

National reporting and review mechanisms

*Lessons from support to NBSAP revision
and Fifth National Reports*

Convention on
Biological Diversity

NBSAPs, Reporting & Strategic Plan

Strategic Goal E:

Enhance implementation through participatory planning, knowledge management and capacity building

Target 17:

By 2015 each Party has developed, adopted as a policy instrument, and has commenced implementing an effective, participatory and updated national biodiversity strategy and action plan

The NBSAP Forum

- GEF-funded project: \$1,7 million with \$2 million in co-finance
- New partners: BirdLife, Fridtjof Nansen, IUCN, OECD, WWF
- Forum is “one-stop shop” for NBSAP community of practice: 1,232 members & 178 countries
- Coordinated, targeted and demand-driven support
- Sharing and finding resources on each Aichi Target
- Obtaining peer and expert review on a draft NBSAP
- Popular resources: Best practices, e-learning modules, NBSAP Journey, webinars

NBSAP Peer Review

- Structured methodology for reviewing revised NBSAPs against a global baseline of best conservation planning practices (60 questions)
- UNDP, CBD and UNEP-WCMC comprise the technical team, and have provided **50 peer reviews**, aiming to do 100
- All countries are encouraged to submit draft NBSAPs for peer review, prior to submitting to CBD, and prior to adopting as a national instrument.
- An additional 268 NBSAP Forum members serve as voluntary reviewers.

Support on reporting to CBD

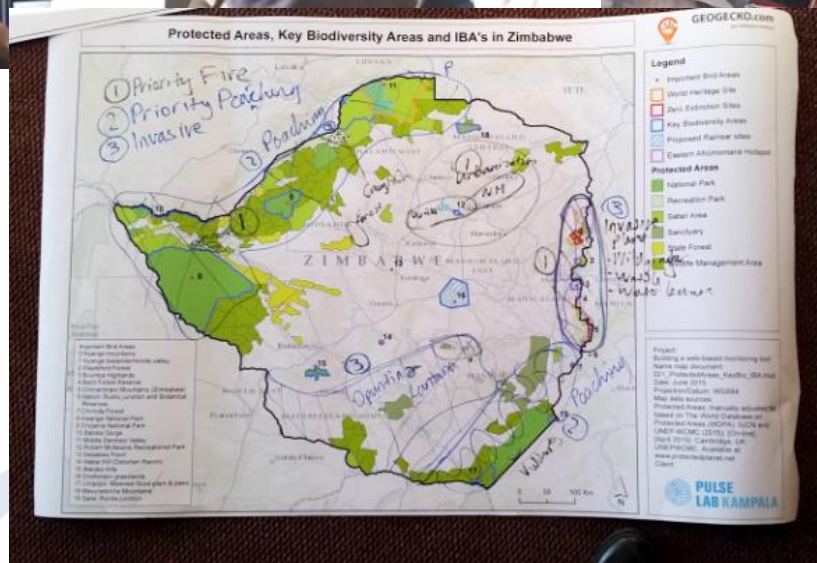

- **Support to countries on Biodiversity Enabling Activities**
 - UNEP 79 countries, UNDP 45 countries
 - Global learning materials
 - Direct technical support
- **Nov 2015 stocktaking surveys on progress**
 - Progress in NBSAP submissions: 84 planned by Jan 2016
 - Progress on 5NR: 85% complete
 - Development of national CHM
 - Development of a resource mobilization plan: 28 countries

Common gaps in NBSAPs and 5NR - I

- Mainstreaming biodiversity and development
- Identifying essential ecosystem services
- Information management
- Determining knowledge gaps
- Using spatial data in NBSAPs/5NR
- Using root cause analysis in NBSAPs/5NR
- Using valuation in NBSAPS/5NR

