The formulation of Biodiversity Strategy and Action Plan for Xieng Khouang and Attapeu

Background:

- -The COP10 suggested all members to develop local biodiversity strategy and actions plan
- -The related UNDP biodiversity project support budget for formulating the two PBSAPs
- -The Department of Forest Resources (DFRM), IUCN Lao PDR and Attapeu province take lead in development process
- IUCN Lao PDR provided technical support and document writing
- DFRM edited Lao version
- UNDP supported projects edited Eng. version

The PBSAP formulation

Detail steps:

- -Planned activities developed and introduced/shared with donors
- -Coordinated with concern provincial organizations
- -Orientation and data collection workshop 3 days
- -Studied the all collected data and information,
- -Consultation workshop to share table of content and drafting first PBSAP with provincial stakeholder
- First drafted PBSAP improvement

The PBSAP formulation

Detail steps:

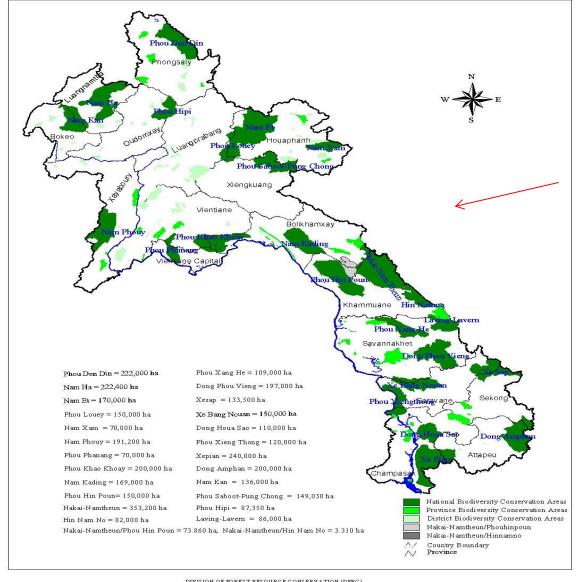

- -Second drafted PBSAP shared with DFRM and key provincial organizations for their comments
- -Second drafted PBSAP improved as final draft
- -Submission to get approval from provincial governor
- -PBSAP hand-over and launching.

The Xieng Khouang's PBSAP formulation

NATIONAL, PROVINCE AND DISTRICT BIODIVERSITY CONSERVATION AREAS

The Attapeu's PBSAP formulation

PBSAP layouts

The document consists of:

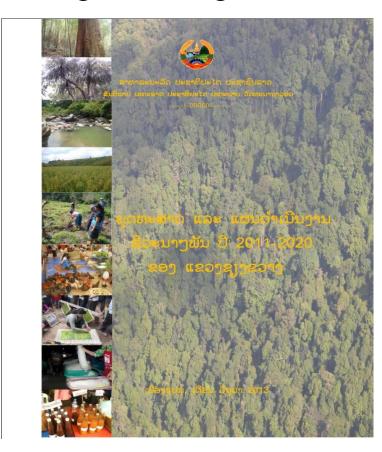

- Part I: provincial biodiversity status and some recommendations for sustainable biodiversity management
- Part II: In dept on provincial biodiversity strategy and action plans including provincial Vision. For each strategy consist of one or more programs; each program consist of one or more targets up to 2020 and 2015;

PBSAP layouts

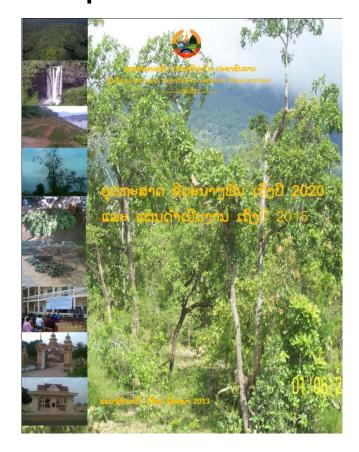

- -For 2015 target consists of one or more action plans/ projects which clearly identified responsible bodies, time frame, financial sources and success indicators
- -In the end of PBSAP, the guiding for PBSAP implementation, monitoring and evaluation have been suggested.

PBSAP of Xieng Khouang and Attapeu

Xieng Khouang PBSAP

Attapeu PBSAP

Lesson learnt from formulation process

- The PBSAP formulation conducted by Lao experts
- It make the process shorten
- If the concern province provide feedback in due time, the formulation process will complete or move ahead faster
- The remaining provinces should also develop PBSAPs through technical support from DFRM
- Challenges found in implementation due to lack of continuing support.
