Financial resources

Does your country need assistance for producing and compiling the indicator at the national level?

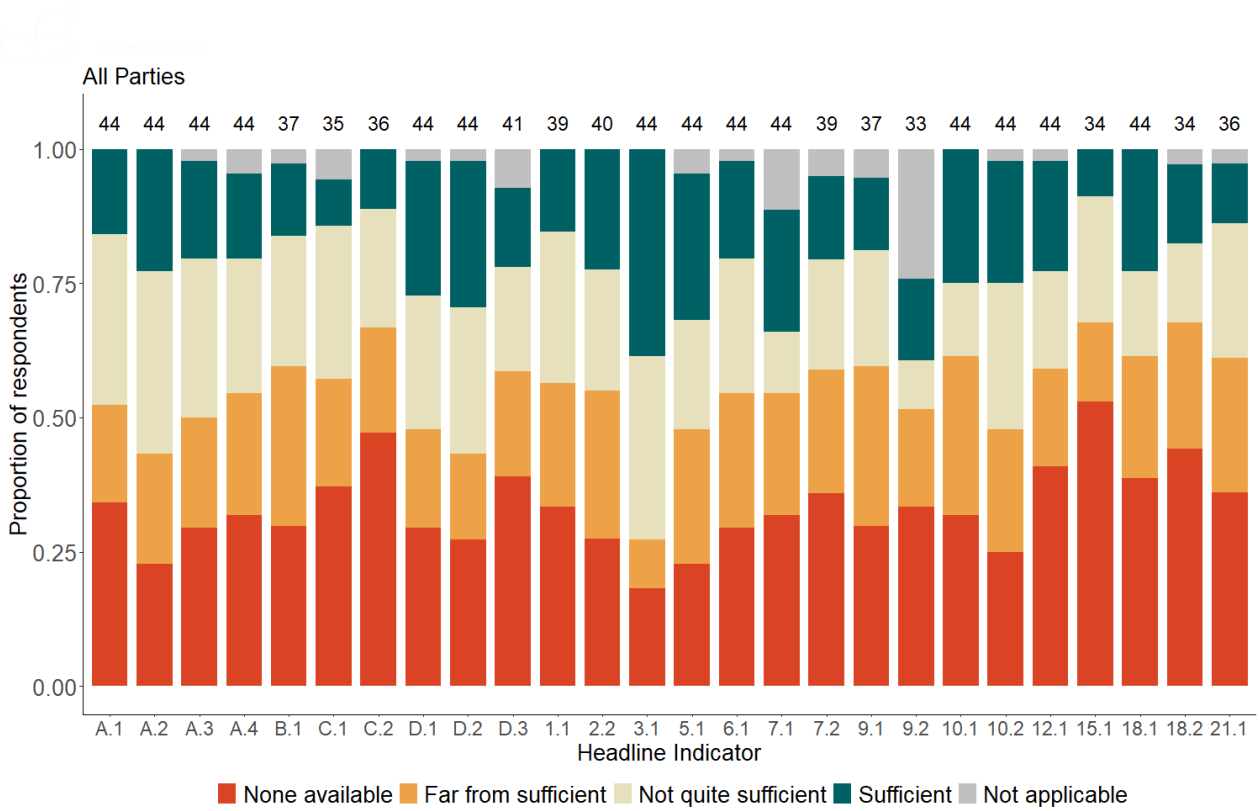

Yes

By type

No

# Which situation best describes the availability of financial resources to produce the indicator

**All indicators**  
 Average of 34% not available  
 Average of 23% far from sufficient  
 Average of 24% not quite sufficient  
 Average of 19% sufficient

# Key messages

There are headline indicators for which Parties indicate there is sufficient national capacity.

- These indicators have an established methodology and a champion institution

Many Parties indicated capacity gaps in producing some headline indicators

- These indicators do not have an established methodology
- Further work is still required (Annex II of [CBD/SBSTTA/26/2](#))

There is a need to mobilize resources from all sources to support Parties and relevant organizations in the implementation of these national monitoring systems
