14 September 2026
Original: English

Conference of the Parties to the Convention on Biological Diversity serving as the meeting of the Parties to the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from Their Utilization

Sixth meeting

Yerevan, 19–30 October 2026

Item 9 of the provisional agenda*

Enhancing the implementation of the Nagoya Protocol

Enhancing the implementation of the Nagoya Protocol

Note by the Secretariat

I. Introduction

1. The Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol adopts decisions with a view to enhancing implementation of the Protocol, including through capacity-building and development and awareness-raising and by means of information-sharing through the Access and Benefit-sharing Clearing-House. Furthermore, the implementation and monitoring of the Kunming-Montreal Global Biodiversity Framework and its related decisions also support implementation of the Protocol as part of Goal C and Target 13 of the Framework.
2. In decision [NP-3/1](#) B, the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol decided to conduct the second assessment and review of the effectiveness of the Protocol at its sixth meeting. In decision [NP-5/5](#), it agreed on a methodology for conducting the assessment based on the elements and sources of information contained in the annex to the decision.
3. The elements identified in the annex to decision [NP-5/5](#) address various aspects of the implementation of the Nagoya Protocol, including, in element (c), an assessment of support available for implementation in the context of Article 22 of the Protocol and, in element (g), a review of the implementation and operation of the Access and Benefit-sharing Clearing-House (Article 14).
4. A number of documents were prepared on the basis of these elements to facilitate the second assessment and review process.¹ The Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol² and the Compliance Committee under the Nagoya Protocol on Access and Benefit-sharing³ were requested, working in a complementary and non-duplicative manner, to contribute to the second assessment and review and to submit their conclusions for consideration by the Subsidiary Body on Implementation.
5. Accordingly, the Subsidiary Body on Implementation made recommendations to the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol (contained in

* [CBD/NP/MOP/6/1](#).

¹ All official and information documents are available at www.cbd.int/meetings/SBI-07.

² All official and reference documents are available at www.cbd.int/meetings/NP-CB-IAC-2026-01.

³ All official and reference documents are available at www.cbd.int/meetings/NP-CC-05.

recommendation [7/6](#)). The suggested recommendations relate to the second assessment and review process, as well as strategic actions to enhance implementation of the Protocol. Section B of recommendation [7/6](#), on enhancing the implementation of the Protocol, includes recommendations on capacity-building and development and awareness-raising, the Access and Benefit-sharing Clearing-House and information-sharing, and the Protocol in the context of the Kunming-Montreal Global Biodiversity Framework.

6. In this regard, the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol will be invited to consider the draft decision prepared by the Subsidiary Body on Implementation, as reproduced in the compilation of draft decisions, with a view to its adoption.

7. The present document provides links to the relevant documents prepared in the context of the assessment and review, for ease of reference, and a report on progress. Namely, section II contains an overview of progress made to disseminate and promote the Capacity-building and Development Action Plan for the Nagoya Protocol adopted by the Conference of the Parties serving as the meeting of the Parties to the Protocol in decision [NP-5/3](#) and to facilitate capacity-building and development and awareness-raising activities, and section III includes a summary of progress made in the operation of the Access and Benefit-sharing Clearing-House pursuant to decision [NP-5/4](#). Section IV provides information on the Kunming-Montreal Global Biodiversity Framework of relevance to the Protocol. Finally, section V outlines the issues for consideration by the Conference of the Parties serving as the meeting of the Parties to the Protocol at its sixth meeting.

8. The present document does not reproduce the outcomes of the second assessment and review, which were considered by the Subsidiary Body on Implementation at its seventh meeting. Rather, it provides supplementary information and progress updates relevant to the implementation of previous decisions on capacity-building and development, awareness-raising, the Access and Benefit-sharing Clearing-House and the implementation of the Nagoya Protocol in the context of the Kunming-Montreal Global Biodiversity Framework.

II. Capacity development and awareness-raising

A. Progress made by the Secretariat

9. In its decision [NP-5/3](#), the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol adopted the Capacity-building and Development Action Plan and requested the Executive Secretary to support its implementation, including through the dissemination and promotion of the Action Plan, the facilitation of capacity-building and development activities and the provision of opportunities for sharing experiences, lessons learned and good practices through the Access and Benefit-sharing Clearing-House.

10. The Secretariat of the Convention on Biological Diversity has since undertaken a number of activities to support the implementation of the Action Plan, including capacity-building webinars, information sessions, technical briefings and efforts to facilitate the exchange of knowledge and good practices among Parties and stakeholders.

11. The Secretariat organized 20 webinars covering topics related to the use of the Access and Benefit-sharing Clearing-House, national implementation of the Nagoya Protocol, community protocols and traditional knowledge, financing tools and biotrade in the context of access and benefit-sharing, non-monetary benefit-sharing, implementation of national biodiversity strategies and action plans and findings from the second assessment and review of the effectiveness of the Protocol. Six of these webinars formed part of a dedicated series on capacity-building and development for access and benefit-sharing. All webinars are listed in the annex to the present document, and their recordings are available in the Clearing-House.

12. The Secretariat also launched a project to provide small grants in support of access and benefit-sharing, comprising three components: communicating user-friendly procedures, improving

information systems and standard operating procedures and developing and implementing community protocols.

13. The first component of the project, on communicating user-friendly procedures for access and benefit-sharing, is being implemented in partnership with the German Nagoya Protocol HuB, which is hosted by the Leibniz Institute DSMZ, with funding provided by the Japan Biodiversity Fund. The project supports 10 countries,⁴ selected on the basis of expressions of interest, in communicating national procedures in a clear, standardized and accessible manner for both commercial and non-commercial access to genetic resources and associated traditional knowledge through the development of guides. Designed specifically for users, the guides will be published in the Access and Benefit-sharing Clearing-House, and the results, lessons learned and experiences from the project will also be shared and disseminated widely.⁵

14. Following the identification of operational barriers related to the implementation modalities of grant-funded activities, the remaining components of the project, which are focused on developing community protocols and improving access and benefit-sharing information systems, are being reviewed and alternative approaches are being explored to support their implementation during the next intersessional period.

15. In addition, the United Nations Environment Programme, the Secretariat of the Global Environment Facility and the Secretariat of the Convention on Biological Diversity collaborated on the implementation of a project funded by the Global Environment Facility to support the preparation of the first national report on the implementation of the Nagoya Protocol. The project included the convening of a global inception workshop held online in August 2025 and a series of in-person regional workshops held between November 2025 and January 2026 to provide Parties with technical support in drafting their national reports. A Secretariat staff member familiar with the Protocol and the Access and Benefit-sharing Clearing-House participated in each workshop.

B. Progress made by Parties in the implementation of Articles 22 and 21 of the Nagoya Protocol

16. The second assessment and review of the effectiveness of the Nagoya Protocol included an assessment of support available for implementation in the context of Article 22 of the Protocol, on capacity, and of progress made in the implementation of Article 21, on awareness-raising.

17. To support the findings on capacity-building and development, the Secretariat prepared an analysis of capacity-building and development support available for the implementation of the Nagoya Protocol in document [CBD/SBI/7/INF/6](#), and presented the results in a webinar held on 19 May 2026.⁶ The document provides an overview of the capacity-building support, projects, initiatives, tools and resources available to Parties at the global, regional and national levels. It highlights the significant contributions of countries, international organizations, development partners and regional initiatives to strengthening implementation of the Protocol, while also identifying ongoing needs for more coordinated, sustainable and long-term capacity-building support, in particular in developing countries, small island developing States and countries with economies in transition.

18. As mandated, the Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol provided input to the second assessment and review at its sixth meeting, which was held from 1 to 4 June 2026, in Montreal, Canada. In accordance with the allocation of tasks, and on the basis of the note by the Secretariat on the analysis of information for the second assessment and review of the effectiveness of the Protocol,⁷ the Committee assessed progress made

⁴ Argentina, Benin, Bhutan, Costa Rica, Côte d'Ivoire, Ethiopia, Kenya, Madagascar, Malaysia and Peru.

⁵ For more information on and examples of the guides, see <https://nagoyaprotocol-hub.de/easy-abs-guides/>.

⁷ [CBD/NP/CC/5/4/Add.1-CBD/NP/CB-IAC/2026/1/3-CBD/SBI/7/7/Add.1](#).

on support available for the implementation of the Nagoya Protocol (Article 22) and awareness-raising (Article 21) and relevant updated indicator data,⁸ challenges and their root causes and possible ways to enhance implementation.

19. The inputs and conclusions of the Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol are included in the report on its sixth meeting,⁹ and its key messages and findings were presented to the Subsidiary Body on Implementation in document [CBD/SBI/7/7](#). At its seventh meeting, the Subsidiary Body on Implementation considered the document and adopted recommendation [7/6](#), containing recommendations on capacity-building and development and awareness-raising in subsection B.I.

III. Access and Benefit-sharing Clearing-House and information-sharing

20. The Access and Benefit-sharing Clearing-House was established under Article 14, paragraph 1, of the Nagoya Protocol, as part of the clearing-house mechanism under Article 18, paragraph 3, of the Convention on Biological Diversity. The aim of the Clearing-House is to facilitate information-sharing on access and benefit-sharing and to support the implementation of the Protocol. It can be accessed at <http://absch.cbd.int>.

21. In its decision [NP-5/4](#), the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol requested the Executive Secretary to continue to develop and administer the Access and Benefit-sharing Clearing-House, in accordance with its modalities of operation, taking into account any feedback received, in particular from Parties and the Informal Advisory Committee to the Access and Benefit-sharing Clearing-House, including the goals and priorities for the further development and administration of the Clearing-House by the Secretariat, and the need for continued capacity-building and development, and to provide technical support and guidance to Parties on how to publish and update information and how to use the Clearing-House effectively.

22. In the same decision, the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol also requested the Executive Secretary to hold a meeting of the Informal Advisory Committee to the Access and Benefit-sharing Clearing-House before the sixth meeting of the Conference of the Parties serving as the meeting of the Parties to the Protocol and, as needed, informal online discussions, and to report on the outcomes of the work of the Committee at the sixth meeting.

23. The Informal Advisory Committee to the Access and Benefit-sharing Clearing-House was established pursuant to decision [NP-1/2](#). Its mandate is to assist the Executive Secretary with the implementation of the Clearing-House and to provide technical guidance with respect to the resolution of technical and practical issues arising from its ongoing development. The composition of the Committee was announced in notification No. [2025-129](#) of 7 October 2025.

24. As mentioned above, the second assessment and review of the effectiveness of the Nagoya Protocol included a review of the implementation and operation of the Access and Benefit-sharing Clearing-House, pursuant to element (g) listed in the annex to decision [NP-5/5](#), including the number of access and benefit-sharing measures made available; the number of countries that had published information on their competent national authorities; the number of published internationally recognized certificates of compliance; and the number of published checkpoint communiqués. A number of documents were prepared to inform this process:

(a) Document [CBD/SBI/7/INF/2](#) contains an analysis of information from national reports submitted by Parties to the Nagoya Protocol and from the Clearing-House, among other sources. Subsection III.G of the document contains a review of the implementation and operation of the

⁸ Following the framework of indicators contained in annex II to decision [NP-3/1](#).

⁹ [CBD/NP/CB-IAC/2026/1/4](#).

Clearing-House, including an analysis of the responses from Parties to relevant questions in their first national reports;

(b) Document [CBD/SBI/7/INF/4](#) provides an analysis of information published in the Clearing-House, including trends and insights across the different record types;

(c) Document [CBD/SBI/7/INF/5](#) contains an analysis of responses to the targeted survey developed to provide feedback on the implementation and operation of the Clearing-House.¹⁰ The survey was open for responses for approximately four months and was closed on 31 December 2025. The survey received a total of 112 responses from 60 countries and provided insight into the effectiveness of the Clearing-House and its crucial role in supporting the implementation of the Protocol.

