

NBSAP Training Package

Support for National Biodiversity Planning

NBSAP Training Modules

- How to develop/update an NBSAP
- Aimed at National Focal Points and BD planners
- Content being used in NBSAP workshops
- Also serve as reference material, entry point to other materials available
- E-learning version being developed

Approach

- Simple language
- Sequential, “how to”, but **not prescriptive**
- Emphasize that its an **iterative process**
- **Case studies**/ good practices / tools
- Questions for discussion/reflection, learning milestones
- Highlight, and link to **other resources**

NBSAP Training Package

- 1 Introduction
- 2 The NBSAP Process
- 3 Mainstreaming
- 4 Targets
- 5 Inclusive Engagement
- 6 Financing and Resource Mobilization
- 7 Communication
- 8 Sub-national BSAPs

Possible others – gender, information...

Module 1: Introduction

- What is an NBSAP? **Article 6** of the Convention
- Lessons learned from experience
- COP Guidance on NBSAPs
- **Strategic Plan for Biodiversity & Target 17**
- **Timeline** (targets by 2012, revise & adopt NBSAP by 2014)
- **Indicative Outline of an NBSAP**

Module 1: Case Studies

Japan

Sweden

St Lucia

Germany

Fiji

Cambodia

Costa Rica

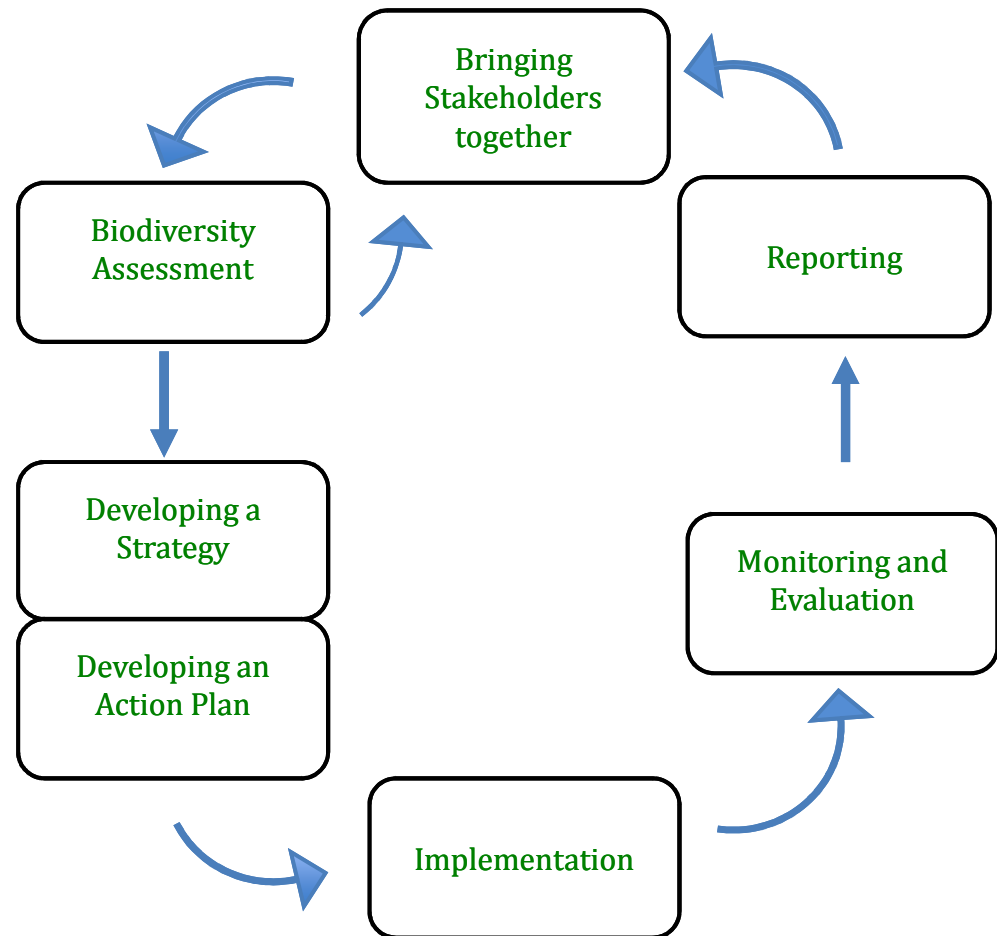

Botswana

Morocco

Module 2: NBSAP Planning Process

- Guiding principles for NBSAPs
- Process for developing/revising, implementing NBSAPs

Module 2: Case Studies

Some Possible forms for an NBSAP

Brazil – “non-NBSAP” approach, many elements brought together and published electronically.

France – Ten sectoral strategies coordinated by corresponding ministries.

