Welcoming the online discussion of the Ad Hoc Technical Expert Group on Socio-Economic Considerations and the progress made,

Taking note of the conclusions of the online discussion of the Ad Hoc Technical Expert Group on Socio-Economic Considerations,¹⁴

Recognizing that a face-to-face meeting of the Ad Hoc Technical Expert Group on Socio-Economic Considerations would be required for addressing the outstanding parts of its mandate,

Acknowledging that the continued work of the Ad Hoc Technical Expert Group on Socio-Economic Considerations towards achieving operational objective 1.7 of the Strategic Plan for the Cartagena Protocol on Biosafety may also contribute to further conceptual clarity,

1. *Expresses concern about the lower rate of submission of the third national reports in comparison to the previous reporting cycle, and notes with concern that third national reports are still due from 37 Parties, including 4 Parties that have accessed funds from the Global Environment Facility for the preparation of their third national reports;*

2. *Welcomes the financial support provided by the Global Environment Facility to a number of eligible Parties to support the preparation of their national reports, but notes with concern that 39 Parties that were eligible for Global Environment Facility funding to complete their national reports either did not apply for that funding or were unable to access the financial support;*

3. *Also welcomes the efforts made by the Secretariat to assist Parties in submitting national reports and to ensure their completeness;*

4. *Notes the effect of the challenges posed by new administrative changes within the United Nations and its impact on the current reporting cycle, such as delays in the submission of the third national reports;*

5. *Urges Parties that have not yet submitted their third national report to do so as soon as possible;²⁰*

6. *Also urges Parties that have not submitted a complete third national report to do so as soon as possible;*

Also recalling decision BS-VI/15, paragraphs 1 and 2,

Taking note of the comparative analysis prepared by the Executive Secretary²¹ and reviewed by the Subsidiary Body at its first meeting with input from the Compliance Committee and a contribution from the Liaison Group on Capacity Building,

1. *Welcomes* the work of the Subsidiary Body on Implementation in undertaking the third assessment and review of the effectiveness of the Protocol and the midterm evaluation of the Strategic Plan for the Cartagena Protocol on Biosafety for the period 2011-2020;²²

2. *Also welcomes* the input of the Compliance Committee to the assessment and review of the effectiveness of the Protocol and the mid-term evaluation of the Strategic Plan,²³ and *requests* the Committee to continue providing inputs to the final evaluation of the Strategic Plan;

3. *Further welcomes* the contribution from the Liaison Group on Capacity Building;²⁴

4. *Welcomes further* the Compliance Committee's supportive role, carried out pursuant to decision BS-V/1, as a contribution to the progress reported, and *requests* the Committee to continue carrying out this supportive role in accordance with its mandate;

5. *Notes with concern* the lower rate of submission of the third national reports in comparison with the previous reporting cycle, and *urges* the Parties that have not yet submitted their third national report to do so as soon as possible;

6. *Notes* the absence of clear linkages between some of the outcomes and indicators in the current Strategic Plan, and *agrees* to improve such linkages in a follow-up to the present Strategic Plan;

7. *Also notes* that, in the follow-up to the present Strategic Plan, indicators should be simplified, streamlined and made easily measurable with a view to ensuring that progress towards achieving operational objectives can be readily tracked and quantified;

8. *Further notes* the slow progress in: (a) the development of modalities for cooperation and guidance in identifying living modified organisms or specific traits that may have adverse effects on the conservation and sustainable use of biological diversity, taking also into account risks to human health; (b) capacity-building for risk assessment and risk management; (c) socioeconomic considerations; and (d) capacity-building to take appropriate measures in cases of unintentional release of living modified organisms that may have adverse effects on the conservation and sustainable use of biological diversity, taking also into account risks to human health;

9. *Notes with concern* that, to date, only approximately half of the Parties have fully put in place legal, administrative and other measures for the implementation of the Protocol, and *urges* Parties that have not yet fully done so to put in place their national biosafety frameworks, in particular biosafety legislation, as a matter of priority;

²² UNEP/CBD/COP/13/6, sect. I, recommendation 1/3.

²³ UNEP/CBD/SBI/1/INF/34.

²⁴ UNEP/CBD/SBI/1/INF/35.

