### 13. GREENING OF THE MEETING

The Secretariat of the Convention and the German Government want to create a setting that is true to the spirit of the Convention and meets the requirements of environment protection in general. Germany is therefore organizing the meeting in line with a comprehensive and ambitious environmental plan with the purpose of ensuring that, to the extent possible, environmental impacts resulting from the meeting are avoided or, at a minimum, reduced, to give participants first-hand experience of the ideas behind the environmental concept and thus indirectly also promote the goals of the meeting.

The main areas that the concept will address are waste management, environmentally sound mobility of participants, efficient use of energy and water during the meeting and catering with a direct link to "agro biodiversity", one of the main topics of the meeting. Climate protection will also play a key role as it is closely connected to biodiversity.

---

† Visa application forms can be obtained from German embassies or consulates.

### 13.1 Waste

The starting point for the waste concept is waste prevention. Proper organization already creates the necessary basis for ensuring that large volumes of waste do not even arise at the meeting. To facilitate efficient waste recycling, separate collection will be uniformly implemented. Catering staff, for example, or workers erecting and dismantling equipment will separate wastes into the following categories: glass, paper (paper, cardboard packaging materials), recycling (plastics and other packaging materials) and general waste (residual refuse). There will be additional categories in the kitchens, e.g. biowastes.

Pictographs for separate waste collection:

		
<p>general waste (residual refuse)</p>	<p>paper, cardboard packaging materials</p>	<p>plastics and other packaging materials</p>

It is hardly possible to imagine a meeting without documents and brochures, but it is a great help to the environment if participants only take, distribute or copy what is really of interest and will actually be read. Different waste containers will also be placed throughout the meeting venue, including the public areas, enabling participants to dispose e.g. of their waste paper separately. This means that every participant can actively support the waste concept.

### 13.2 Energy and water

Energy and water consumption for the meeting will be kept as low as possible. All electricity needs will be supplied by certified green electricity for the duration of the meeting.

### 13.3 Transport

The transport concept aims at providing participants with a comprehensive range of environmentally friendly public transport modes for journeys to and from the meeting. Vehicles such as shuttle buses will be subject to particularly stringent environmental standards. The concept also includes free use of the public transport network in Bonn for journeys to the meeting venue. Further information on this can be found in sections 14 (Arrival/Departure) and 16 (Transportation between hotels and meeting venue).

### 13.4 Catering

The catering for the meeting represents a culinary experience with the menu including bioproducts, and reflecting the spirit of biodiversity with regional specialities and organic food. Products such as fair trade coffee will also be available.

### 13.5 Climate protection

The German Government is committed to minimizing the negative impacts on the climate. All greenhouse gas emissions, e.g. in the transport and energy sectors, will be kept as low as possible. All non-avoidable greenhouse gas emissions, for example emissions resulting from the long flights which many participants must take to and from Germany, will be offset by investments in climate-protection projects elsewhere. These projects will comply with the highest ecological and social standards.

## **14. ARRIVAL/DEPARTURE**

### **14.1 Transport provided by the host country**

The Government of Germany will provide a shuttle service, **free of charge**, between Cologne/Bonn Airport and Siegburg/Bonn ICE train Station and the hotels from Saturday, 17 May 2008 through Sunday, 18 May 2008 **for arriving participants** and from Friday, 30 May 2008 through Saturday, 31 May 2008 **for departing participants**. The shuttle service which will be identified with a COP-9 logo, will also operate on **Friday, 30 May 2008 from 4 to 11 p.m.** and on **Saturday, 31 May 2008 from 7 a.m. to 11 p.m.** at intervals ranging between 20 and 45 minutes.

Participants who wish to avail themselves of this shuttle service must complete the "Travel Information Form" attached to this note as **Annex B**. Duly completed forms must be forwarded as soon as travel arrangements have been made to the designated focal person (see Annex B) **no later than 30 April 2008**. Any request received after the set deadline of 30 April 2008 will not be considered **2008**. The transportation arrangements will be made based on the information provided by the participants in **Annex B**.

Participants who do not provide the form by the above-mentioned deadline will need to arrange their own transportation to/from the City of Bonn. Information on public transport is as follows:

## **18. EXHIBITION STANDS**

For the Conference of the Parties to the Convention on Biological Diversity, environmental protection has a high priority. The aim is to avoid negative environmental impact as much as possible during the whole conference, including side events and exhibitions. Therefore, exhibitors commit their consideration and participation to the environmental requirements when designing and operating their exhibition stands.

In order to raise awareness in society for the vital importance of biological diversity and its widely ranging impact on nature, economy, science and culture, the world's largest environmental foundation Deutsche Bundesstiftung Umwelt (DBU) [German Federal Foundation for the Environment] invites, by order of the German Government, all governmental and nongovernmental organisations, companies, associations, research and education facilities, both national and from abroad, to present their innovative projects, concepts and ideas around the topic of “biological diversity” within the **Plaza of Diversity** which will be located on the conference site.

The DBU will produce a compact exhibitor catalogue and will make available, via the following web site, all information concerning the project presentations and further events from the **Plaza of Diversity**: [www.plaza-of-diversity.org](http://www.plaza-of-diversity.org).

Participating governments and organizations wishing to book an exhibition space are invited to submit their applications, **no later than 31 January 2008**, to Ms. Tusche, the focal person designated by the DBU, by email, by facsimile or by mail (as appropriate), **with a copy** to the CBD focal person, Mr. David Ainsworth ([david.ainsworth@cbd.int](mailto:david.ainsworth@cbd.int)) **and** the Organization Office at the following coordinates:

**19. FAIR ON EXPERIENCES AND BEST PRACTICES IN CEPA**

A fair on experiences and best practices in Communication, Education and Public Awareness (CEPA) will be held on the margins of COP-9 in Room 0.105 of the Federal Ministry of Transport.

The Fair, which is organized jointly with the Government of Germany as the host of the ninth meeting of the Conference of the Parties, will include displays and presentations on the following themes:

- (a) national CEPA strategies and their contribution to implementation;
- (b) mobilization of the media for communication of messages on the importance of biodiversity for human well-being and of the Convention and its objectives;
- (c) integration of biodiversity considerations into education including formal and informal contexts, and *inter alia* primary, secondary, university, and professional training;
- (d) best practices in raising public awareness, including communicating with stakeholders and major groups, including business and other important economic sectors.

Parties and organizations will present their materials in a variety of formats including:

- Presentation of posters
- Display of printed materials

- Display of CD-ROMs
- Presentation of videos
- Events and presentations

To ensure maximum flexibility in presentations, and to take into account the different resource capabilities of Parties, it will also be possible to mount a display for only some of the days of the COP. Participants will be expected to have a resource person on hand at the fair during the entire time of their display.

The Secretariat invites Parties, other Governments, development agencies, research institutions, and other relevant organizations and initiatives to register their interest to showcase their CEPA projects and activities with the Secretariat at their earliest convenience, but **no later than 26 March 2008**.

In order to facilitate the organization of the Fair, indications of interest should include a short description of the proposed activities (one page maximum), presentations and/or material to be showcased, including any audio-visual requirements. The dates for display and/or presentations should also be indicated.

It is important to note that, due to restricted room capacity, only a limited number of exhibitors can be offered the opportunity to showcase their work.

The Secretariat reserves the right to select the exhibitors.

Limited support will be provided for PC-based materials and will be allocated on a first-come-first-served basis. Parties are therefore encouraged to provide their own laptops. Internet access will be made available. A large screen, with audio system will also be available for the display of films and presentations.

### EXHIBITION: THE “PLAZA OF DIVERSITY”, BONN, GERMANY 12-30 MAY 2008

#### 1. WHAT IS THE PLAZA?

In May 2008, Germany is host to the ninth meeting of the Conference of the Parties to the Convention on Biological Diversity (COP-9) and the fourth meeting of the Conference of the Parties serving as the Meeting of the Parties to the Cartagena Protocol on Biosafety (COP/MOP-4). Approximately 5,000 participants are expected to attend these two meetings. Aside from the formal negotiations, this is a major opportunity to raise awareness and celebrate the importance of biodiversity. It is also an opportunity to profile biodiversity projects and initiatives from around the world.

