

Convenio sobre la
Diversidad Biológica

La vida en armonía, hacia el futuro
いのちの共生を、未来へ
COP 10 / MOP 5

Presentación de la herramienta del CDB para reportar en línea

Taller Regional para Latinoamérica sobre
la preparación del quinto informe nacional e indicadores

Cochabamba, Bolivia
2-6 diciembre 2013

Antecedentes - Herramienta para reportar en línea

- Se ha reconocido en muchas decisiones de la COP, la necesidad de monitorear la implementación
- En la decisión VIII/14, la COP decidió establecer un mecanismo, como herramienta de planeación, para la entrega de informes;
- En línea con el artículo 18, esta herramienta facilitará la cooperación técnica entre las Partes, facilitando: el intercambio de información del diseño y aplicación de los indicadores, así como el intercambio de herramientas de políticas;
- La herramienta para la entrega de informes en línea es un complemento y no un reemplazo;
- Es parte del CHM.

Funciones – Herramienta para reportar en línea

Esta herramienta en línea permite a las Partes:

- Proporcionar actualizaciones de forma continua sobre el progreso hecho en las metas nacionales y en las Metas de Aichi
- Presentar directamente las EPANBs, informes nacionales y cualquier otro documento relevante
- Identificar más fácilmente las áreas donde se ha hecho progreso y las áreas que requieren mas esfuerzos

Funciones – Herramienta para reportar en línea

La herramienta para reportar en línea captura información sobre:

- Metas regionales, nacionales y sub-nacionales
- Indicadores
- Actividades

Permite a las Partes ligar la información a las Metas de Aichi relevantes

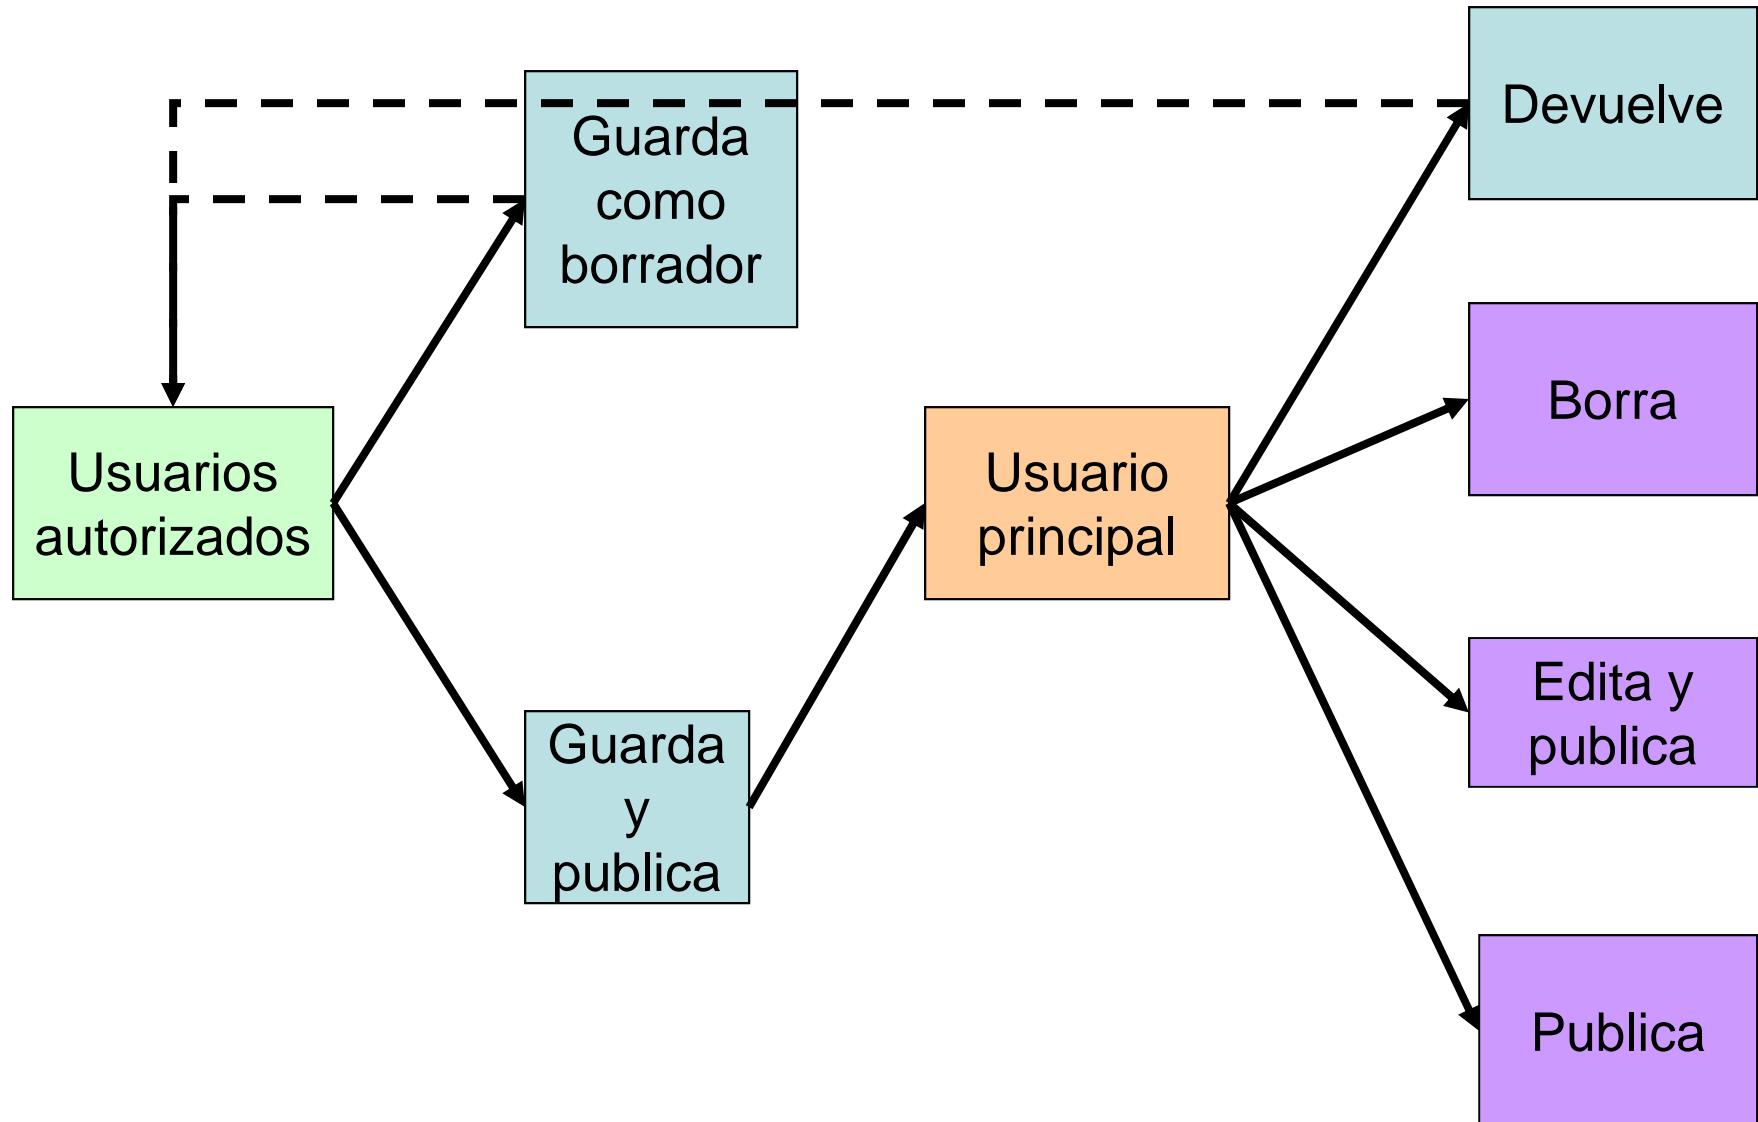

La información puede ser vista por la sección de Metas de Aichi o por la de metas nacionales

Esta herramienta ayudará a identificar las necesidades de desarrollo de indicadores, áreas que requieran más información o áreas que necesitan actualizarse

Funciones – Herramienta para reportar en línea

- Permite a un usuario principal que valide y publique la información
- El usuario principal puede designar a otros usuarios autorizados. Estos usuarios pueden meter información y preparar borradores pero sin ser publicados.
- La información ya registrada puede ser editada en cualquier momento
- Las funciones de búsqueda y pantallas de información están en desarrollo
- Se puede encontrar más información acerca de esta herramienta en el anexo I del documento
UNEP/CBD/SBSTTA/17/INF/12

Funciones – Herramienta para reportar en línea

National Records

The submission of records in this category is restricted to CHM National Focal Points (CHM-NFPs) and National Authorized Users (NAUs). All records submitted by NAUs will be forwarded to the CHM-NFP for review and validation prior to publication.

Select a Common Format:

National Reporting

National Reports, NSAPs, National Targets, National Indicators, Assessments of Progress, and Implementation Activities

Financial Resource Mobilisation

Preliminary reporting framework for the implementation of the strategy for resource mobilization

Reference Records

Records in this category may be submitted by all registered users. These records will be subject to review and validation by the Secretariat prior to publication

Select a Common Format:

Virtual Library - CHM Resources

Biodiversity-related Organizations

CBD Secretariat Records

The submission of records in this category is restricted to SCBD staff

Select a Common Format:

Marine Ecologically or Biologically Significant Areas (EBSA)

Strategic Plan Global Indicators

Case Studies

Warning! Information displayed is for demonstration purposes only and does not reflect CHM records. X
