Agenda item 8

OVERVIEW OF CAPACITY-BUILDING AND DEVELOPMENT INITIATIVES PROVIDING DIRECT SUPPORT TO COUNTRIES FOR THE IMPLEMENTATION OF THE NAGOYA PROTOCOL

Note by the Executive Secretary

I. INTRODUCTION

1. At its first meeting, the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol adopted a strategic framework for capacity-building and development to support the implementation of the Nagoya Protocol (decision [NP-1/8](#), annex I) and decided to establish an informal advisory committee to provide advice to the Executive Secretary on matters of relevance to the assessment of the effectiveness of the strategic framework (decision NP-1/8, para. 2).
2. An Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol was set up to provide advice to the Executive Secretary, regarding, among other things, “stocktaking of the capacity-building and development initiatives being implemented by Parties and various organizations with a view to identifying gaps in the implementation of the strategic framework” (decision NP-1/8, annex II).
3. At its fourth meeting, held in October 2019, the Informal Advisory Committee considered an overview of existing access and benefit-sharing (ABS) capacity-building and development initiatives providing direct support for country-level activities in various countries, as well as an analysis of the status, geographic and thematic coverage, duration and size of the initiatives, prepared by the Secretariat based on information received from Committee members and collected from various sources.
4. Pursuant to requests made in paragraphs 10 (a) and 10 (b) of decision NP-1/8 and paragraph 12 of decision [NP-1/2](#), and based on advice provided by the Informal Advisory Committee, the Secretariat established a database in the ABS Clearing-House on capacity-building initiatives.
5. The present note by the Executive Secretary provides detailed information on known capacity-building and development initiatives intended to provide direct support to countries for the implementation of the Nagoya Protocol, based on information available to the Secretariat as of 30 June 2021.¹

¹ This document was first drafted to be available for the fourth meeting of the Parties to the Protocol when it was planned for 2021; no additional resources were available to update the information further.

The information contained herein forms the basis for the analysis provided in document CBD/NP/MOP/4/5, section III, subsection A.

6. Section II of the present document provides information on the sources of information used for the collection of information on capacity-building and development initiatives. Section III contains an overview of capacity-building and development initiatives providing direct support to countries for the implementation of the Nagoya Protocol, organized by regions (Africa, Asia and the Pacific, Central and Eastern Europe, and Latin America and the Caribbean).

7. Many capacity-building and development tools and resources have been developed within the context of the ABS capacity-building and development initiatives listed below. Detailed information on tools and resources relevant for capacity-building is provided in information document CBD/NP/MOP/4/INF/2.

II. SOURCES OF INFORMATION

8. The Secretariat gathered information on capacity-building initiatives completed or initiated after the adoption of the Nagoya Protocol in 2010 from different sources, as follows:

(a) Information made available by Parties, other Governments, indigenous peoples and local communities and relevant organizations regarding their capacity-building and development initiatives, made available through the Access and Benefit-sharing Clearing-House;²

(b) Project documents, project identification forms (PIFs) or other information available in the Global Environment Facility (GEF) Project Database³ and the GEF Small Grants Programme Project Database;⁴

(c) Information provided by organizations implementing and/or executing capacity-building initiatives, including members of the Informal Advisory Committee.

III. OVERVIEW OF CAPACITY-BUILDING AND DEVELOPMENT INITIATIVES PROVIDING DIRECT SUPPORT TO COUNTRIES FOR THE IMPLEMENTATION OF THE NAGOYA PROTOCOL

9. The present overview has been prepared by the Secretariat based on information available on capacity-building and development initiatives implemented or proposed for implementation after the adoption of the Nagoya Protocol in 2010 and which have provided or are providing direct support for country-level activities either supporting ratification of the Nagoya Protocol or contributing to its implementation.⁵

10. The overview includes the following four tables:

Table 1: Capacity-building and development initiatives in Africa

Table 2: Capacity-building and development initiatives in Asia and the Pacific

Table 3: Capacity-building and development initiatives in Central and Eastern Europe

Table 4: Capacity-building and development initiatives in Latin America and the Caribbean

11. The information contained herein forms the basis for the analysis of the type, status, duration, funding levels, and the geographic and thematic coverage (including the gaps and overlaps in coverage) of known capacity-building initiatives supporting the implementation of the Nagoya Protocol provided in CBD/NP/MOP/4/5, section III.

² The ABS Clearing-House can be accessed at <https://absch.cbd.int/>.

³ The GEF Project Database can be accessed at <http://www.thegef.org/projects>.

⁴ The GEF Small Grants Programme Project Database can be accessed at <https://sgp.undp.org/>.

