

*Please provide the following details on the origin of this report*

Contracting Party	<b>ROMANIA</b>
<i>National Focal Point</i>	
Full name of the institution:	<b>University of Bucharest Faculty of Biology, Animal Biology Department</b>
Name and title of contact officer:	<b>Asist. Dr. Nicolae Craciun</b>
Mailing address:	<b>Faculty of Biology, Spaiul Independentei, 91-95, Sect. 5 Bucharest 76203 Romania</b>
Telephone:	<b>+4-01-411.52.07 / +4-01-780.77.68</b>
Fax:	
E-mail:	<b>AQUATER@BIO.BIO.UNIBUC.RO</b>
<i>Contact officer for national report (if different)</i>	
Name and title of contact officer:	
Mailing address:	
Telephone:	
Fax:	
E-mail:	
<i>Submission</i>	
Signature of officer responsible for submitting national report:	
Date of submission:	

***Please provide summary information on the process by which this report has been prepared, including information on the types of stakeholders who have been actively involved in its preparation and on material which was used as a basis for the report***

**Article 8h Alien species**

1. What is the relative priority afforded to implementation of this Article and the associated decisions by your country?					
a) High		b) Medium		c) Low	X
2. To what extent are the resources available adequate for meeting the obligations and recommendations made?					
a) Good		b) Adequate		c) Limiting	
				d) Severely limiting	X

3. Has your country identified alien species introduced?	
a) no	
b) only major species of concern	X
c) a comprehensive system tracks introductions	
4. Has your country developed national policies for addressing issues related to alien invasive species?	
a) no	
b) yes – as part of a national biodiversity strategy (please give details below)	X
c) yes – as a separate strategy (please give details below)	
5. Has your country assessed the risks posed to ecosystems, habitats or species by the introduction of these alien species?	
a) no	
b) only some alien species of concern have been assessed	
c) most alien species have been assessed	X
6. Has your country undertaken measures to prevent the introduction of, control or eradicate those alien species which threaten ecosystems, habitats or species?	
a) no measures	
b) some measures in place	
c) potential measures under review	X
d) comprehensive measures in place	

**Decision IV/1 Report and recommendations of the third meeting of SBSTTA**

7. Is your country collaborating in the development of projects at national, regional, sub-regional and international levels to address the issue of alien species?	
a) little or no action	X
b) discussion on potential projects under way	
c) active development of new projects	

8. Does your national strategy and action plan address the issue of alien species?	
a) no	X
b) yes – limited extent	
c) yes – significant extent	

*Case-studies*

9. Has your country submitted case-studies on the prevention of introduction, control, and eradication of alien species that threaten ecosystems, habitats or species, in response to the call by the fourth meeting of SBSTTA?	
a) no – please indicate below whether this is due to a lack of available case-studies or for other reasons	X
b) yes – please give below any views you may have on the usefulness of the preparation of case-studies for developing a better biological understanding of the problem and/or better management responses.	
10. How many case-studies are available that could be used to gain a better understanding of the issues surrounding alien species in your country?	
a) none	X
b) 1-2 – limited understanding	
c) >2 – significant information available	

*Transboundary issues*

11. Are known alien invasive species in your country also a problem in neighbouring or biogeographically-similar countries?	
a) not known	
b) none	
c) a few – but in general alien invasive species problems are specific	X
d) more than a few - in general we share common problems with other countries	
12. Is your country collaborating in the development of policies and programmes at regional, sub-regional or international levels to harmonise measures for prevention and control of alien invasive species?	
a) little or no action	
b) discussion on potential collaboration underway	X
c) development of collaborative approaches for a limited number of species	
d) consistent approach and strategy used for all common problems	

### *Further comments*

In our country are not exists any national research programme for exotic fishes. It is necessary to protect the endemic fish species for the security of the biodiversity.

I believe that all the questions in this form are very concise and with these, you can form an opinion about the situation of the species.

We propose studies on the exotic fish species and the real impact upon the ecosystems and upon the concurrence with the indigenous species, analyse of the perturbation of the ecosystems, the prolifically capacity of the fishes.

It is necessarily to quantify the effective of the fish species, the aria occupied in Romania and realisation of a database with the species and their ecological problems.

It is very necessary to do these studies on expansive species with ecological impact upon the ecosystems.

Also is necessary to organise work teams specialised in alien species, which will modulate and young specialists in zoology, taxonomy, plants and ecology.

This is a preliminary report we still working on this theme.
