

# Sub regional workshop for Arabic- Speaking countries on the Clearing- House Mechanism

Cairo, 5-9 March 2018

Eng. Raed Bani Hani

National Focal Point

Director of Nature Protection Directorate

Jordan

# Introduction

- The National Strategy for Biodiversity (2015-2020) for the Hashemite Kingdom of Jordan in the Strategic Objectives to 2020, Fifth Objective, "Knowledge Management, Follow-up and Documentation"

This strategic objective addresses knowledge management, particularly with regard to biodiversity information exchange mechanisms.

# NBSAP

- Within this implementation mechanism, a central biodiversity information system has been agreed and all national information bases have been integrated into the common central system.
- In cooperation with GIZ through Ecosystem project we work to establish Jordanian CHM and review all available opportunities.

# CHM

- Finally and after discussion with NBC we choice Royal Belgian Institute of Natural Sciences (RBINS) to establish Jo.CHM.
- Jordan host 2 training workshops, first one was (24-28 July 2016) with participation from Palestine and Syria, and the second was (24-26 July 2017) with participation from Palestine.
- The second one was the final training where all stakeholders have user name and passwords to work on Jo.CHM.

# CHM

- Nature protection directorate at ministry of environment is the national focal point for Jo.CHM, and the NBC members are the focal points for them institutions.
- Especial training was held in Brussels for 2 persons ( IT and Biodiversity Section) in management for Jo.CHM.
- Using PTK software was the best choice where it easy and flexible.

- The official launching for Jo.CHM was at 4.Dec.2017 under patronage of highness Princess Basma Bint Ali head of NBC.
- Jordan is currently preparing the 6 NR for biodiversity, in this report Jo.CHM will be the platform for exchange of information and will be good chance to cover and add the lack information to CHM.

### MEETINGS AND EVENTS

- [Biorisk Management Best Practices in Academic Institutions in Jordan Workshop](#)

The Biorisk Management Curriculum workshop will introduce the concept of biorisk management which combines risk assessment, risk mitigation, and performance systems (AMP). The workshop is designed to empower faculty members with the skills, tools, and confidence to establish a sustainable biorisk management education in existing curricula at their university in order to reduce risks from infectious disease in veterinary laboratory and animal facilities.

13/08/2017 , Le Merdian Amman, Jordan
