

Reporting on PoWPA progress

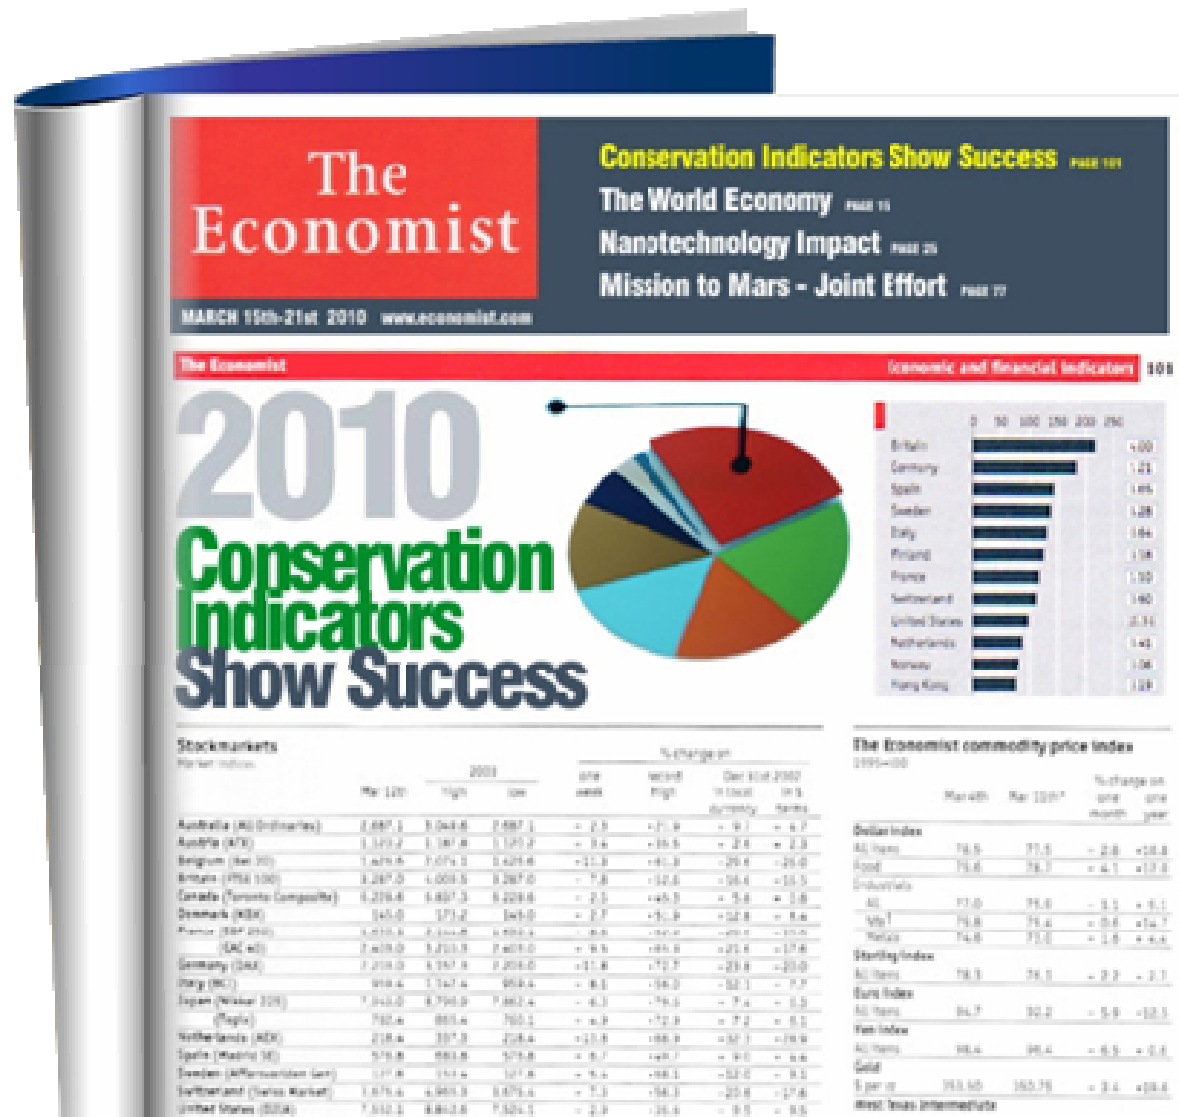

No shortage of biodiversity reports

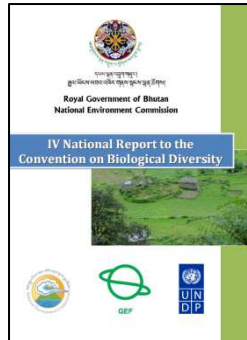

Reporting overload

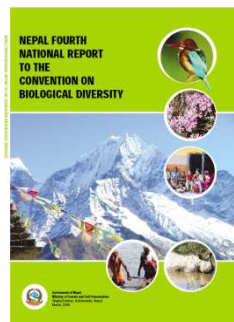

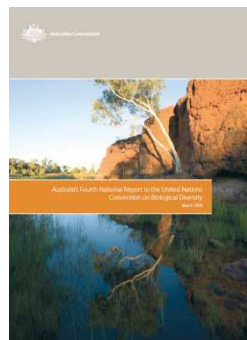

But do they answer the fundamental questions?