Common gaps in NBSAPs and 5NR - II

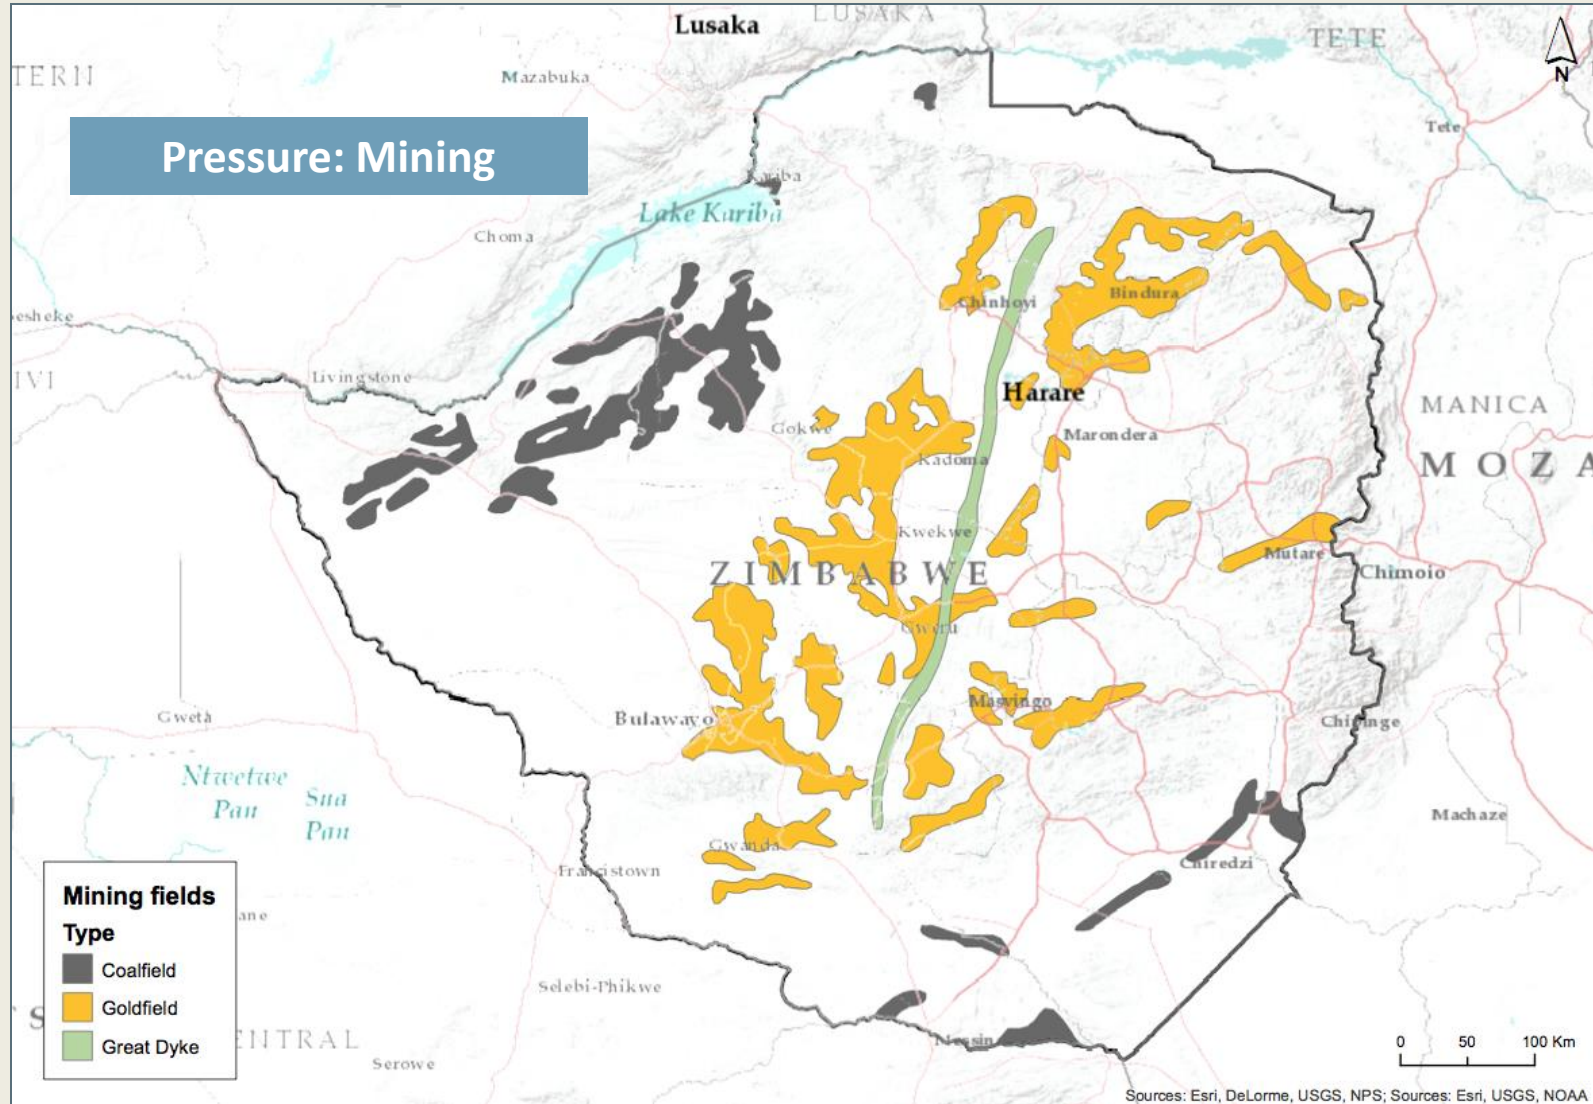

- Institutional arrangements for NBSAP implementation
- Integrating with other national development frameworks and Multilateral Environmental Agreements
- Developing actionable and costable NBSAPs and resource mobilization plans
- Using protected areas as a cross-cutting theme to achieve other targets
- CHM establishment and management/maintenance

NBSAP Spatial Data Challenge: Sample Data Layers

Pressure: Mining

Lessons for reporting I

1. Integrate key data sets
2. Report data spatially
3. Improve reporting on BD threats and pressures
4. Report on trends in natural capital
5. Encourage real time reporting

Lessons for reporting II

6. Encourage multiple data sources
7. Reduce the reporting burden
8. Shift to online reporting
9. Report on status & indicators
10. Link reporting on MEAs to SDGs

Thank you!