25. Documents [CBD/SBI/7/INF/4](#) and [CBD/SBI/7/INF/5](#) were also presented in a webinar¹¹ held on 20 May 2026. The conclusions from the three documents mentioned above were presented in the analysis of information for the second assessment and review of the effectiveness of the Nagoya Protocol,¹² which includes updated data on the framework of indicators contained in annex II to decision [NP-3/1](#).

26. In accordance with the agreed allocation of tasks, the Compliance Committee under the Nagoya Protocol on Access and Benefit-sharing provided input on progress made in implementation, challenges encountered and ways of enhancing the implementation of the Nagoya Protocol with regard to the publication of national records in the Access and Benefit-sharing Clearing-House; while the Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol examined the information related to the reference records.

27. The Informal Advisory Committee to the Access and Benefit-sharing Clearing-House was briefed on progress made and the relevant documents and information resulting from the second assessment and review of the effectiveness of the Nagoya Protocol through two online preparatory sessions, held on 10 November 2025 and 3 February 2026. In addition, the Executive Secretary prepared a progress report on the development and administration of the Clearing-House, made available as document [CBD/NP/ABSCH-IAC/6/2](#). The document provides an overview of progress made by the Secretariat in the development and administration of the Clearing-House from November 2024 to April 2026.

28. The Informal Advisory Committee to the Access and Benefit-sharing Clearing-House held its sixth meeting online, on 17 June 2026. The report on the meeting¹³ includes a revised list of goals and priorities for the future implementation and administration of the Access and Benefit-sharing Clearing-House, which takes into account the relevant information prepared for the assessment and review as well as the conclusions and recommendations made by the Compliance Committee under the Nagoya Protocol on Access and Benefit-sharing and the Informal Advisory Committee on Capacity-building for the Implementation of the Nagoya Protocol resulting from the second assessment and review on actions to enhance implementation of the Protocol with regard to the Clearing-House.

29. Finally, at its seventh meeting, the Subsidiary Body on Implementation considered document [CBD/SBI/7/7](#), on the second assessment and review, and adopted recommendation [7/6](#), which includes recommendations on the Access and Benefit-sharing Clearing-House and information-sharing in subsection B.II.

¹⁰ On 9 September 2025, the Executive Secretary issued notification [No. 2025-113](#), inviting Parties, non-Parties, indigenous peoples and local communities, women and youth representatives and relevant organizations and stakeholders to provide feedback on the implementation and operation of the Access and Benefit-sharing Clearing-House by completing an online survey.

¹¹ See <https://absch.cbd.int/en/kb/tags/absch-announcement/Recording-Webinar-on-the-ABS-Clearing-House-Findings-from-the-Assessment-and-Review-of-the-Nagoya-Protocol/69fe0fc01329f5e500222c3a>.

IV. Nagoya Protocol in the context of the Kunming-Montreal Global Biodiversity Framework

30. As the implementation of the Nagoya Protocol contributes directly to the achievement of Goal C and Target 13 of the Kunming-Montreal Global Biodiversity Framework, information generated through the assessment and review process is also relevant to the global review of collective progress in the implementation of the Framework.

31. In decision [NP-3/4](#), the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol accepted the invitation of the Conference of the Parties to the Convention on Biological Diversity contained in decision [14/27](#), and agreed to have a synchronized national reporting cycle commencing in 2023. As a result, the first national report under the Protocol and the seventh national report under the Convention were due at the same time, on 28 February 2026.

32. Through its decision [15/5](#), the Conference of the Parties to the Convention adopted the monitoring framework for the Kunming-Montreal Global Biodiversity Framework. The monitoring framework comprises headline, binary, component and complementary indicators, which are the basis for the template for the seventh national report under the Convention contained in annex I to decision [16/32](#). The format and guidelines for submission of the first national report on the implementation of the Nagoya Protocol were adopted by the Conference of the Parties serving as the meeting of the Parties to the Protocol in decision [NP-4/3](#).

