Article 18. Technical & Scientific Cooperation

1. The Contracting Parties shall promote international technical and scientific cooperation in the field of conservation and sustainable use of biological diversity, where necessary, through the appropriate international and national institutions.
2. Each Contracting Party shall promote technical and scientific cooperation with other Contracting Parties, in particular developing countries, in implementing this Convention, inter alia, through the development and implementation of national policies. In promoting such cooperation, special attention should be given to the development and strengthening of national capabilities, by means of human resources development and institution building.
- 3. The Conference of the Parties, at its first meeting, shall determine how to establish a clearing-house mechanism to promote and facilitate technical and scientific cooperation.**
4. The Contracting Parties shall, in accordance with national legislation and policies, encourage and develop methods of cooperation for the development and use of technologies, including indigenous and traditional technologies, in pursuance of the objectives of this Convention. For this purpose, the Contracting Parties shall also promote cooperation in the training of personnel and exchange of experts.
5. The Contracting Parties shall, subject to mutual agreement, promote the establishment of joint research programmes and joint ventures for the development of technologies relevant to the objectives of this Convention.

Vision

By 2050, biodiversity is valued, conserved, restored and wisely used, maintaining ecosystem services, sustaining a healthy planet and delivering benefits essential for all people.

Mission

Take effective and urgent action to halt the loss of biodiversity in order to ensure that by 2020 ecosystems are resilient and continue to provide essential services, thereby securing the planet's variety of life, and contributing to human well-being, and poverty eradication ...

STRATEGIC GOAL A:

Address the underlying causes of biodiversity loss by mainstreaming biodiversity

STRATEGIC GOAL B:

Reduce the direct pressures on biodiversity and promote sustainable use

STRATEGIC GOAL C:

Improve the status of biodiversity by safeguarding ecosystems, species and genetic diversity

STRATEGIC GOAL D:

Enhance the benefits to all from biodiversity and ecosystem services

STRATEGIC GOAL E: Enhance implementation through participatory planning, knowledge management and capacity-building

VI. Support Mechanisms, Paragraph 22

- Collectively those involved in implementing the Convention have a **wealth of experience** and have developed many useful **good practice cases, tools and guidance**. There is additional useful information beyond this community.
- A **biodiversity knowledge network** will be developed including a **database and network of practitioners**, to bring together this knowledge and experience and to make it available through the clearing-house mechanism to facilitate and support enhanced implementation of the Convention.
- **National clearing-house mechanism** nodes comprising **networks of experts** with **effective websites** should be developed and sustained so that in each Party, all have access to the information, expertise and experience required to implement the Convention.
- **National clearing house mechanism** nodes should also be **linked to** the **central clearing-house mechanism** managed by the Convention Secretariat, and **information exchange** between these should be facilitated.

To contribute significantly to the implementation of

- the Convention on Biological Diversity*
- and the Strategic Plan for Biodiversity 2011-2020*

through

- effective information services*
- and other appropriate means*

in order to promote and facilitate

- scientific and technical cooperation,*
- knowledge sharing,*
- and information exchange*

and to establish a fully operational network of Parties and partners

3 Goals representing 3 levels of implementation

1. *The central CHM provides effective global information services to facilitate the implementation of the Strategic Plan for Biodiversity 2011-2020*
2. *National CHMs provide effective information services to facilitate the implementation of the NBSAPs*
3. *Partners significantly expand the CHM network and services*
