

GUIDELINES FOR NATIONAL REPORTS

The following format for preparation of the national report specified in Article 26 of the Convention was endorsed by the Conference of the Parties in its decision V/19.

It is a series of questions based on the Articles of the Convention and on those elements of decisions of the Conference of the Parties which are addressed to Contracting Parties. Responses to these questions will help Contracting Parties to review the extent to which they are successfully implementing the provisions of the Convention and will assist the Conference of the Parties to assess the overall status of implementation of the Convention. The wording of questions follows the wording of the Articles and Decisions as closely as possible. 1/

The questions are simple in nature in order to facilitate completion of the review. In most cases they require only a tick in one or more boxes.2/ Following each set of questions there is a box for further comments. Contracting Parties are invited to provide a more detailed response to the preceding questions at this point.3/ This is an opportunity to identify particular successes or constraints. In particular this box could be used to identify cases where the reporting of no action or of a partial fulfillment of the obligation is the result of inadequate resources or a need for assistance, rather than a decision not to take action on a particular obligation.

The information provided by Contracting Parties will not be used to rank performance or to otherwise compare implementation between individual Contracting Parties.

In order to assist with the review and synthesis of the information in the reports, respondents are asked to ensure that the further information provided in this box is closely related to the preceding questions and is as succinct as possible. There is no set limit on length, but it is anticipated that Parties will be able to provide adequate and useful information in a maximum of a page or two at each of these points.

1/ Please note that obligations implied or specified by some decisions have been omitted where they are duplications of obligations already in the Articles or in other decisions, or where the deadline for compliance is now passed and information on the action undertaken is no longer relevant.

2/ If you feel that, in order to properly reflect the circumstances, it is necessary to tick more than one box, please do so. In this case, you are encouraged to provide further information in the box at the end of the set of questions.

3/ Please feel free to append to the report further information on any of the questions.

There is an opportunity at the end of the document to communicate any issues relevant to implementation of the Convention that have not been addressed by the questions below. The Executive Secretary would also welcome any comments on the adequacy of the questions, and difficulties in completing the questions, and any further recommendations on how these reporting guidelines could be improved.

It is recommended that Contracting Parties involve a wide range of stakeholders in the compilation of information that is presented in the report, in order to ensure a participatory and transparent approach to its development. A box is provided in which to identify those groups who have been involved in these processes.

Contracting Parties are requested to submit their second national report in this format to the Executive Secretary by 15 May 2001. Parties are requested to submit an original signed copy by post and an electronic copy on diskette or by electronic mail. An electronic version of this document will be sent to all national focal points and this will also be available from the Convention's website at:

Completed national reports and any comments should be sent to:
