

## Preliminary Report for the “Strategy for Resource Mobilization”

### Identification of respondent

Country:	JAPAN
Please indicate on whose behalf this is being completed:	<input type="checkbox"/> National Focal Point <input type="checkbox"/> Focal point for resource mobilization <input checked="" type="checkbox"/> Other. Please specify: Official
Title and Department of respondent	Assistant Director, Global Biodiversity Strategy Office, Nature Conservation Bureau
Organization of respondent:	Ministry of the Environment
Email address:	YASUHARU_INA@env.go.jp
Telephone contact:	+81-3-3591-3228
Date of completion and submission of completed framework:	24 September 2012

Country:	JAPAN
Please indicate on whose behalf this is being completed:	<input checked="" type="checkbox"/> National Focal Point <input type="checkbox"/> Focal point for resource mobilization <input type="checkbox"/> Other. Please specify:
Title and Department of respondent	Researcher, Global Environment Division, International Cooperation Bureau
Organization of respondent:	Ministry of Foreign Affairs
Email address:	eiji_hatano@mofa.go.jp
Telephone contact:	+81-3-5501-8244
Date of completion and submission of completed framework:	23 October 2012

# Preliminary Report for the “Strategy for Resource Mobilization”

## 1. Information on International Flows of Financial Resources

Year: “2009”			Currency: million Yen									
Type of financial flows			Activity categories								Total	
			Category A: Biodiversity protection		Category B: Policy development and administration		Category C: Sustainable use and management		Category D: Sustainable production and consumption			
			Amount	Confidence	Amount	Confidence	Amount	Confidence	Amount	Confidence	Amount	Confidence
1.1 Official Development Assistance	1.1.1 Bilateral	—		—		—		—		96,533	high	
	1.1.2 Multilateral	—		—		—		—		4,152	high	
1.2 Other public funds		—		—		—		—		—		
1.3 Private/ Market		—		—		—		—		—		
1.4 Not for profit organizations		—		—		—		—		—		
Total:		—		—		—		—		—		
Comments: ODA, Birateral Total amount of Official Development Assistance, bilateral, is calculated bay using the figure recorded as “Rio marker” in OECD-DAC, with appropriate refinement by following condition setting: • Year:2009												

## Preliminary Report for the “Strategy for Resource Mobilization”

- Recipient Name: Items of unspecified is excluded. Items on contribution to IUCN are calculated as “Multilateral” Official Development Assistance.
- Environment: Projects in which environment is marked as “principle” objective are counted.
- Biodiversity: Projects in which biodiversity is marked as “principle” objective are counted.
- Commitment: Project amount is valued as usd commitment.

Reported activities includes following shortdescription:

- 2<sup>nd</sup> Hanoi drainage project for environmental improvement (II)
- Assessment of mangrove forest affected by cyclone nargis to facilitate the development of an integrated mangrove ecosystem management
- Baghdad sewerage facilities improvement project (e/s)
- Capacity building and regional collaboration for enhancing the conservation and sustainable use of plant genetic resource in Asia
- Community plant genetic resources use and conservation in East Africa
- Hai Phong city environmental improvement project (II)
- North Lima metropolis water supply & sewerage optimization (I)
- Promoting conservation of selected tree species currently threatened by habitat disturbance and population depletion
- Provincial cities water supply and sewerage project
- TC aggregated activities

### ODA, Multilateral

Total amount of Multilateral ODA covers contributions to projects on multilateral environmental agreements, including GEF contribution, capacity building or other small grant project and support for developing countries to participate in intergovernmental conference. Items on Multi-year contribution are calculated as 2009 one-year basis.

