REGIONAL WORKSHOP ON RESOURCE  
MOBILIZATION FOR AFRICA  
Entebbe, Uganda, 11–13 February 2014

### BACKGROUND AND PROGRAMME

#### I. BACKGROUND OF THE WORKSHOP

1. Further to the request expressed by the Conference of the Parties to the Convention, this workshop is one of a series of regional workshops to support Parties in the establishment of robust baselines and reporting framework, and the preparation of national financial plans for biodiversity (see paragraph 27 of decision XI/4).
2. The workshop is organized by the Secretariat of the Convention on Biological Diversity, the Biodiversity Finance Initiative of the United Nations Development Programme, and the World Conservation Monitoring Centre of the United Nations Environment Programme (UNEP-WCMC), with financial support provided by the Governments of Denmark and Japan. The workshop will be hosted by the Government of Uganda.
3. In 2010, the Conference of the Parties to the Convention adopted the Strategic Plan for Biodiversity 2011-2020 and its twenty Aichi Biodiversity Targets. The Strategic Plan, which has been recognized as the main global framework for biodiversity policy action by the United Nations system, underlines that biological diversity underpins ecosystem functioning and the provision of ecosystem services essential for human well-being. It provides for food security, human health, the provision of clean air and water; it contributes to local livelihoods, and economic development, and is essential for the achievement of the Millennium Development Goals, including poverty reduction.
4. The Conference of the Parties recognized that funding for biodiversity has been insufficient to address the rate of biodiversity loss and that the lack of sufficient financial resources (at international, national or local level) continues to be one of the main obstacles to achieving the Convention's objectives. The high-level panel on global assessment of resources for implementing the Strategic Plan for Biodiversity 2011-2020 noted that the implementation and delivery of the Aichi Biodiversity Targets requires the development of an appropriate and coherent political and institutional framework, and strong political will, particularly at national and regional levels. In order to give effect to the development of such frameworks at national level, the Conference of the Parties at its eleventh meeting encouraged Parties to develop, as a matter of priority and as appropriate, country-specific resource mobilization strategies, or finance plans, as part of their updated national biodiversity strategies and action plans.
5. Participants in the workshop comprise one resource mobilization expert from each of the countries in the region, such as the official in charge of resource mobilization and/or the development of national finance plans for the implementation of revised national biodiversity strategy and action plan. The following countries were invited to nominate officials: Algeria, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo, Côte d'Ivoire, /...

In order to minimize the environmental impacts of the Secretariat's processes, and to contribute to the Secretary-General's initiative for a C-Neutral UN, this document is printed in limited numbers. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.

Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Morocco, Mozambique, Namibia, Niger, Nigeria, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, Sudan, Swaziland, Togo, Tunisia, Uganda, United Republic of Tanzania, Zambia, Zimbabwe. Several regional and subregional organizations and United Nations organizations were also invited to send their representatives to this workshop.

6. The workshop seeks to contribute to achieving the following outcomes:

- Enhanced capacity of participants to apply pertinent methodologies, frameworks and tools for identifying, assessing, and reporting existing biodiversity finance, in order to develop robust financial baselines and for developing national finance plans, including financial targets, for effective implementation of revised NBSAPs;
- Enhanced understanding of participants of the importance, for effective mobilization of financial resources, of identifying relevant biodiversity values and incorporating these values in policy planning, including in revised national biodiversity strategy and action plans; and of existing case studies and good practices on pertinent approaches and measures for such identification and incorporation.

7. The immediate objective and output of the workshop is to enable each country representative to draft, in accordance with national circumstances, an individualized and prioritized action plan towards the development of national finance plans. The emphasis of the workshop will be on exchange of national experiences and active learning, and the step-by-step development of this action plan. With this in mind, the workshop format features a mix of presentations with question and answer sessions, plenary discussions, and work sessions to apply relevant tools and training modules towards the development of the action plan. A preliminary programme of the workshop is provided below.

8. The Secretariat issued a note for participants containing details of logistical arrangements, including information on travel, visa requirements, accommodation and other matters for the workshop. The note is available at <http://www.cbd.int/doc/?meeting=RM-2014-01>. The language of the workshop will be English and French, with interpretation being provided in both languages.

9. For their preparation of the workshop, participants are invited to undertake a stocktaking on (i) national activities associated with assessing biodiversity benefits and values; (ii) the national planning landscape and associated actors and institutions, (iii) drivers of change and associated actors and institutions, (iv) existing domestic finance mechanisms and volume of resources; (v) existing sources of ODA funding for biodiversity. Participants are also invited to review and bring their national biodiversity strategy and action plan in its current state of revision or updating, and to identify a number of action items amenable for costing and financial gap analysis. Participants will be provided with a package of succinct work sheets covering these issues two weeks in advance of the meeting.

10. The registration of participants will commence at the meeting venue at 8:30 a.m. on Tuesday, 11 February 2014.