The “Plaza of Diversity”, which will be open from 12 to 30 May 2008, offers this space to participating organizations whose mandate is relevant to the work of the Convention. The Plaza of diversity will include an exhibition fair, workshops, and many other activities relevant to the implementation of the Convention on Biological Diversity.

The Plaza will also showcase initiatives at the federal level as well as initiatives of the city of Bonn. Deutsche Bundesstiftung Umwelt (DBU) [German Federal Foundation for the Environment] will also be profiling its interactive exhibitions “FasziNatur – Discover Nature” and “Inspired by Nature – Patent Workshop Bionics”, specifically targeted at children and students.

*Note: The Plaza will be located in the immediate vicinity of the meeting venue (Hotel Maritim), but there will be no booths inside the venue itself.*

#### 2. WHO CAN PARTICIPATE IN THE PLAZA?

The Plaza is open to all organizations, from governmental and non-governmental organizations; scientific, cultural and education institutions; indigenous and local communities; business associations and individual companies, *etc.*

*Note: Should the number of applications for booths exceed available space, DBU reserves the right to set up an independent jury in charge of the selection procedure.*

#### 3. WHO IS ORGANIZING THE PLAZA?

The Plaza is organized by the **Deutsche Bundesstiftung Umwelt (DBU) [German Federal Foundation for the Environment]** as a contribution to the ninth Conference of the Parties to the Convention on Biological Diversity (COP-9) and the fourth meeting of the Conference of the Parties serving as the Meeting of the Parties to the Cartagena Protocol on Biosafety (COP/MOP-4), which precedes it.

#### 4. WHAT DOES THE PLAZA OFFER?

The Plaza is divided into two segments, the “Campus” and the “Expo”, detailed below.

##### *(a) The Campus*

The **Campus of diversity** will run from 12-30 May 2008 inclusive. Organizations can take part for (1) COP/MOP-4 exclusively, (2) COP-9 exclusively, or (3) throughout the entire period (12-30 May). The Campus will be accessible to the general public throughout the meetings, although the main target group is Conference Participants. School trips are also anticipated. The Campus offers:

- Booths
- One main stage with a capacity of approximately 500 seats
- Smaller tents with a capacity for approximately 100 seats

The Campus will open daily, in between formal sessions, *i.e.* from 1 p.m.-3 p.m. and 6 p.m.-8 p.m.

*Note: Upon registration, exhibitors commit to provide staff to service their booths during the opening hours. Exhibitors agree that the Organizer (DBU) may hire personnel, at the cost of the exhibitor, if the booth is found unattended during the opening hours.*

**(b) The Expo**

The **Expo of diversity** will provide the same services as those of the “Campus” but will run only during the High Level (Ministerial) Segment of the Conference, from 27 to 30 May. The Expo will be located adjacent to the Campus. From 27 to 30 May, both the Campus and the Expo will thus be running concomitantly. The Expo will be accessible to the general public. The Host Government will be marketing the Expo to a general public audience. The Expo offers:

- Booths
- One main stage with a capacity of approximately 500 seats
- Tents with a capacity of approximately 100 seats

The Expo will open daily from 10 a.m.-8 p.m.

*Note: Upon registration, exhibitors commit to provide staff to service their booths during the opening hours. Exhibitors agree that the Organizer (DBU) may hire personnel, at the cost of the exhibitor, if the booth is found unattended during the opening hours.*

**(c) In summary**

Organizations can participate in the ‘Plaza’ in four different ways:

<b>Option 1</b>	Campus – during <b>COP/MOP-4</b> only (12-16 May)
<b>Option 2</b>	Campus – during <b>COP-9</b> only (19-30 May)