⁵ Exceptionally, projects proposed before 2010 have been included if their implementation was delayed past 2010 and/or if their projects documents or concepts were revised or resubmitted following the adoption of the Nagoya Protocol.

12. Since the previous update of this document for the third meeting of the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol, held in November 2018,⁶ seven additional capacity-building initiatives have been identified to be included in this overview, one global,⁷ one regional⁸ and five national projects. For the global and the regional initiatives, the Secretariat did not have information on which countries are directly supported through those initiatives. Therefore, these initiatives have not been added to the tables of initiatives, which are organized by country. Furthermore, two projects listed in earlier versions of this document were removed because the projects were proposed but never approved.

⁶ [CBD/NP/MOP/3/INF/1](#).

⁷ The global initiative is called “BioTrade Initiative - Linking trade, biodiversity and sustainable development”, implemented by UNCTAD from April 2018 until March 2022 in countries in Africa, South-East Asia and the Americas.

⁸ The regional project is called “Impact Investment in Support of the Implementation of the Nagoya Protocol on Access and Benefit Sharing” implemented by IADB and EcoEnterprises Fund in countries of Latin America and the Caribbean.

Table 1. Capacity-building and development initiatives in Africa

Country ⁹	Type of initiative ¹⁰	Title of initiative	Implementing/ executing agency	Status ¹¹	Start date ¹²	End date	Duration (months)	Core funding source	Core funding in US\$ ¹³	Record available on ABS-CH
1. Algeria	National	Developing a National Strategy and Legal Institutional Framework on Access to Genetic Resources and Related Benefit Sharing and traditional knowledge in line with the CBD and its Nagoya Protocol in Algeria	UNDP	ongoing	December 2015	June 30, 2022	48	GEFTF	1,940,000	Yes
	National	Environmental governance and biodiversity (<i>focus on developing ABS compliant value chains</i>)	GIZ / ABS Initiative	completed	November 2014	December 2019	39	BMZ	5,044,136	Yes
2. Angola	Global (20) ¹⁴	Global support for the ratification and entry into force of the Nagoya Protocol on Access and Benefit Sharing	UNEP	ongoing	May 2013	December 31, 2020	60	NPIF	1,000,000	Yes
	Subregional – SADC (15) ¹⁵	ABS compliant Biotrade in South(ern) Africa	ABS Initiative	ongoing	June 2017	September 2021	43	SECO	3,080,082	No

⁹ This overview includes countries identified as receiving direct support from capacity-building initiatives for the implementation of the Nagoya Protocol. Depending on its type, an initiative may appear several times throughout the tables, on the basis of the countries covered.

¹⁰ Numbers in brackets indicate the number of countries covered by the respective regional/subregional or global initiative.

¹¹ Different donors use different terminology to reflect the status of projects. For the purposes of this analysis, the status of projects has been categorized as follows: proposed, approved, ongoing or completed. Proposed refers to projects that have been conceived, i.e., project concepts (or Project Identification Forms, PIFs) have been developed or are being developed but have not yet been formally submitted to donors, or have been submitted but not yet accepted/approved by donors. Approved refers to projects whose project concepts/PIFs have, in principle, been accepted by donors and are under development/being elaborated into full project documents. Ongoing refers to projects that are under implementation.

¹² In order to verify the status of capacity-building initiatives, start dates and end dates have been included in the table. Furthermore, the start date is used as a reference date for converting project funds to US\$ where relevant.

¹³ The amount provided under this column corresponds to the core funding for each respective project (national, regional or global). In instances where regional and global projects are listed under the participating countries, the amount indicated is for the entire project meant to support all the countries involved and not just for that one country. Therefore, in trying to estimate the amount of support available to a given country, the number of countries covered by the regional or global project need to be taken into account. In addition, for some of the regional or global projects, a portion of the budget may be directed to global or region-wide activities and not directly to country-level activities. Amounts originally provided in EUR or GBP have been converted to US\$ based on the official United Nations exchange rate valid at the start date of the initiative.

¹⁴ The 20 countries covered by this project are Angola, Belarus, Bosnia and Herzegovina, Burkina Faso, Côte d'Ivoire, Djibouti, Eswatini, Guinea-Bissau, Kazakhstan, Kyrgyzstan, Lesotho, Liberia, Malawi, Mauritania, Niger, Nigeria, Sierra Leone, Togo, Uganda and Zimbabwe.

¹⁵ The 15 countries covered by this project are Angola, Botswana, Democratic Republic of the Congo, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, United Republic of Tanzania, Zambia, Zimbabwe.
