

**ADDENDUM TO THE ORGANIZATION OF WORK OF THE CONTACT GROUPS ON AGENDA
ITEM 4**

NOTE BY THE CO-LEADS OF CONTACT GROUP 4

1. The present document amends the organization of work for all the contact groups on agenda item 4.
 2. Contact group 4 has presently a total of three sessions at its disposition. In order to address concerns that sections H to K have not yet been duly considered in previous meeting or the Open-ended Working Group, the co-leads of contact group 4 suggest the following organization of work:
 - First session: general comments on Section G (Tools and Solutions); targets 14-21 under Section G in sequential order;
 - Second session: Sections H to K; resuming discussion of targets 14-21 if time permits;
 - Third session: finalizing targets 14-21; discussion on possible further work or areas where consultations among Parties and observers may be useful before the second part of the third meeting of the Open-ended Working Group during its second session.
 3. At the opening of the first session, the co-leads will introduce the intended work and outcome of the contact group. Each element (i.e. target or section) will then be taken up sequentially, bearing in mind the overall allocation above. We plan to spend approx. 40 minutes for each element; this would enable us to exhaust our task.
 4. Please provide text proposals to further develop the element under consideration. Delegations are encouraged to prepare clear, focused and efficient interventions that provide specific textual suggestions.
 5. Participants are invited to consider supporting a previously presented text proposal if it addresses the general interest/concern of their own delegation, rather than proposing similar language that does not vary greatly in substantive content/direction. Parties may express their support for proposals using the chat box but are discouraged from using it for the proposal of text unless invited to do so by the co-leads.
 6. To assist the deliberations, the text of the element being discussed, together with the proposed amendments to the text, will be projected on the screen.
