

Convention sur la
diversité biologique

ANNÉE INTERNATIONALE
DES FORÊTS • 2011

Réf. : SCBD/ITS/YX/75600

4 avril 2011

NOTIFICATION¹

Soutien accéléré du FEM pour les deuxièmes rapports nationaux sur la prévention des risques biotechnologiques

Madame/Monsieur,

Il me fait plaisir de vous acheminer la communication de Mme Monique Barbut, Directrice générale et Présidente du Fonds pour l'environnement mondial (FEM), relative à l'accès au financement du FEM pour la préparation des deuxièmes rapports nationaux sur la mise en œuvre du Protocole de Cartagena sur la prévention des risques biotechnologiques, dus le 30 septembre 2011.

Le Secrétariat de la Convention travaille de près avec le Secrétariat du Fonds pour l'environnement mondial afin de participer aux efforts de préparation des deuxièmes rapports nationaux sur la mise en œuvre du Protocole de Cartagena sur la prévention des risques biotechnologiques. Trois propositions de projets-cadre de moyenne envergure sont actuellement en préparation, dans le but d'accélérer le soutien financier aux deuxièmes rapports nationaux sur la prévention des risques biotechnologiques, et leur approbation finale est attendue sous peu. Veuillez ne pas hésiter à contacter le Secrétariat pour toute question ou tout besoin à cet égard.

Je vous prie d'agréer, Madame/Monsieur, l'assurance de ma considération distinguée.

Ahmed Djoghlaoui
Secrétaire exécutif

COP 10 / MOP 5

April 01, 2011

Dear Colleagues,

I am writing to inform you of the GEF Secretariat's plans to assist GEF-eligible Parties meet their reporting obligations under the Convention on Biological Diversity (CBD) and the United Nations Framework Convention on Climate Change (UNFCCC).

The many enabling activities, such as national communications under the UNFCCC as well as National Biodiversity Strategy and Action Plans and biosafety reports under the CBD, remain a top GEF priority. Therefore I want to emphasize that the GEF will continue to provide the resources for these activities, with the GEF-5 provision that has reserved up to \$500,000, per country and per focal area, outside of the STAR allocations.

Given our considerable experience with these activities, we now have put in place a number of ways for you to access resources for projects: this includes National Communications under the UNFCCC, and all of the biodiversity enabling activities under the CBD.

The first way is through direct access. As a result of the reforms which I have put in place countries can now access the GEF directly---without going through an agency--- for enabling activities. If you wish to use the direct access modality, please contact the GEF secretariat directly.

The second way is directly through a regular GEF agency. You can contact your preferred GEF agency directly, and they will work with you to develop the relevant project proposal and documentation for submission to the GEF Secretariat for approval. If, for any reason, you encounter difficulties in accessing a proper agency for these activities, I would like to hear from you immediately.

Third, there are currently two special UNEP Umbrella programs under development, one for climate change national communications, and the other for National Biodiversity Strategy and Action Plans (biodiversity national reports), directed specifically for LDCs and SIDs. If you wish to participate in these programs, you will need to send an endorsement letter directly to UNEP.

In summary, you can choose either one of these three modalities to access the resources you require: (i) Direct Access with the GEF Secretariat, (ii) Through a GEF Agency or (iii) Through the UNEP Umbrella projects under development.

Given the urgency of the deadline for the Second National Report on biosafety (September 30, 2011), the GEF Secretariat has been working with UNEP and the CBD Secretariat to finalize three umbrella MSPs that will expedite disbursement of the small grants, so that you can prepare the reports and submit them to the CBD Secretariat. We expect to finalize the approval of these MSPs very shortly. An announcement will be made in the GEF website, and another letter will be sent to GEF operational focal points and CBD focal points announcing the project.

We continue to be committed to working closely with you to provide as many options as possible to ensure the timely and effective disbursement of resources to allow the completion of these relevant activities. For GEF-5, we would like to emphasize an agenda that is country-driven and this is another reason why we have offered these various options to you.

If you need further information, please contact us at the GEF Secretariat.

Sincerely,

A handwritten signature in black ink, appearing to read 'Barbut', with a large, sweeping flourish extending from the end of the name.

Monique Barbut
CEO and Chairperson
Global Environment Facility