10. *Calls upon* Parties, for the remaining period of the Strategic Plan, to consider prioritizing the operational objectives relating to the development of biosafety legislation, risk assessment, risk management, detection and identification of living modified organisms, and public awareness, education and training in view of their critical importance in facilitating the implementation of the Protocol;

11. *Urges* Parties to undertake targeted capacity-building activities on biosafety and to share relevant experiences and lessons learned from these activities through the Biosafety Clearing-House in order to facilitate further development and implementation of the Protocol;

12. *Encourages* Parties to make use of the Biosafety Clearing-House to share experiences on national processes and best practices related to socioeconomic considerations in decision-making related to living modified organisms, as appropriate, and in accordance with national legislation;

13. *Also encourages* those Parties that have not yet done so to deposit their instrument of ratification, acceptance, approval or accession to the Nagoya Kuala Lumpur Supplementary Protocol on Liability and Redress as soon as possible;

14. *Further encourages* Parties to continue to enhance capacity for public awareness, education and participation regarding the safe transfer, handling and use of living modified organisms, including for indigenous peoples and local communities, and to integrate training, public awareness, education and participation into national initiatives for communication, education and public awareness, initiatives for the Sustainable Development Goals, initiatives for climate change mitigation and adaptation and other environmental initiatives;

15. *Recommends* that the Conference of the Parties, in adopting its guidance to the financial mechanism with respect to support for the implementation of the Cartagena Protocol, invite the Global Environment Facility to continue to assist eligible Parties that have not yet done so to put in place a national biosafety framework and to make funds available to this end;

16. *Notes* that a lack of awareness and political support for biosafety issues contributes to limited access to and uptake of funding for biosafety, and *urges* Parties to enhance efforts to raise awareness of key biosafety-related issues among policy- and decision makers;

17. *Urges* Parties to strengthen national consultative mechanisms among relevant government institutions regarding the programming of national Global Environment Facility allocations with a view to ensuring appropriate funding for the implementation of the Cartagena Protocol;

18. *Invites* Parties in a position to do so and international organizations to provide support for the implementation of the Protocol, based on the expressed needs of Parties, especially for developing countries and, in particular, least developed countries and small island developing States, as well as countries with economies in transition;

19. *Requests* the Executive Secretary:

(a) To undertake regional and subregional workshops and other relevant activities, subject to the availability of resources, in order to enhance the capacity of Parties to promote the integration of biosafety considerations into national biodiversity strategies and action plans, national development plans and national strategies to achieve the Sustainable Development Goals;

(b) To carry out further capacity-building activities, subject to the availability of resources, including on the possible impact of living modified organisms on indigenous peoples and local communities, while ensuring gender balance, and considering the Short-term Action Plan (2017-2020) to enhance and support capacity-building for the implementation of the Convention and its Protocols;²⁵

²⁵ Conference of the Parties decision XIII/23, annex.

(c) To further enhance cooperation and collaboration in biosafety with relevant organizations.

7. *Also encourages* Parties to establish, support and participate in regional and subregional networks on the detection of living modified organisms in order to promote technical cooperation in the field and, subject to the availability of funds, for example through the roster of biosafety experts, provide the networks with opportunities to host training workshops, and *requests* the Global Environment Facility to provide funds for the hosting of such workshops;

8. *Invites* Parties to nominate experts in the field of living modified organism detection and identification to the roster of biosafety experts;

9. *Encourages* Parties, other Governments and relevant organizations to submit to the Biosafety Clearing-House information on methods for the detection and identification of living modified organisms, with special emphasis on validated methods;

10. *Requests* the Executive Secretary:

(a) To continue organizing online discussions and face-to-face meetings, subject to the availability of resources, of the Network of Laboratories focusing on the detection and identification of living modified organisms;

(b) To continue convening, in cooperation with relevant organizations, subject to the availability of resources, regional and subregional capacity-building activities, such as online training and face-to-face workshops in the fields of sampling, detection and identification of living modified organisms with specific emphasis on the topics of (i) sampling at the border, including training, (ii) establishment and maintenance of quality assurance and quality control systems, (iii) interpretation of the results of living modified organism analysis reports, (iv) environmental sampling, (v) developing reference materials, (vi) validation procedures, and (vii) measurement of uncertainty;

(f) To align the language of the relevant questions in the draft format for the fourth national report with the operational definitions contained in the annex to the present decision.

