Submission from Norway - preliminary reporting framework

With reference to notification 2013-025 (Ref.: SCBD/TSI/RS/ML/GD/82040) please find enclosed the Norwegian input in the preliminary reporting framework.

Please note that we had to use one sheet pr year for the period 2006 - 2012. The figures for international expenditure are somewhat different from our submission in 2010. The information provided is based on the OECD/DAC reporting system, which uses a policy-marker for biodiversity.

For domestic expenditures we have not updated the information, but would refer to our submission from 2012.

Other comments are given in the enclosed excel sheet.

Yours sincerely,

Birthe Ivars
Deputy Director General

Tone Solhaug
Senior Adviser
