Subsidiary Body on Implementation

Fifth meeting

Cali, Colombia, 16–18 October 2024

Agenda item 2

Review of implementation of the Kunming-Montreal Global Biodiversity Framework, including means of implementation

Review of implementation: progress in national target setting and updating of national biodiversity strategies and action plans

Draft recommendation submitted by the Chair

The Subsidiary Body on Implementation,

Recalling decisions XIII/25 of 9 December 2016, 14/28 of 25 November 2018 and 15/6 of 19 December 2022 of the Conference of the Parties to the Convention on Biological Diversity,

Having considered the information provided in document CBD/SBI/5/2/Rev.1 and its addenda,¹

Recommends that, at its sixteenth meeting, the Conference of the Parties adopt a decision along the following lines:

The Conference of the Parties,

Recalling the adoption of mechanisms for planning, monitoring, reporting and review in decision 15/6 of 19 December 2022,

Noting the outcomes of and the information and experiences shared during the regional and subregional dialogues on national biodiversity strategies and action plans, and expressing its appreciation to the Parties that hosted the dialogues and the Parties and organizations that provided financial and logistical support for them,

Noting with appreciation the support provided to many Parties by the Global Environment Facility and its implementing agencies for facilitating the revision or updating of national biodiversity strategies and action plans, while noting with concern that not all eligible Parties were provided with support or timely support,

Recognizing that the revision or updating of national biodiversity strategies and action plans in line with the Kunming-Montreal Global Biodiversity Framework depends on the provision of adequate, sufficient, predictable and accessible means of implementation, including financial resources, capacity-building and capacity development, technical and scientific cooperation and technology transfer, in particular for developing country Parties,

¹ CBD/SBI/5/2/Add.1/Rev.1, CBD/SBI/5/2/Add.2/Rev.1 and CBD/SBI/5/2/Add.3.

1. *Congratulates* the Parties that have submitted their revised and updated national biodiversity strategies and action plans in the light of the Framework, as listed in annex I;

2. *Notes with satisfaction* that a number of Parties, as listed in annex II, have communicated national targets aligned with the global targets of the Framework, either as a stand-alone submission or as part of the submission of their national biodiversity strategies and action plans, and submitted those following the template provided in annex I to decision 15/6 and using the online reporting tool of the clearing-house mechanism;

3. *Urges* Parties that have not yet done so to revise or update their national biodiversity strategies and action plans, as requested in decision 15/6, as soon as possible;

4. *Encourages* Parties to enable the full and effective participation and engagement of women, indigenous peoples and local communities, youth, civil society organizations, academia, the private sector, all levels of government and stakeholders from all other relevant sectors in all levels of the revision or updating of the national biodiversity strategies and action plans through inclusive and transparent modalities;

5. *Requests* the Global Environment Facility and its implementing agencies to provide timely support to all eligible Parties, aligned with national circumstances and needs, upon request, to enable them to revise or update their national biodiversity strategies and action plans;

[6. *Urges* all Parties to implement their national biodiversity strategies and action plans, recognizing the need for enhanced support to developing countries through adequate, predictable and easily accessible means of implementation and taking the considerations for the implementation of the Framework into account.]

[6alt. *Urges* all Parties to implement their national biodiversity strategies and action plans[, in accordance with Article 20,][as per national circumstances, priorities and capabilities,] recognizing the need for enhanced support, [in particular for] [to] developing countries, [in particular the least developed countries and small island developing States[, as well as countries with economies in transition,]] through adequate, [speedy,] predictable and easily accessible means of implementation [from all sources on a needs basis] and taking the considerations for the implementation[, as set out in section C] of the Framework, into account.]