South Africa – Policy and Legislative framework building on National Spatial Biodiversity Assessment

Inclusive Societal Engagement

Canada- Biodiversity Working Group
- Biodiversity Advisory Group

Module 2: Case Studies (contd)

Assessment and Strategy Development

Brazil -

Evaluation

Finland – Independent Review of NBSAP to inform revision

Reporting

Brazil – 3rd National Report lead to process of revision of National Biodiversity Policy

Module 3: Mainstreaming

- What is mainstreaming and why it is important?
- **Entry points** for mainstreaming
 - national, sub-national, regional levels, and in sectoral and cross sectoral plans, and area management initiatives
- **Approaches and tools** for mainstreaming

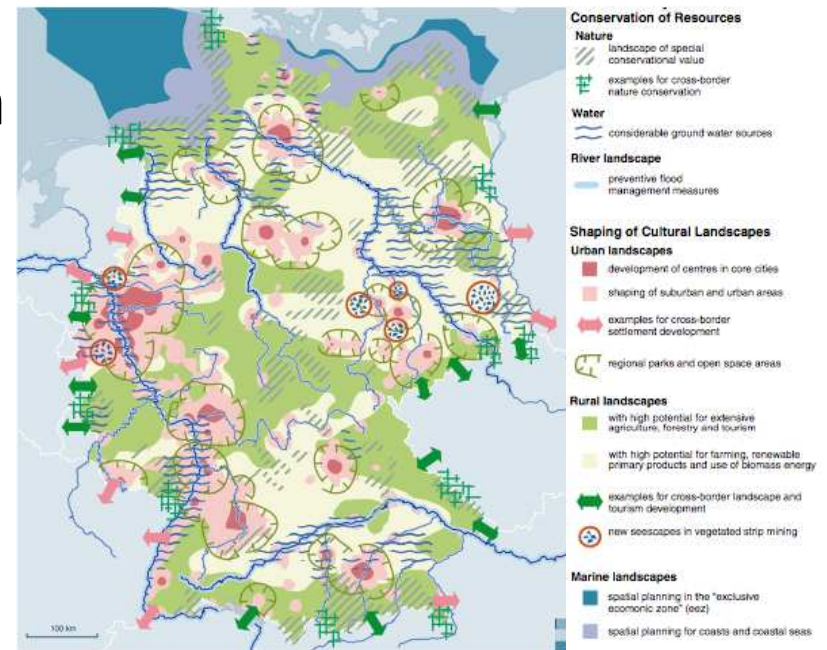

Module 3: Case Studies

- Integration of Environment into **Benin's** Growth Strategy for Poverty Reduction
- Mainstreaming Environment into Trade: **The Netherlands'** Sustainable Trade Initiative
- Ecological-Economic Zoning in the **Brazilian State of Acre**
- The Regional Coastal and Marine Conservation Programme for **West Africa** (PRCM)
- Decentralizing Wildlife Management Through **Namibia's** Conservancies
- Environmental Impact Assessment of Operational Forest Management Plans (OFMPs) in **Nepal**
- Strategic Environmental Assessment in **Sweden's**
- Development Cooperation Country Strategy for **Vietnam**

Module 3

Mainstreaming Approaches and Tools

- Ecosystem Services Approach
- EIA/SEA
- Ecosystem Approach
- Spatial Planning
- Indicators
- Legal Instruments
- Economic and Financial Tools
- Standards, Codes of Conduct, Guidelines, Certification and Good Practices

Module 4: Setting Targets

- What are targets and why are they important?
- The goals and targets of the Strategic Plan
- Adapting global targets to the national level
 - contributing to a cumulative global effort
- Characteristics of effective targets
- Monitoring progress towards targets using indicators

Module 4- Examples of National Targets

- By 2015, modernize agriculture to an ecologically acceptable level (Benin)
- By 2010, 100% reduction in the rate of deforestation in the Atlantic Forest biome, 75% in the Amazonian biome, and 50% in other biomes (Brazil).
- Number of community-based fisheries increased from 264 in 2000 to 589 in 2015 (Cambodia - MDGs)
- By 2012, 1% of EEZ (17% territorial waters) in management categories, increasing to 2% by 2015 (Costa Rica)
- Quebec committed to protecting 12% of its territory by 2015 (Canada)
- 10 million Europeans actively engaged in biodiversity conservation by 2010 and 15 million by 2015 (EU)
- By 2012, 50% of endangered species will be conserved (Japan)
- Forest cover will be increased from 20% to 23% and annual wood consumption reduced by 30%, and soil erosion by 24%. (Rwanda - Economic Development and Poverty Reduction Strategy 2008-2012).

Module 4- Case Studies

- PA coverage and deforestation targets – Brazil
- 10 Targets for 2015 - Australia
- Sustainable forest management targets – Finland
- Biodiversity relevant targets in:

Trade policy – Netherlands

MDGs and National Development Plan – Cambodia

- Indicators - UK

	Improving
	Little or no overall change
	Deteriorating
	Insufficient or no comparable data

Focal area, indicator number, title and individual measures (where applicable)		Long-term change ¹	Change since 2000
Focal area 1: Status and trends of the components of biological diversity			
1a: Populations of selected species (birds)	Breeding farmland birds	 1970-2000	
	Breeding woodland birds	 1970-2000	
	Breeding water and wetland birds	 1970-2000	
	Breeding seabirds	 1970-2000	
	Wintering waterbirds	 1970-2000	
1b: Populations of selected species (butterflies)	Semi-natural habitat specialists	 1970-2000	
	Generalist butterflies	 1970-2000	
1c: Populations of selected species (ants)		 1970-1990	

Module 5: Inclusive Engagement

- Why participation is important
- Identifying stakeholders
 - NBSAP steering committee, broader participation
- Carrying out a multi-stakeholder process
- Sustaining interest beyond planning phase
 - National Coordination Structures

Module 5: Case Studies

- 25,000 Stakeholders produce 71 BSAPs – India
- Ecological-Economic Zoning (ZEE) - Acre-Brazil
- France's Environment Round Table: Grenelle Environnement
- Developing Grenada's 1999 Forest Policy

DON'T THINK YOU HAVE NOTHING IMPORTANT TO SAY-
FILL IN YOUR QUESTIONNAIRE AND MAIL IT!

Comments and input are welcome

Thank You