## Preliminary Report for the “Strategy for Resource Mobilization”

Activities considered <i>(Please check those that apply)</i>	<b>Safeguarding biodiversity</b> <input checked="" type="checkbox"/> in situ/ex situ conservation <input checked="" type="checkbox"/> Protected areas <input type="checkbox"/> Maintaining genetic diversity <input type="checkbox"/> Addressing threats from invasive alien species <input checked="" type="checkbox"/> Addressing threats to specific ecosystems and/or species	<b>Biodiversity Planning</b> <input checked="" type="checkbox"/> NBASP development <input checked="" type="checkbox"/> CHM related activities <b>Access and Benefit Sharing of Genetic Resources</b> <input type="checkbox"/> ABS frameworks <b>Biosafety</b> <input type="checkbox"/> Biosafety frameworks	<b>Sustainable management of ecosystems</b> <input checked="" type="checkbox"/> Sectoral measures to promote biodiversity conservation and sustainable use within productive use within productive sectors (agriculture, forestry, aquaculture, fisheries, etc.) <input checked="" type="checkbox"/> Sectoral measures to conserve water and prevent pollution <b>Land use and climate related activities</b> <input checked="" type="checkbox"/> Managing land use to protect biodiversity, mitigate climate change and increase resilience	<b>Measures in the wider economy and society</b> <input type="checkbox"/> Planning, fiscal and regularity measures to promote sustainable consumption and production <input type="checkbox"/> Broad scale public awareness and education measures
Additional activities <i>(please add additional activities not already included in the row above)</i>				

## Preliminary Report for the “Strategy for Resource Mobilization”

### 2. Information on the Availability of Financial Resources in each country

Year: 2009		Currency: million Yen									
Source		Activity categories								Total	
		<b>Category A:</b> Biodiversity protection		<b>Category B:</b> Policy development and administration		<b>Category C:</b> Sustainable use and management		<b>Category D:</b> Sustainable production and consumption			
		Amount	Confidence	Amount	Confidence	Amount	Confidence	Amount	Confidence	Amount	Confidence

## Preliminary Report for the “Strategy for Resource Mobilization”

### **3. Information on the steps being taken to implement the strategy for resource mobilization**

Steps		Year initiated/ completed	Description of support received for the step (if applicable)	Results achieved (if applicable)
3.1 Assessment of values of biodiversity	No <input checked="" type="checkbox"/> Yes <input type="checkbox"/>	/	(for developing country)	—
3.2 Identification and reporting funding needs, funding gaps and funding priorities	No <input checked="" type="checkbox"/> Yes <input type="checkbox"/>	/	(for developing country)	—
3.3 Development of national financial plans for biodiversity	No <input checked="" type="checkbox"/> Yes <input type="checkbox"/>	/	(for developing country)	—
3.4 Integrated consideration of biodiversity and ecosystem services in development plans and strategies	No <input type="checkbox"/> Yes <input checked="" type="checkbox"/>	/1998	(for developing country)	5th Comprehensive National Development Plan
3.5 Country integrated consideration of biodiversity and ecosystem services in national budgets	No <input checked="" type="checkbox"/> Yes <input type="checkbox"/>	/	(for developing country)	—
Comments:				

## Preliminary Report for the “Strategy for Resource Mobilization”

### **4. Information on Specific Issues Related to Resource Availability**

#### *4.1: Technical cooperation, capacity building and South-South Cooperation*

Year: “2009”

Currency: million Yen

Type of initiative	Number	Amount	Confidence	Description
4.1.1 North-South technical cooperation and capacity building provide	23	2,662	medium	ODA
4.1.2 Support to South-South technical cooperation & capacity building through triangular cooperation	3	16	medium	ODA
Comments: JICA tallied numbers and amounts of figures on “North-South” and South-South” cooperation based on its performance. Only projects with which management of biodiversity is direct and central purpose are counted.				

#### *4.2 Resources raised through reform of incentives and subsidies*

Year:

Currency: million Yen

Incentives	Value	Description
4.2.1 Removed, reformed or phased-out	—	—
4.2.2 Positive incentives introduced	—	—
Comments:		

## Preliminary Report for the “Strategy for Resource Mobilization”

### *4.3 New and innovative financial mechanism*

Year: Currency: million Yen

Type of Initiative	Amount	How the intrinsic and all other values of biodiversity have been reflected	Description
(difficult to grasp)	—	—	—
Comments: Some cases are introduced in the following web-site <a href="http://www.biodic.go.jp/biodiversity/shiraberu/policy/pes/en/index.html">http://www.biodic.go.jp/biodiversity/shiraberu/policy/pes/en/index.html</a>			

### *4.4 Access and benefit sharing of genetic resources initiatives and mechanisms consistent with the Convention*

Initiative	Description (including how resource mobilization is enhanced)
(difficult to grasp)	—
Comments:
