Collective Action by Indigenous peoples and local communities

Reporting and indicators under Aichi targets including the financial reporting framework

At this side event results from a Dialogue Workshop on Assessment of Collective Action by indigenous peoples and local communities in Biodiversity Conservation will be presented. It took place from 11-13 June 2015 in Panajachel, Guatemala, in response to COP12 decisions. Key outcomes that will be presented relates to:

- Values, valuation and measurement of the benefits of collective action and its contribution to biological diversity
- Methods for measuring and aggregating data related to contribution from collective action
- Indicators and equivalents for reporting contributions of collective action by indigenous peoples and local communities in the financial reporting framework of the CBD

Facilitators:

- **Ana Silvia Morales**
CONAP, Guatemala