Annex

OPERATIONAL DEFINITIONS OF THE TERMS “UNINTENTIONAL TRANSBOUNDARY MOVEMENT” AND “ILLEGAL TRANSBOUNDARY MOVEMENT”²⁶

“*Illegal transboundary movement*” is a transboundary movement of living modified organisms carried out in contravention of the domestic measures to implement the Protocol that have been adopted by the Party concerned.

“*Unintentional transboundary movement*” is a transboundary movement of a living modified organism that has inadvertently crossed the national borders of a Party where the living modified organism was released, and the requirements of Article 17 of the Protocol apply to such transboundary movements only if the living modified organism involved is likely to have significant adverse effects on the conservation and sustainable use of biological diversity, taking also into account risks to human health, in the affected or potentially affected States.

²⁶ These operational definitions supersede any previous draft versions, including those proposed by the Compliance Committee.

VIII/17. Transit and contained use of living modified organisms (Article 6)

The Conference of the Parties serving as the meeting of the Parties to the Cartagena Protocol on Biosafety

5. *Requests* the Compliance Committee to assess if information that has been submitted to the Biosafety Clearing-House under contained use is in accordance with Article 6 of the Cartagena Protocol, and make a recommendation in this regard for consideration by the Conference of the Parties serving as the meeting of the Parties to the Protocol at its ninth meeting;

6. *Invites* Parties and other Governments, in the context of operational objective 1.8 of the Strategic Plan for the Cartagena Protocol on Biosafety for the period 2011-2020, to submit to the Biosafety Clearing-House practical guidance on specific measures for contained use that effectively limit the contact of living modified organisms with, and their impact on, the external environment;

7. *Encourages* Parties to further develop measures to manage living modified organisms in transit and to make available in the Biosafety Clearing-House information on such measures;

8. *Requests* the Executive Secretary:

(a) To compile the information submitted under paragraph 6 above for the consideration of the Conference of the Parties serving as the meeting of the Parties to the Protocol at its ninth meeting with a view to identifying areas where activities might be needed to support Parties in their efforts to develop national measures on contained use;

ITEM 10 REPORT OF THE EXECUTIVE SECRETARY ON THE ADMINISTRATION OF THE PROTOCOL AND ON BUDGETARY MATTERS

112. Agenda item 10 was taken up at jointly by the Conference of the Parties and each of the Protocols at the opening plenary session of the meeting, on 4 December 2016. In considering the item, the Conference of the Parties had before it the report of the Executive Secretary on the administration of the Protocol (UNEP/CBD/BS/COP-MOP/8/7); the report on the functional review of the Secretariat (UNEP/CBD/BS/COP-MOP/8/7/Add.2); the proposed budget for the programme of work of the

Convention on Biological Diversity, the Cartagena Protocol on Biosafety and the Nagoya Protocol on Access and Benefit-Sharing for the period 2017-2020 (UNEP/CBD/BS/COP-MOP/8/16); and a note by the Executive Secretary on the programme and subprogramme activities and resources required (UNEP/CBD/BS/COP-MOP/8/16/Add.1). It also had before it, as an information document, the report of the Executive Secretary on the administration of the Convention and the budget for the Trust Funds of the Convention, the Cartagena Protocol on Biosafety, and the Nagoya protocol on Access and Benefit-sharing (UNEP/CBD/BS/COP-MOP/8/INF/13).

113. The Executive Secretary said that, as a result of the functional review of the Secretariat, and the integrated approach to its work, the Secretariat was presenting, for the first time, an integrated budget covering the three instruments of the Convention on Biological Diversity: the Convention, the Cartagena Protocol and the Nagoya Protocol. Although the budget was integrated, the decisions on the relevant components of the budget for each instrument would be adopted by the Parties to the individual instruments. The functional review of the Secretariat had been completed in 2016 and had led to a new hybrid structure of the Secretariat, put in place in April 2016, the aim of which was to improve efficiency through cross-sectoral coordination and integration of Secretariat activities. The new organizational design would break down silos within the Secretariat, optimize the use of human resources, find innovative ways for staff to work across subjects and ensure managerial responsibility for cross-cutting teams. With the new structure, the Secretariat sought to fill certain gaps by revising the job descriptions of staff members.

114. The documents reported on the status of income of the eight trust funds of the Convention and its Protocols from 2015 to 2016, the status of staffing of the Secretariat, the steps taken during the biennium to enhance the efficiency and performance of the Secretariat. They also gave the indicators of achievement and performance for the programme budgets.

115. The documents also reported on administrative arrangements, including the delegation of authority from the Executive Director of UNEP to the Executive Secretary. Other issues reported on included the contribution of the host country to the Secretariat, the change in the modality for the payment of expenses related to office space, the efforts of the Secretariat to provide Parties with improved conference servicing, the efforts the Secretariat to improve the impact of capacity-building and the implications of the change of the United Nations to the International Public Sector Accounting Standards (IPSAS) and the new Enterprise Resource Planning tool (UMOJA).

116. The proposed budget of the Convention and the two Protocols for the period 2017-2018 (UNEP/CBD/COP/13/23) presented two scenarios. One scenario implied a 5 per cent nominal increase in the budget over the present biennium, with a request for additional staff to work on the Nagoya Protocol on Access and Benefit-sharing, the Gender Plan of Action, marine biodiversity, communication, and risk assessment. That meant a total of four new Professional posts and one General Service post, and the upgrading of several current posts in the Secretariat. The second scenario called for zero nominal increase in the 2015-2016 budget and included the removal of the proposed posts for marine biodiversity and communication. Given that those posts were considered essential for the work of the Secretariat, they would be included in the voluntary budget if the second scenario was chosen. That scenario also implied that the Subsidiary Body on Scientific, Technical and Technological Advice would meet only once during the biennium and that the length of the meeting of the Ad Hoc Open-ended Inter-sessional Working Group on Article 8j and Related Provision of the Convention on Biological Diversity would be reduced and would be held back-to-back-to-back with the twenty-first meeting of the Subsidiary Body on Scientific, Technical and Technological Advice and the second meeting of the Subsidiary Body on Implementation. The second budget scenario also implied the removal of funding for participants' travel from the core budget.

117. A representative of the European Union and its 28 member States welcomed the documents submitted by the Secretariat on its work programme and budget and agreed with the simultaneous discussion of those issues under the Convention and its Protocols. The European Union looked forward to

achieving a streamlined programme of work for the Secretariat that concentrated on activities that facilitated work by the Parties to achieve the Aichi Biodiversity Targets and implement the Strategic Plan. That programme, however, had to be based on a budget that was affordable for all, an issue that had become more important with the introduction of the new accounting system across the United Nations. Arrears in contributions now directly affected resources, and the European Union was concerned by the fact that many countries had not paid their assessed contributions in full. The budget decisions had to emphasize prompt payment.

118. The European Union also supported the integrated approach taken by the Secretariat, which would remove the incentive to work in silos. That approach, however, required that contributions be shared fairly among countries that were Parties to all the instruments and those that were not. The functional review should be addressed in the decisions on the budget and not as a separate matter. He underscored the importance of adopting realistic budgets for the Convention and its Protocols, consistent with the agreed strategic priorities, functions and the programme of work, for effective implementation.

119. The Conference of the Parties agreed that, in accordance with established practice, an open-ended contact group on the budget should be established and proposed that Mr. Spencer Thomas (Grenada) should chair the group.

120. At the 3rd plenary session, on 9 December 2016, the Conference of the Parties heard an interim progress report by the chair of the open-ended contact group on the budget.

121. At the 4th plenary session, on 13 December 2016, the Conference of the Parties heard an interim progress report by the chair of the open-ended contact group on the budget.

122. At the 5th plenary session of the meeting, on 17 December 2016, the Conference of the Parties serving as the meeting of the Parties to the Cartagena Protocol considered a draft decision submitted by the chair of the open-ended contact group on the budget.

123. Draft decision UNEP/CBD/COP/13/L.30 was adopted as decision XIII/32.

124. At the same session, the Conference of the Parties serving as the meeting of the Parties to the Cartagena Protocol was informed that the open-ended contact group had concluded its negotiations. The group had prepared an integrated budget for the Convention and its two Protocols.

125. A draft decision on the budget, based on the outcome of the negotiations and contained in document UNEP/CBD/CP/COP-MOP/8/L.15, was introduced by the President. The Conference of the Parties adopted draft decision UNEP/CBD/CP/COP-MOP/8/L.15 as decision CP-VIII/7.
