ENGLISH ONLY

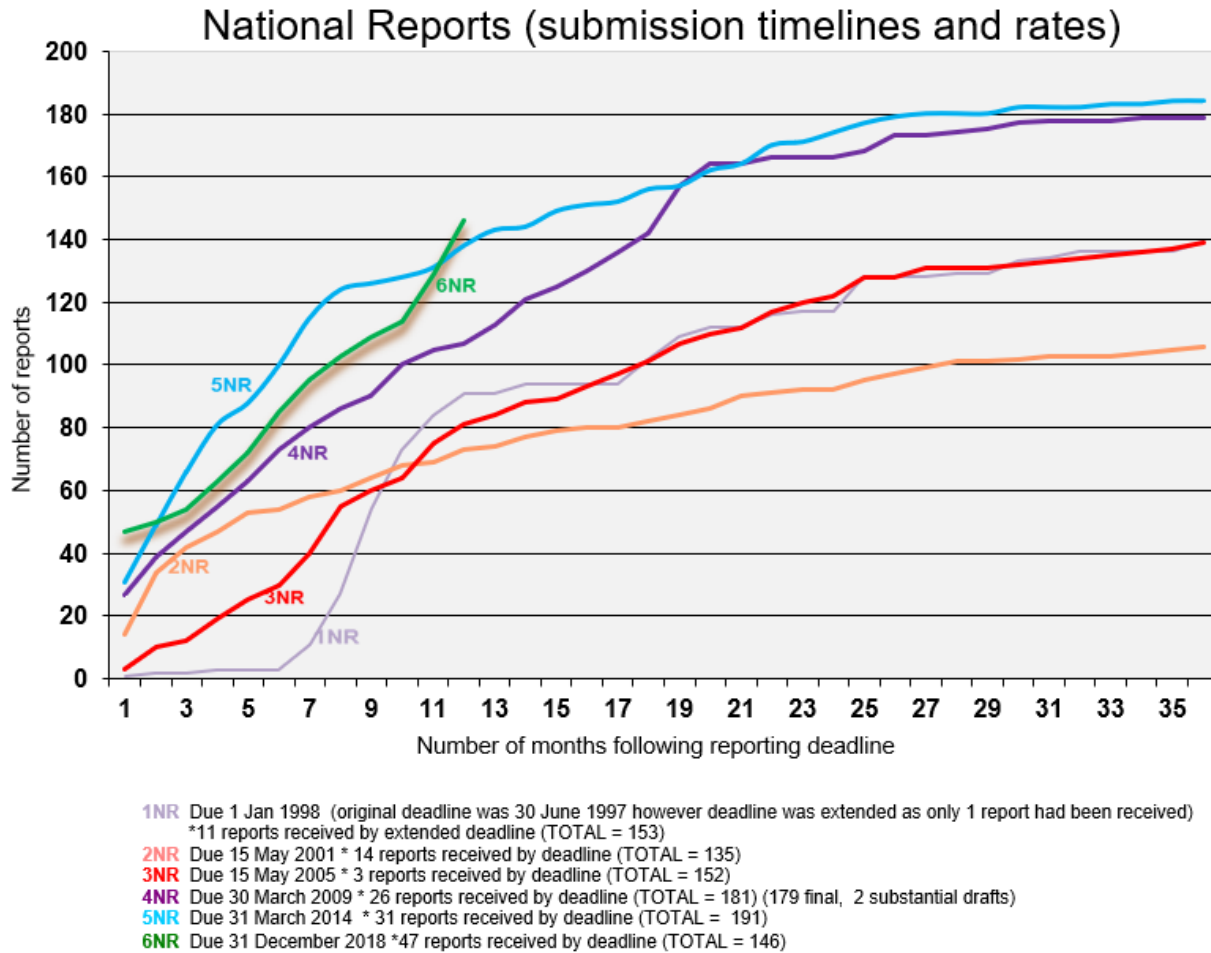

SUBSIDIARY BODY ON SCIENTIFIC,
TECHNICAL AND TECHNOLOGICAL ADVICE
Twenty-third meeting
Montreal, Canada, 25-29 November 2019
Item 3 of the provisional agenda*

STATUS OF THE SIXTH NATIONAL REPORTS OF PARTIES TO THE CONVENTION

Note by the Executive Secretary

1. In paragraph 3 of [decision XIII/27](#), Parties were encouraged to submit their sixth national report by 31 December 2018. Parties were also encouraged to prepare and submit their report using the new online reporting tool available on the clearing-house mechanism. The sixth national reports are the key information source for conducting the final assessment of progress towards the Strategic Plan for Biodiversity (2011-2020) and the Aichi Biodiversity Targets, to be undertaken by the Conference of the Parties at its fifteenth meeting, in Kunming, China, in 2020, and for preparing the fifth edition of the *Global Biodiversity Outlook*, which will be launched the same year. The sixth national reports are also informing the current process on the development of the post-2020 global biodiversity framework, led by the Open-ended Working Group on the Post-2020 Global Biodiversity Framework.
2. Forty-seven (47) Parties were able to meet the reporting deadline established by the Conference of the Parties. By 29 November 2019, another 99 Parties had submitted their sixth national report, bringing the total number to 146 (see annex), representing 75 per cent of Parties. Of this total, 70 Parties submitted their report online, 67 submitted their report offline, and 9 Parties have submitted both online and offline versions of their report. All sixth national reports submitted offline can be accessed on the Convention's website at <https://www.cbd.int/reports/>. The sixth national reports submitted online can be found at <https://chm.cbd.int/search/reporting-map?filter=nr6>.
3. The diagram presented below provides an overview of the submission timelines and rates for all six rounds of national reporting conducted under the Convention to date. At 29 November 2019, which constitutes eleven full months after the sixth national report was due, the submission rate for this national report has surpassed that of the fifth national report by 8 points.

4. Statistics on the proportion of countries within each CBD regional group that have submitted their sixth national report, as of 29 November 2019, are as follows: Latin America and the Caribbean (88%); Africa (83%); Western Europe and Others (72%); Asia and the Pacific (65%); Central and Eastern Europe (61%).
