SUSTAINABLE OCEAN INITIATIVE (SOI)
SUBREGIONAL CAPACITY-BUILDING
WORKSHOP FOR THE CORAL TRIANGLE
Jakarta, 31 July – 4 August 2018

PROVISIONAL AGENDA

1. Opening of the workshop.
 2. Workshop background, objectives and expected outputs/outcomes.
 3. Review of the progress in the national implementation of the priority actions to achieve Aichi Biodiversity Target 10 for coral reefs and closely associated ecosystems, including identification of challenges and opportunities.
 4. Sector-based and cross-sectoral tools and approaches to reducing the impacts of multiple stressors and enhancing the resilience of coral reefs and associated ecosystems, including through the ecosystem approach to fisheries, addressing land-based and sea-based sources of pollution, increasing the coverage and effectiveness of marine protected areas and marine managed areas, integrated marine and coastal area management, and marine spatial planning.
 5. Means to enhance the enabling factors to support implementation, including education, awareness and communication, research and monitoring, use of traditional knowledge, information-sharing, stakeholder engagement, and engagement of indigenous peoples and local communities.
 6. Identification of ways and means, including roles and responsibilities of different sectors and stakeholder groups, to further enhance national implementation of the priority actions to achieve Aichi Biodiversity Target 10 in line with existing national/regional strategies and plans.
