Comments on national situation
<p>A wide range of information (country's biodiversity, protected areas, species, ecosystems, organizations involved in biodiversity management, legislation, policy, national plans and reports. Establishment of a national CHM is identified as a priority and is a component of the NBSAP revision project.</p> <ul style="list-style-type: none"> - Technical assistance to establish a national CHM is needed. - . Cooperation with Morocco to assist in establishing - CHM NFP and users from different sectors and ministries are identified. The Higher Council for Environment and Natural (National Focal Point) will coordinate the work on CHM (NFP) . Various ministries are involved in information exchange and scientific and technical cooperation in the area of biodiversity

Strategic Vision
<p>The CHM should be developed and fully operational to support the planning process, implementation and reporting through information exchange and provides information on the implementation of NBSAP. It is also useful for monitoring and evaluating of the NBSAP</p>
