

NON-PAPER

CONTACT GROUP 1

Co-leads proposals on goals A

The present non-paper provides proposals by the co-leads of contact group 1 for Goal A based on:

- (a) The original text in the first draft of the post-2020 global biodiversity framework;
- (b) Text proposals from the Co-Chairs' reflections document (where applicable);
- (c) Composite text from the first part of the third meeting of the Working Group on the Post-2020 Global Biodiversity Framework; and
- (d) Views shared during the first session of contact group 1 held on 15 March 2022.

GOAL A

The socio-ecological integrity of both natural and managed terrestrial, freshwater, coastal and marine ecosystems is maintained or enhanced, preventing collapse of ecosystems, ensuring connectivity and increasing [by at least [5] per cent by 2030 and [20] per cent by 2050¹] the protection of threatened or restoration of depleted ecosystems.

The extinction of all [known threatened] species is halted. The abundance and distribution of populations of [wild and domesticated] [all] species is maintained at or enhanced to healthy and resilient levels.

[At least [90][95][X] per cent of] genetic diversity within all [known] [populations of] species is safeguarded, maintaining their adaptive potential.

¹ Pending the need for consideration of numerical aspects for all the goals (A to D). Furthermore, there is no hierarchy among the goals. Numbers are indicative and have not been discussed.
