B. PRIORITY SETTING, TARGETS AND OBSTACLES

Box II.

Please provide an overview of the status and trends of various components of biological diversity in your country based on the information and data available.

Niue faces a lot of challenges in meeting its obligations to the CBD as has been realized during consultations for the preparation of this report. As a small island developing state, the challenges are compounded by a continuous population decline particularly of personnel with high level skills.

Commitment has been a piecemeal approach, and capacity development has been an ongoing feature of external technical assistance.

Programs currently in progress supports some target activities although they were not initially intended to address these.

Priority Setting

1. Please indicate, by marking an "X" in the appropriate column below, the level of priority your country accords to the implementation of various articles, provisions and relevant programmes of the work of the Convention.