The existing framework for the 4th National Reports

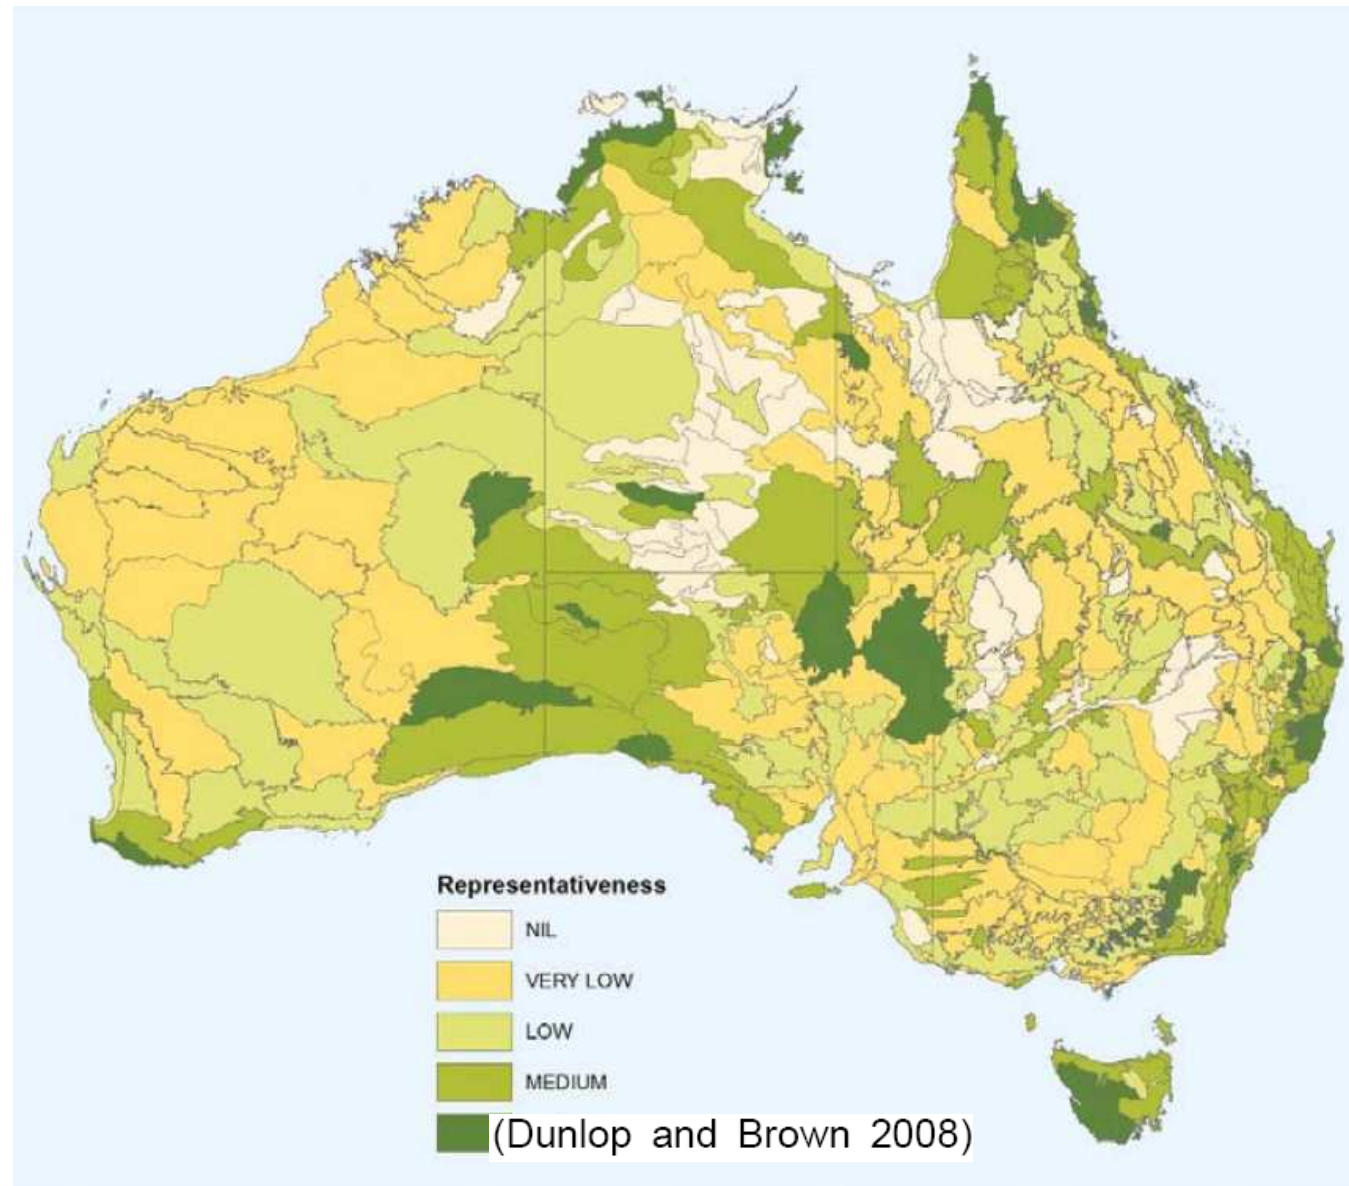

- 16 PoWPA targets
- Narrative description of progress
- Narrative description of obstacles

Target 1.1	Progress	Obstacles

Some very robust reports

And some less robust reports

- The obstacles encountered in the implementation of the programmes of  include inadequate human and financial resources to effectively monitor the activities.

1. Move toward a reporting system

...with fewer reports
