

Non-paper

Lead questions for informal consultations on resource mobilization

(evening session of 25 February 2025)

The following questions aim to find pathways to improve document CBD/COP/16/L.34 and reach consensus.

- Document CBD/COP/16/INF/43/Rev.1. proposed a roadmap in paragraphs 21 and 24 for the intersessional process to deliver the mandate set out in paragraph 19.
 - Do you agree with the main deliverables envisaged for each COP as part of the roadmap?
 - What would you suggest to streamline or improve it?
- There is a significant point of divergence among different groups of Parties: on the one hand, the process should not prejudge the outcome while, on the other hand, the establishment of a dedicated instrument for biodiversity finance should not be delayed. Document CBD/COP/16/INF/43/Rev.1. is trying to reconcile this divergence.
 - Is document CBD/COP/16/INF/43/Rev.1 reconciling this divergence?
 - Are there additional ideas that would help to reconcile it?
