

African Ministerial Summit on Biodiversity

Sharm El Sheikh, Egypt, 13 November 2018

Africa's biodiversity priorities

- Ecosystem restoration
- Coastal and marine biodiversity and the blue economy
- Invasive alien species
- Access and benefit-sharing and traditional knowledge
- Strategic environmental assessment (Article 14 of the Convention on Biological Diversity)
- Climate change and biodiversity
- Mainstreaming biodiversity into relevant sectors
- Natural capital accounting
- Biosafety
- Poaching and illegal wildlife trade
- Enabling mechanisms for implementation:
 - Education, awareness-raising and knowledge management
 - Capacity-building
 - Technology transfer
 - Resource mobilization
 - Gender mainstreaming and youth engagement
 - Compliance and enforcement of environmental regulations
