Comments on the draft proposals		
Page #	Para #	Comment
0	0	WHO would propose a meeting of the Interagency Liaison Group to ensure that the global framework and the objectives of the CBD-WHO joint work programme are fully reflected in the consultation process and aligned with the objectives and activities of decisions XII/21 and XIII/6
0	0	In the section on reports to be considered, WHO would like to propose that the findings of the State of Knowledge report would be considered in these discussions
6	22	With ref. to para 22. Which indicates “There may be useful lessons from the experience under the United Nations Framework Convention on Climate Change in developing the Paris Agreement including with respect to inviting, in advance of the final agreement, commitments from Parties...” there may be an analogous process we may wish to include from the health sector
15-17	Table 3 and Figure 2	<p>In Table 3 and Figure 2 on relevant processes in other agencies, the WHA 71 and WHA 72 should be included in the timeline of Indicative list of other events that may provide opportunities for consultations on the development of the post 2020 global biodiversity framework.</p> <p>In line with health in all policies (WHA 67.12), public health policies should seek to ensure that the impacts of ecosystem alteration are assessed and reflected in strategies by engaging with different sectors, disciplines and local populations, as an opportunity to maximize the shared health and environment benefits of addressing the upstream drivers of hazardous health conditions. The 2030 Agenda for Sustainable Development provides unique momentum and opportunity to develop coherent, coordinated, cross-sectoral action.</p>
