- (a) continue to strengthen the concept of integrated multi-focal areas approaches, including addressing transboundary issues, and particularly adaptation to climate change and land degradation, to ensure maximization of global environmental benefits,
- (b) further develop specific, proactive and more flexible engagement approaches with countries in Africa, particularly LDCs that have limited capacity to access and implement GEF funding, and
- (c) enhance country ownership through GEF programs that support national integrated policies, in accordance with national processes and institutions.

Decision on Agenda Item 9 Annual Monitoring Review Report 2007

11. The Council, having reviewed GEF/C.33/4, *Annual Monitoring Review Report 2007*, welcomed the overall finding that the GEF portfolio under implementation in 2007 performed satisfactorily across all focal areas. The Council also welcomed the progress made on developing tools and methodologies to track GEF-4 focal area indicators and requested the Secretariat to report on progress towards the achievement of expected results as the first substantive portion of GEF-4 projects enters mid-term evaluations.

12. The Council requested that the Secretariat work in close collaboration with the GEF Agencies and Evaluation Office to ensure that its management information system better meets the monitoring needs of the Secretariat. 17. Regarding alternative execution arrangements for the SGP in GEF-5, Council requested the SGP Steering Committee and UNDP, in consultation with all appropriate stakeholders, to develop detailed options for Council review in June 2009.

Decision on Agenda Item 11 Clarifying the Programmatic Approach in the GEF Portfolio

18. The Council, having reviewed document GEF/C.33/6, *From Projects to Programs: Clarifying the Programmatic Approach in the GEF Portfolio*, endorsed the objectives and basic principles for programmatic approaches and considered programmatic approaches as an option to support more effectively the sustainable development agenda of developing countries and countries with economies in transition.

19. The Council also approved the procedures for developing specific Programs using a programmatic approach as outlined in the paper, including the use of the template for presenting the summary of a Program through a Program Framework Document (PFD).

20. The Council adopted the following clarification to paragraph 11 of the Project Cycle paper GEF/C.31/7/Rev. 1 – as approved in June 2007 and revised in November 2007:

Beginning in FY08, programmatic approaches for GEF funding will only be submitted to Council at its meetings, not intersessionally. Documentation for securing approval for, and guiding implementation of, a specific Program developed using a programmatic approach will be a Program Framework Document (PFD). PFDs will be presented to the Council in a work program. Council shall review the PFD and endorse the overall objective and scope of the Program. PFDs will also identify, to the extent possible, all projects to be financed under the Program. These projects must, nevertheless, be presented as PIFs to Council for approval. All available PIFs will be presented for Council approval in the same work program as contains the Program's PFD. Depending on the operational nature of the Program, Council may approve an amount to be set aside for the Program for a specific period, even if not all PIFs for the listed projects under the Program have been presented in the work program. When the remaining PIFs are ready, and have been cleared by the CEO, they will be presented for approval, in future work programs. All approved PIFs will be posted on the GEF web site. PIFs can only be approved once the PFD for the overarching Program has been endorsed by the Council.

Decisions on Agenda Item 12 Compliance of the GEF Agencies on the Implementation of the Recommended Minimum Fiduciary Standards

21. Council, having reviewed document GEF/C.33/Inf.6, *Report on the Compliance of the GEF Agencies on the Implementation of the Recommended Minimum Fiduciary Standards*, expressed appreciation for receipt of the information conveyed through the document and its annexed Agency reports.

22. Council, noting the sheer volume and technical complexity of the information conveyed in the document, requested the Secretariat to contract a consultant to draft a summary and comparative analysis of the annexed reports, in consultation with the Agencies. The consultant will also assess whether the Agencies are meeting the recommended minimum fiduciary standards enumerated in GEF/C.31/6.

23. A report will be provided to Council by its Spring meeting in 2009.

Decision on Agenda Item 13 Strategic Program to Scale-up the Level of Investment in the Transfer of Environmentally-friendly Technologies

24. Council agreed that the Secretariat should prepare a report comprising:

- (i) a description of its work to date on financing technology transfer, and
- (ii) a description of current financing options for technology transfer.

25. Council noted that further guidance would be needed regarding its mandate in respect of decision 4/CP.13. Pending further guidance, Council will continue to work on this issue in light of views expressed at the Subsidiary Body on Implementation (SBI) of the UNFCCC.

26. The report will be circulated to Council for approval to forward to the SBI.

Decision on Agenda Item 14 Review of Administrative Expenses Allocated to GEF Implementing Agencies

27. Council reviewed document GEF/C.33/8, Review of Administrative Expenses Allocated to GEF Implementing Agencies, and requested:

- (a) the Secretariat to convene an inter-agency working group to develop a glossary of terms and reporting guidelines that would enable comparability between the Agencies with respect to reporting on administrative expenses and that would allow a consistent approach to tracking actual administrative costs across Agencies;
- (b) the Secretariat to provide recommendations from the working group to Council in Spring 2009;
- (c) each GEF Agency to provide to the Secretariat on an annual basis a list of staff (in Headquarter, as well as in field offices) that work full time or part time for the GEF, or if such data is not available, to provide an estimate of the number of staff years spent on corporate activities and project cycle management for the GEF;
- (d) each GEF Agency to report annually on services provided and actual aggregated expenditures on corporate activities and project cycle management with breakdowns by the categories of staff, consultants, travel, and other expenditures (e.g. office space, IT, etc.);
- (e) the Secretariat to collect this information and include it in the business plans presented to Council.
