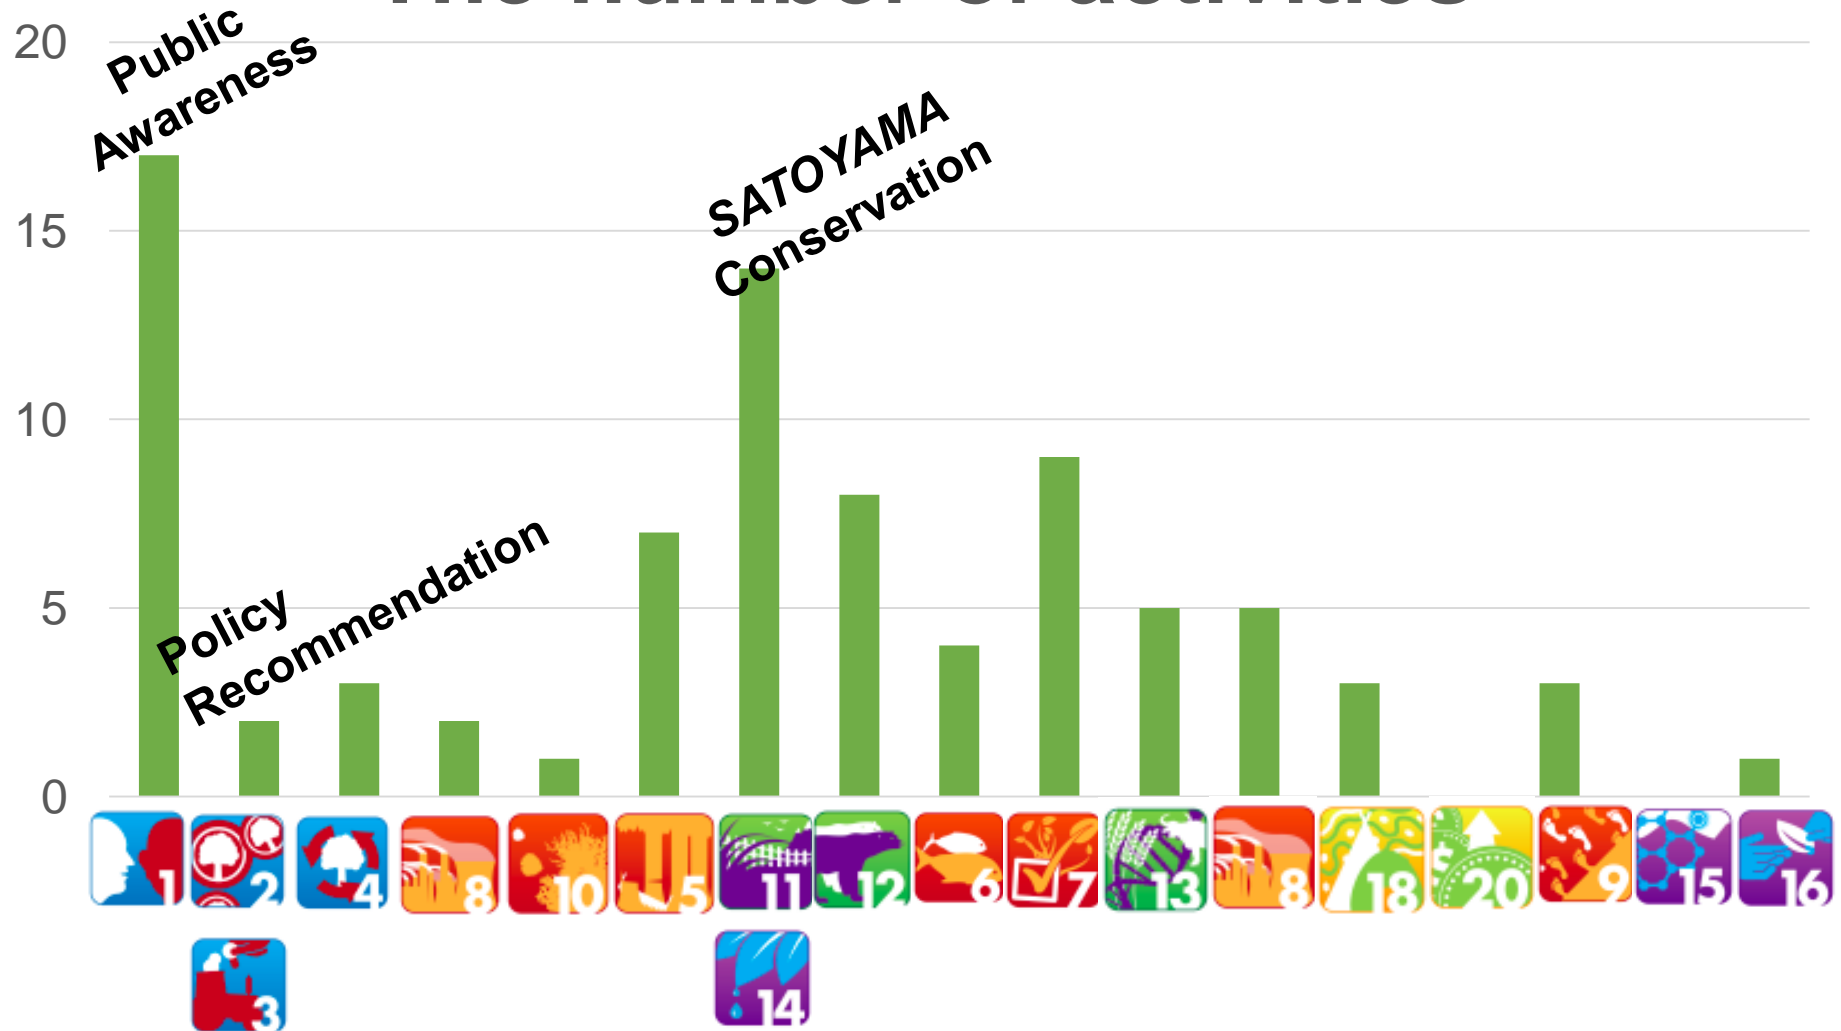

for those who read this outlook(including us)

This outlook provides the chances

- To think about **how youth want to be supported**
their activities
- To **improve their own activities** with the good
practices

Data examples

The number of activities

Challenges

- Funding for publishing
- Little visibility

Ways to use this outlook effectively

- Review and improve their own actions
- Making policy recommendation

Conclusion

This project helps

- Mainstreaming biodiversity
- Removing the obstacles to start activities for biodiversity

This project will become better with your cooperation!

A group of about seven people are hiking on a dirt path through a lush green forest. They are dressed in casual outdoor attire, including jackets, hats, and backpacks. The scene is bright and sunny, with sunlight filtering through the trees. The text 'Thank you for listening.' is overlaid in large, bold, black font with a white outline.

**Thank you for
listening.**
