National Development
Indonesia’s Vision 2014

“To ACHIEVE INDONESIA THAT IS PROSPEROUS, DEMOCRATIC AND JUST”, as explained below:

People’s Prosperity:
Improved prosperity, through economic development which rests on the country’s competitive advantage, abundant natural resources, human resources and culture. This chief objective is to be achieved by improving the mastery of science and technology.

Democracy
A society, nation, and state that is democratic, civilized, and dignified, and honors the responsibility in freedom and human rights.

Justice
Realization of fair, equally distributed development which is actively supported by the people throughout the nation that will benefit from it.

The National Medium Term Development Plan 2010-2014 provide further guidelines for ministries/institutions in developing their own Strategic Plan and be considered by the local governments while developing/adjusting their own local development plan in order to achieve the national development goals.
### Direction of Indonesia Foreign Policy

1. To take on a more significant role and leadership in ASEAN and in the establishment of ASEAN Community 2015

2. To take on a more significant role in preserving national security and creating world peace

3. To improve the performance of border diplomacy

4. To improve the quality of services for and protection of Indonesian citizens and Indonesian legal entities overseas

5. To create a more positive image of Indonesia through advancement of democracy and human rights, and protection of culture heritage

6. To strengthen strategic partnerships in the regions of Asia Pacific and America-Europe

7. To improve the quality of economic diplomacy in multilateral forums through: Indonesia’s active participation in multilateral forums such as WTO, APEC, G-20, and G-33 to further promote the interest of Indonesian and other developing countries.

8. To increase the South-South cooperation
Development Cooperation model has aligned with the world economic growth

- South-South and Triangular Cooperation become a **complementary** of existing North-South Cooperation
- South-South Cooperation has made Middle Income Countries to play important roles in the **development of new architecture** of aid for development effectiveness perspective
- **Scaling up knowledge sharing activities** through North-South, South-South and Triangular Cooperation in accordance with G-20 Working Group of Development Meeting
GRAND DESIGN AND BLUE PRINT OF INDONESIA SOUTH-SOUTH AND TRIANGULAR COOPERATION
South-South and Triangular Cooperation (SSTC) works best for the cause of development?

Three reasons:

1. SSTC serves as a model for genuine global partnership for development.

2. SSTC can bring about more transparency and accountability.

3. SSTC can be precisely tailored to the needs of each developing country.
