

Convention on
Biological Diversity

Group Work – Part 1

Regional Workshop for South, East and
Southeast Asia on the Preparation of the Fifth
National Report and Global Biodiversity Outlook
and Regional Policy Scenarios

Incheon City, Republic of Korea
20 - 24 May 2013

United Nations Decade on Biodiversity

Group Work – Part 1

Aichi Biodiversity Target	Part 1 Biodiversity status, trends, and threats and implications for human well-being		Part 2 The NBSAP, its implementation, and the mainstreaming of biodiversity		Part 3 Progress towards the Aichi Biodiversity Targets and contributions to the relevant Millennium Development Goals.			
	State of relevant biodiversity component or pressure	Impacts on or implications for human wellbeing	Implementation Actions/ Case studies	Action Effectiveness	Assessment of progress towards Aichi Targets and MDGs	Proposed National Target	Indicators/ Other information	Stakeholders
Target 1- Awareness increased								
Target 2 - Biodiversity values integrated								
Target 3 – Incentives reformed								
Target 4 – Sustainable consumption and production								
Target 5 – Habitat loss halved or reduced								

Group Work – Part 1

Objective:

- To begin identifying the information needed for each part of the fifth national report
- To gather relevant information in one spot
- To identify information gaps
- To identify the ministries, sectors, or organizations that could have relevant information to contribute or who should be consulted

Group Work – Part 1

Methods:

- We will make use of the table throughout the workshop
- The table will be completed in stages but the information in one section will help to complete the others
- It is not necessary to complete the entire table during the workshop
- The table can serve as a basis for further consultations

Group Work – Part 1

- Work in groups to fill in the table to the extent possible for your country
- Focus on Part 1 and on Targets 5 to 15
- For each target identify the relevant ecosystems and species or pressures and indicate their state (increasing, staying the same, decreasing)
- Some Aichi Targets will have several elements to address
- When you are unsure of the status, use your judgment and/or indicate where relevant information could be found
- Indicate what the implications are for human well-being

Group Work – Part 1

Aichi Biodiversity Target	Part 1 Biodiversity status, trends, and threats and implications for human well-being	
	<i>State of relevant biodiversity component or pressure</i>	<i>Impacts on or implications for human wellbeing</i>
Target 8 – Pollution reduced		

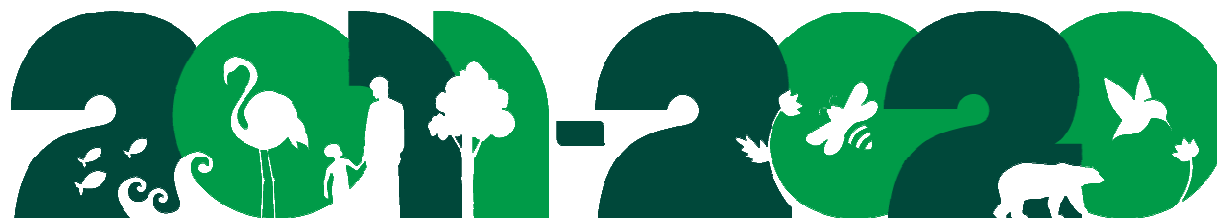

Convention on
Biological Diversity

Group Work – Part 2

Regional Workshop for South, East and
Southeast Asia on the Preparation of the Fifth
National Report and Global Biodiversity Outlook
and Regional Policy Scenarios

Incheon City, Republic of Korea
20 - 24 May 2013

United Nations Decade on Biodiversity

Group Work – Part 2

- Work in groups to fill in the table to the extent possible for your country
- Focus on Part 2 but consider the information identified in Part 1
- For each target identify the relevant actions that have been taken and/or case studies that could be used for illustration
- If possible indicate the effectiveness of the actions taken
- When you are unsure of the status, use your judgment and/or indicate where relevant information could be found

Group Work – Part 2

Aichi Biodiversity Target	Part 1 Biodiversity status, trends, and threats and implications for human well-being		Part 2 The NBSAP, its implementation, and the mainstreaming of biodiversity	
	<i>State of relevant biodiversity component or pressure</i>	<i>Impacts on or implications for human wellbeing</i>	<i>Implementation Actions/Case studies</i>	<i>Action Effectiveness</i>
Target 8 – Pollution reduced	Nitrogen resulting in the eutrophication of freshwater ecosystems	Creation of low oxygenated waters resulting in the death of fish and algal blooms with implications for the livelihoods of fishermen, food security and food diversity		

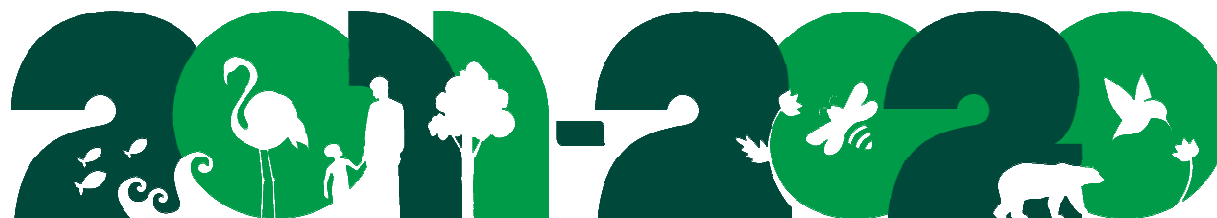

Convention on
Biological Diversity

Group Work – Part 3

Regional Workshop for South, East and
Southeast Asia on the Preparation of the Fifth
National Report and Global Biodiversity Outlook
and Regional Policy Scenarios

Incheon City, Republic of Korea
20 - 24 May 2013

United Nations Decade on Biodiversity

Group Work – Part 3

- Work in groups to fill in the table to the extent possible for your country
- Focus on Part 3 but consider the information identified in Parts 1 and 2
- Provide an evaluation of progress towards each Target (considerable progress, modest progress, limited progress, etc.)
- Identify or suggest relevant national targets
- Identify relevant national or global indicators. If indicators are not available identify the type of information that could be used to evaluate progress
- Identify relevant stakeholders

Group Work – Part 3

Aichi Biodiversity Target	Part 2 The NBSAP, its implementation, and the mainstreaming of biodiversity		Part 3 Progress towards the Aichi Biodiversity Targets and contributions to the relevant Millennium Development Goals.			
	<i>Implementation Actions/ Case studies</i>	<i>Action Effectiveness</i>	<i>Assessment of progress towards Aichi Targets and MDGs</i>	<i>Proposed National Target</i>	<i>Indicators/ Other information</i>	<i>Stakeholders</i>
Target 8 – Pollution reduced	<p>Regulations of the use and type of fertilizers</p> <p>Monitoring runoff water</p> <p>Artificial wetlands created for water pretreatment</p>	<p>Low (lack of effective enforcement)</p> <p>Low (lack of resources for consistent monitoring)</p> <p>High (natural solution with minimum maintenance)</p>