33. The national reports informed the second assessment and review of the effectiveness of the Nagoya Protocol and the global review of collective progress in the implementation of the Kunming-Montreal Global Biodiversity Framework, respectively, in accordance with the agreed methodologies.¹⁴

34. Parties to the Convention and Parties to the Nagoya Protocol were asked, in both the first national report under the Protocol and the seventh national report under the Convention, to report on monetary and non-monetary benefits received.

35. A revised draft version of the global report on collective progress in the implementation of the Kunming-Montreal Global Biodiversity Framework was made available to the Subsidiary Body on Scientific, Technical and Technological Advice,¹⁵ and a final version of the global report will be made available for the seventeenth meeting of the Conference of the Parties to the Convention. It includes an analysis of the national targets associated with Target 13, of the indicators used to assess progress in achieving Target 13 and Goal C, including those for monetary and non-monetary benefit-sharing, and of actions, successes and challenges in implementation. The summary, conclusions and key messages of the global review were also made available to the mandated subsidiary bodies.¹⁶

36. The second assessment and review also addressed indicators on monetary and non-monetary benefits received as part of element (b)¹⁷ listed in the annex to decision [NP-5/5](#). The analysis on benefits included information drawn from the seventh national reports under the Convention that were submitted by Parties to the Nagoya Protocol. The key findings and messages in this regard are available in annex I to document [CBD/SBI/7/7](#), under the section entitled “Element (b): assessment of effectiveness”.

37. Additional and updated information on benefit-sharing can be found in an information document.¹⁸ This includes consolidated information from the reports submitted under the Nagoya Protocol and the Convention by Parties to the Protocol, as well as information coming from the global methodology for the collection of data on headline indicator C.2 of the monitoring framework for

¹⁴ For the global review, see decision [16/32](#) of the Conference of the Parties to the Convention; for the second assessment and review, see decision [NP-5/5](#) of the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol.

the Kunming-Montreal Global Biodiversity Framework. Headline indicator C.2 addresses non-monetary benefits arising from applicable international access and benefit-sharing instruments.¹⁹

38. Based on the recommendations from mandated subsidiary bodies, the Conference of the Parties to the Convention decided that the global review would culminate in a decision or decisions by the Conference of the Parties, including, as necessary, any recommendations to identify and address challenges in collective progress in implementation, including on the means of implementation, in particular for developing country Parties, with a view to achieving the goals and targets of the Kunming-Montreal Global Biodiversity Framework.²⁰ These are up for consideration by the Conference of the Parties at its seventeenth meeting, under agenda item 9.

39. At its seventh meeting, the Subsidiary Body on Implementation adopted recommendation [7/6](#), on the second assessment and review, which includes recommendations on the Nagoya Protocol in the context of the Kunming-Montreal Global Biodiversity Framework in subsection B.III.

V. Issues for consideration

40. As outlined in the preceding sections, issues relating to capacity-building and development and awareness-raising, the Access and Benefit-sharing Clearing-House and the Nagoya Protocol in the context of the Kunming-Montreal Global Biodiversity Framework were considered during the second assessment and review of the effectiveness of the Protocol.

41. The outcomes of that process were considered by the Subsidiary Body on Implementation at its seventh meeting, which culminated in recommendation [7/6](#), including elements of a draft decision on enhancing the implementation of the Nagoya Protocol, contained in section B. Accordingly, no additional draft decision elements are proposed in the present document.

42. At its sixth meeting, the Conference of the Parties serving as the meeting of the Parties to the Nagoya Protocol may wish to consider the draft decision contained in the compilation of draft decisions, based on recommendation [7/6](#), with a view to its adoption.

¹⁹ The project entitled “Examining trends in non-monetary benefit-sharing”, implemented by the Leibniz Institute DSMZ and funded by the Federal Agency for Nature Conservation of Germany and supported by the European Union, resulted in the establishment of a database (<https://nmbs.dsmz.de/>) of scientific publications that cite an access and benefit-sharing permit. In accordance with the agreed methodology for headline indicator C.2, Parties could include the information from the database in their national reports to report on several indicators on non-monetary benefit-sharing related to research and development results and scientific publications.

²⁰ Decision [16/32](#).
