

TEMPLATE FOR GATHERING INFORMATION ON SUCCESS STORIES REGARDING IMPROVEMENT OF CONSERVATION STATUS OF THREATENED SPECIES IN EACH COUNTRY

Scientific name of species	Family and class	Status in IUCN Red List last decade	Status in National Red List last decade	Status in most recent IUCN Red List	Status in most recent National Red List	Reason(s) for conservation status improvement*

*Possible reasons:

- (a) Improved conservation of its habitat (creation or improvement of protected area or other effective area-based conservation measure);
- (b) Reduction of threats (hunting/fishing/collecting, fire, deforestation, pollution, invasive alien species; etc.);
- (c) Implementation of conservation/restoration action plan(s) targeting the species;
- (d) Increased population in ex situ conservation;
- (e) Reintroduction of locally extinct species;
- (f) Discovery of new populations and expansion of known field range.
