

Dear Sir/Madam,

How are you? My name is Jingmei, and I'm sending this letter on behalf of China Biodiversity Conservation and Green Development Foundation (CBCGDF), a leading Chinese NGO dedicated to biological conservation and sustainable development for more than three decades.

In response to the Convention's notification (2018-063), we thank you for this opportunity to express our appreciation on the progress has been made by the Convention, together with Parties, other Governments, indigenous peoples and local communities, relevant international organizations, civil society organizations, etc. Hereby we would like to submit our comments on the proposed preparatory process for the development of the post-2020 global biodiversity framework:

1. Enabling non-governmental organizations in large developing countries to gain more opportunities to play a subjective initiative.
2. Formulating relevant rules to make private and financial sectors pay more attention to biodiversity conservation and emphasize corporate social responsibility in their work.

In the meantime, we are highly anticipating the upcoming the "UN Biodiversity Conference" in Egypt this November. We are under the process of registration for the COP14's side-events. We wish the Conference a smooth and grand success in advance!
